

Report on the Implementation of the Engagement Policy 2026

The Client Asset Management Department, in accordance with the Bank's Engagement Policy, reports the following for the second half of 2025 and the first half of 2026:

In managing portfolios during the period from 1 July 2025 to 30 June 2026, the Bank's Client Asset Management Department did not manage an aggregate shareholding exceeding 5% in any company and, therefore, the Bank did not participate in any vote that could be considered significant.

The Bank considers a vote to be minor where the size of the Bank's position in a company is small compared with the holdings of other shareholders, or where the shares concerned represent only a small proportion of the value of the Bank's clients' portfolios.

In minor votes, the Bank accepts the voting recommendations of the company's Management Board and votes in favour.
