

## PROGRAMME FOR THE OFFERING OF BONDS OF BLUOR BANK AS IN THE AMOUNT OF UP TO EUR 15,000,000 AND ADMISSION THEREOF TO TRADING ON THE BALTIC BOND LIST OF NASDAQ RIGA

This Base Prospectus (the "**Base Prospectus**" or the "**Prospectus**") was prepared for the programme (the "**Programme**") for the offering of non-convertible unsecured and unguaranteed subordinated bonds (the "**Bonds**") of BluOr Bank AS a joint stock company, incorporated in, and operating under the laws of the Republic of Latvia, and registered in the Commercial Register of Latvia maintained by the Enterprise Register under the registration number: 40003551060, legal address: Smilšu iela 6, Riga, LV-1050, Latvia, (the **Company**, the **Issuer**, the **Bank**) in the amount of up to EUR 15,000,000 (the "**Offering**") and admission thereof (the "**Admission**") to trading on the Baltic Bond List of AS Nasdaq Riga ("**Nasdaq**" or "**Nasdaq Riga**").

This Base Prospectus should be read and constructed together with any supplements hereto (if any) and any other documents attached herein and, in relation to any tranche of Bonds issue (the "**Tranche**"), with the Final Terms of the relevant Tranche (the "**Final Terms**"), as applicable. The issue-specific summary shall be annexed to the Final Terms of each of the Tranche and shall be announced in the same order as the Base Prospectus and provided to the Latvian competent authority, the Financial and Capital Market Commission (in Latvia: *Finanšu un kapitāla tirgus komisija*, the "**FCMC**") together with the Final Terms.

Neither this Base Prospectus nor any Final Terms constitute an offer to sell or a solicitation of an offer to buy the Bonds in any jurisdiction to any person to whom it is unlawful to make any such offer or solicitation in such jurisdiction. Furthermore, the distribution of this Base Prospectus and/or any Final Terms in certain jurisdictions may be restricted by law. Thus, persons in possession of this Base Prospectus and/or any Final Terms are required to inform themselves about and to observe any such restrictions. Any failure to comply with these restrictions may constitute a violation of the securities laws of any such jurisdiction.

The Bonds referred to herein have not been and will not be registered under the United States Securities Act of 1933, as amended, or under any securities laws of any state or other jurisdiction of the United States and are not being offered or sold within the United States or to, or for the account or benefit of, US persons (for more information please see Section 1.3 (Use of Prospectus)).

The Bonds shall be offered, as specified in the Base Prospectus and the Final Terms, subject to possible cancellation or modification of the Offering and subject to certain other conditions.

This Base Prospectus has been prepared and the Final Terms will be prepared by the Company in accordance with the Regulation (EU) 2017/1129 of the European Parliament and of the Council, as may be amended from time to time (the "**Prospectus Regulation**"), Commission Delegated Regulation (EU) 2019/980, as may be amended from time to time (the "**Delegated Regulation**") and the Financial Instrument Market Law of the Republic of Latvia, as amended (the "**Financial Instrument Market Law**"). The FCMC in its capacity as the competent authority in Latvia under the Prospectus Regulation has approved this document as a Base Prospectus and has notified the approval of the Base Prospectus to the Estonian Financial Supervision Authority (in Estonian: *Finantsinspeksioon*; the "**EFSA**") and the Bank of Lithuania (in Lithuanian: *Lietuvos bankas*, the "**Bank of Lithuania**").

The approval by the FCMC of this Base Prospectus only means that it is meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Such approval should not be considered as an endorsement of the quality of the Bonds that are the subject of this Base Prospectus. Application has also been made to Nasdaq Riga for Bonds issued under the Programme to be admitted to trading on the Baltic Bond List of Nasdaq Riga.

Investors should make their own assessment as to the suitability of investing in the securities. The Bonds are subordinated to all unsubordinated claims against the Company. The subordination of the Bonds means that upon the liquidation or insolvency of the Company, all the claims arising out of the Bonds shall fall due in accordance with the terms of the Bonds and shall be satisfied only after the full satisfaction of all unsubordinated recognized claims against the Company in accordance with the applicable law. Consent of the Bondholders is not necessary for effecting bail-in measures by the FCMC.

The Base Prospectus has been drawn up as a base prospectus in accordance with Article 8 of the Regulation (EU) 2017/1129.

The information contained herein is current as of the date of this Base Prospectus. Neither the delivery of this Base Prospectus nor the offer, sale or delivery of the Bonds shall, under any circumstances, create any implication that no adverse changes have occurred nor events have happened, which may or could result in an adverse effect on the Company's or its Subsidiaries' (collectively the "**Group**") business, financial condition or results of the operations and/or the market price of the Bonds. Nothing contained in this Base Prospectus constitutes or shall be relied upon as a promise or representation by the Issuer.

Although the whole text of this document as well as of the Final Terms should be read, the attention of the persons receiving this document is drawn, in particular, to the Section headed Risk Factors contained in Section 3 (*Risk factors*) of this document. All statements regarding the Company's and the Group's business, financial position and prospects as well as the Offering should be viewed in light of the risk factors set out in Section 3 (*Risk factors*) of this document.

All the Bonds of the Company (when issued) will be non-material registered bonds and will be registered with Nasdaq CSD, SE ("**Nasdaq CSD**"). When registering the Bonds of different Tranches, Nasdaq CSD will provide different ISIN to Bonds of different Tranches, unless it will be decided by Nasdaq CSD to provide the same ISIN to Bonds of different Tranches for any reason. Bondholders will be able to hold the Bonds through Nasdaq CSD participants including the Bank, such as investment firms and custodian banks operating in any of the Baltic states.

The date of this Base Prospectus is 25 April 2022.

# 1. IMPORTANT INFORMATION

## 1.1. General information

This Base Prospectus has been prepared by the Company in connection with the Offering and the Admission, solely for the purposes of enabling any prospective investor to consider an investment in the Bonds. This Base Prospectus is a prospectus in the form of a single document within the meaning of the Prospectus Regulation and the Delegated Regulation. This Base Prospectus has been prepared in accordance with Article 8 of the Prospectus Regulation, Article 7 and Article 15 of the Delegated Regulation and Annex 6 (*Registration document for retail non-equity securities*) and Annex 14 (*Securities note for retail non-equity securities*) of the Delegated Regulation. Each Tranche issued in accordance with the Base Prospectus shall be accompanied by a summary that shall contain the key information set out in the Commission Delegated Regulation (EU) 2019/979.

This Base Prospectus has been approved by the FCMC, as the competent authority under the Prospectus Regulation and only as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Approval of this Base Prospectus by the FCMC should not be considered as an endorsement of the quality of the Bonds that are the subject of this Base Prospectus and investors should make their own assessment as to the suitability of investing in the Bonds.

This Base Prospectus should be read and construed together with any supplement hereto (if any) with any other documents attached herein, in relation to any Tranche of Bonds, with the Final Terms of the relevant Tranche.

The validity of the Base Prospectus will expire 12 months after approval hereof by the FCMC. The obligation to supplement the Base Prospectus in the event of significant new factors, material mistakes or material inaccuracies does not apply when the Base Prospectus is no longer valid.

Taking into consideration that this Base Prospectus contains several hyperlinks to websites, it is also noted that information on such websites does not form part of the Base Prospectus and has not been scrutinised or approved by the FCMC. This shall not apply to hyperlinks to information that is incorporated by reference to this Base Prospectus (please see Section 1.6 (*Information Incorporated by Reference*))

## 1.2. Responsibility of this Prospectus

The person responsible for the information given in this Base Prospectus is the Company. The Company accepts responsibility for the fullness and correctness of the information contained in this Base Prospectus as of the date hereof. Having taken all reasonable care to ensure that such is the case, the Company believes that the information contained in this Base Prospectus is, to the best of the Company's knowledge, in accordance with the facts, and contains no omission likely to affect its import.

**Dmitrijs Latiševs**

*Chairman of the Management Board*

---

**Dmitrijs Feldmans**

*Member of the Management Board*

---

**Inga Preimane**

*Member of the Management Board*

---

**Vadims Morozs**

*Member of the Management Board*

---

**Igors Petrovs**

*Member of the Management Board*

Without prejudice to the above, no responsibility is accepted by the persons responsible for the information given in this Base Prospectus solely on the basis of the summary of this Base Prospectus, which will be annexed to the Final Terms of each of the Tranche, including any translation thereof, unless such summary is misleading, inaccurate or inconsistent when read together with other parts of the Base Prospectus or it does not provide, when read together with other parts of the Base Prospectus, key information in order to aid investors when considering whether to invest in the Bonds.

Neither the Company nor the legal advisors to the Company will accept any responsibility for the information pertaining to the Offering and Admission, the Group or its operations, where such information is disseminated or otherwise made public by third parties either in connection with this Offering and Admission or otherwise.

By participating in the Offering, investors agree that they are relying on their own examination and analysis of this Base Prospectus (including the financial statements of the Group which form an indispensable part of this Base Prospectus) and any information on the Company and on the Group that is available in the public domain. Investors must also acknowledge the risk factors that may affect the outcome of such investment decisions (as presented in Section 3 (*Risk Factors*)).

Any persons in possession of this Base Prospectus should not assume that the information in this Base Prospectus is accurate as of any other date than the date of this Base Prospectus, if not expressly indicated otherwise. The delivery of this Base Prospectus at any time after the conclusion of it will not, under any circumstances, create any implication that there has been no change in the Company's (its Group's) affairs since the date hereof or that the information set forth in this Base Prospectus is correct as of any time since its date. In case material changes in operations of the Issuer occur until the term of validity of this Base Prospectus or until Admission (depending on which of these events will happen earlier), they will be reflected in supplements to the Base Prospectus, which will be subject to approval by the FCMC and notification to the Bank of Lithuania and the EFSA. The supplement (if any) will be published in the same manner as the Base Prospectus.

Where a claim relating to the information contained in the Base Prospectus is brought before a court, the plaintiff investor might, under national law, have to bear the costs of translating the Base Prospectus before the legal proceedings are initiated.

### **1.3. Use of Prospectus**

This Base Prospectus is prepared solely for the purposes of the Offering of the Bonds and listing and the admission to trading of the Bonds on the Baltic Bond List of Nasdaq Riga.

No public offering of the Bonds is conducted in any jurisdiction other than Latvia, Lithuania and Estonia (where the public offering of the Bonds to institutional and retail investors takes place) therefore the distribution of this Base Prospectus in other countries may be restricted or prohibited by law.

This Base Prospectus may not be used for any other purpose than for making the decision of participating in the Offering or investing in the Bonds. You may not copy, reproduce (other than for private and non-commercial use) or disseminate this Base Prospectus without express written permission from the Company. Persons into whose possession this Base Prospectus or any Final Terms come are required by the Issuer to inform themselves about and to observe any such restrictions.

Prior to making a decision to participate or refrain from participating in the Offering or to conduct any trading activities with the Bonds on Nasdaq Riga the prospective Investors should read this document. In making an investment decision, prospective investors must rely upon their own examination of the Company and the terms of this document, including the risks involved. It is forbidden to copy, reproduce (other than for private and non-commercial use) or disseminate this Base Prospectus without express written permission from the Company.

#### 1.4. Availability of the Prospectus

This Base Prospectus will be published by means of a stock exchange release through the information system of Nasdaq Riga. The Base Prospectus is also available in an electronic form on the website of the FCMC ([www.fktk.lv](http://www.fktk.lv)) and on the website of the Company ([www.bluorbank.lv](http://www.bluorbank.lv)). Any interested party may request delivery of an electronic copy of the Base Prospectus by the Company without a charge. A paper copy of the Base Prospectus can be obtained at the premises of the Company (address: Smilšu iela 6, Riga, LV-1050, Latvia) by any interested party upon request. Delivery of the Base Prospectus is limited to the jurisdictions in which the Offering to the public is being made.

#### 1.5. Forward-Looking Statement

This Base Prospectus includes forward-looking statements (notably under Sections "Risk Factors", "Business Overview", "Reasons for Offering and Use of Proceeds"). Such forward-looking statements are based on current expectations and projections about future events, which are in turn made on the basis of the best judgment of the Management. Certain statements are based on the beliefs of the Management as well as assumptions made by and information currently available to the Management. Any forward-looking statements included in this Base Prospectus are subject to risks, uncertainties and assumptions about the future operations of the Group, the macro-economic environment and other similar factors.

In particular, such forward-looking statements may be identified by use of words such as "strategy", "expect", "plan", "anticipate", "believe", "will", "continue", "estimate", "intend", "project", "goals", "targets" and other words and expressions of similar meaning. Forward-looking statements can also be identified by the fact that they do not relate strictly to historical or current facts. As with any projection or forecast, they are inherently susceptible to uncertainty and changes in circumstances, and the Company is under no obligation to, and expressly disclaims any obligation to, update or alter its forward-looking statements contained in this Base Prospectus whether as a result of such changes, new information, subsequent events or otherwise.

The validity and accuracy of any forward-looking statements are affected by the fact that the Company operates in a highly competitive business. This business is affected by changes in domestic and foreign laws and regulations (including those of the European Union), taxes, developments in competition, economic, strategic, political and social conditions, consumer response to new and existing products and technological developments and other factors. The Company's actual results may differ materially from the Management's expectations because of the changes in such factors. Other factors and risks could adversely affect the operations, business or financial results of the Company (please see Section 3 (*Risk Factors*) for a discussion of the risks which are identifiable and deemed material at the date hereof).

#### 1.6. Information Incorporated by Reference

The following information is incorporated in this Base Prospectus by reference in accordance with Article 19 of the Prospectus Regulation:

- the Group's consolidated and the Bank's separate audited financial statements for the year ended 31 December 2021 together with the independent auditor's report (<https://www.bluorbank.lv/api/file/29226>);
- the Group's consolidated and the Bank's separate audited financial statements for the year ended 31 December 2020 together with the independent auditor's report (<https://www.bluorbank.lv/api/file/28576>);
- Articles of Association (they may be accessed in Latvian via the following hyperlink <https://www.bluorbank.lv/api/file/2788> and in English via the following hyperlink <https://www.bluorbank.lv/api/file/2807>).

Reference to the Company's website in this Base Prospectus should not be deemed to incorporate the information on the Company's website by reference.

### **1.7. Documents on Display**

Throughout the period of validity of this Base Prospectus, the aforementioned Audited Financial Statements and Articles of Association may also be inspected at the head office of the Company located at Smilšu iela 6, Riga, LV-1050, Latvia. Any interested party may obtain a copy of these documents without a charge.

To the extent that documents other than those mentioned above (i.e. reports, letters, valuations, statements) are not reflected in this Base Prospectus with reasonable fullness and do not at the sole discretion of the Company constitute business secrets or inside information of the Company, requiring market disclosure, physical inspection of such documents will be arranged at the office of the Company at the request of any interested party and subject to an agreement between the Company and such interested party regarding the means of inspection of the relevant documents.

### **1.8. Applicable Law**

This Base Prospectus has been drawn up by the Company in accordance with and is governed by Latvian law, in particular, the Financial Instrument Market Law, Prospectus Regulation and Delegated Regulation, in particular Annexes 6 and 14 of the Delegated Regulation. The Base Prospectus is comprised of a registration document of the Company drawn up in accordance with Annex 6 of the Delegated Regulation and securities note of the Bonds drawn up in accordance with Annex 14 of the Delegated Regulation.

The Company will, as deemed necessary, supplement the Base Prospectus with updated information pursuant to the Latvian Financial Instrument Market Law.

### **1.9. Financial Information and Accounting Principles**

The Group's consolidated and the Bank's separate financial statements for the year ended 31 December 2020 (Schedule 1) and the Group's consolidated and the Bank's separate financial statements for the year ended 31 December 2021 (Schedule 2) have been prepared in accordance with the International Financial Reporting Standards ("IFRS") as adopted by the European Union (the EU) and audited by PricewaterhouseCoopers SIA, registered in the Commercial Register of Latvia maintained by the Enterprise Register under the registration number: 40003551060, legal address: Kr. Valdemāra iela 21-21, Riga, LV-1010, Latvia ("**PricewaterhouseCoopers SIA**").

The Bank's auditor is PricewaterhouseCoopers SIA, who has been appointed as the auditor on the basis of the decisions of the General Meeting of the Bank, dated 9 July 2020 and 15 October 2021. PricewaterhouseCoopers SIA is registered as a Company of Certified Auditors with the Latvian Association of Certified Auditors.

Apart from the information taken from the Group's consolidated and the Bank's separate financial statements for the year ended 31 December 2020 and the year ended 31 December 2021, this Base Prospectus contains no other audited information.

Financial information for the year ended 31 December 2019 presented in the Prospectus is derived from unaudited comparative financial information in the financial statements for the year ended 31 December 2020. When preparing financial statements for the year ended 31 December 2020, certain comparative data for 2019 was restated as compared to the previously issued financial statements for the year ended 31 December 2019. Details of restatements are described in Note 3 to the financial statements for the year ended 31 December 2020.

## 1.10. Presentation of Information

**Approximation of Numbers.** Numerical and quantitative values in this Base Prospectus (e.g. monetary values, percentage values, etc.) are presented with such precision which is deemed by the Company to be sufficient in order to convey adequate and appropriate information on the relevant matter. From time to time, quantitative values have been rounded up to the nearest reasonable decimal or whole value in order to avoid an excessive level of detail. As a result, certain values presented as percentages do not necessarily add up to 100% due to the effects of approximation. Exact numbers may be derived from the Audited Financial Statements to the extent that the relevant information is reflected therein.

**Currencies.** In this Base Prospectus, financial information is presented in *euro* (EUR), the official currency of the European Union Member States in the Eurozone.

**Date of Information.** This Base Prospectus is drawn up based on information that was valid as of the date of the Base Prospectus. Where not expressly indicated otherwise, all information presented in this Base Prospectus (including the consolidated financial information of the Company, the facts concerning its operations and any information on the markets in which it operates) must be understood to refer to the state of affairs as of the aforementioned date. Where information is presented as of a date other than the date of the Base Prospectus, this is identified by specifying the relevant date.

**Third-Party Information and Market Information.** For portions of this Base Prospectus, certain information may have been sourced from third parties. Such information is accurately reproduced and as far as the Bank is aware and is able to ascertain from the information published by such third parties, no facts have been omitted which would render the reproduced information inaccurate or misleading. Where information has been sourced from third parties, a reference to the respective source has been provided together with such information was presented in this Base Prospectus. Certain information with respect to the markets in which the Company and its Subsidiaries operate is based on the best assessment made by the Management. With respect to the industry in which the Bank and its Subsidiaries are active and certain jurisdictions in which they conduct their operations, reliable market information is often not available or is incomplete. While every reasonable care was taken to provide the best possible assessments of the relevant market situation and the information on the relevant industry, such information may not be relied upon as final and conclusive. Investors are encouraged to conduct their own investigation of the relevant markets or employ a professional consultant.

**Updates.** The Company will update the information contained in this Base Prospectus only to such extent and at such intervals and by such means as required by the applicable law or considered necessary and appropriate by the Management. The Company is under no obligation to update or modify forward-looking statements included in this Base Prospectus (please see Section 1.5 (*Forward-Looking Statement*) above).

**Definitions of Terms.** In this Base Prospectus, capitalized terms have the meaning ascribed to them in Section 12 (*Glossary*), with the exception of such cases where the context evidently requires to the contrary, where the singular shall include the plural and vice versa. Other terms may be defined elsewhere in the Base Prospectus.

**Hyperlinks to Websites.** This Base Prospectus contains hyperlinks to websites. The information on the websites does not form part of the Base Prospectus and has not been scrutinised or approved by the FCMC, except for hyperlinks to information that is incorporated by reference.

## 1.11. MIFID II Product Governance

It should be noted that the Bonds are governed by the Directive 2014/65/EU (as amended, “**MiFID II**”) meaning that the product manufacturer – the Bank, has to carry out product approval process to determine the target market for the Bonds.

Solely for such purpose the Bank has come to a conclusion that the target market for the Bonds is eligible counterparties, professional clients and retail clients as defined by MiFID II. Furthermore, all channels for distribution of the Bonds to eligible counterparties and professional clients are appropriate, however with regard to retail clients only limited distribution channels might be used: investment advice, portfolio management, and non-advised sales, subject to the distributor’s suitability and appropriateness obligations under MiFID II, as applicable.

Any person subsequently offering, selling or recommending the Bonds (a “distributor”) should take into consideration the Bank’s target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Bonds (by either adopting or refining the manufacturer’s target market assessment) and determining appropriate distribution channels. For the avoidance of doubt, the target market assessment does not constitute an assessment of suitability or appropriateness for the purposes of MiFID II or a recommendation to any investor or a group of investors to invest in, or purchase, or take any other action whatsoever with respect to the Bonds.

## 2. A GENERAL DESCRIPTION OF THE BOND PROGRAMME

As indicated in this Base Prospectus, it is designated to (i) the Bond issue Programme for the Offering of Bonds of the Company in the amount of up to EUR 15,000,000 and (ii) Admission thereof to trading on the Baltic Bond List of Nasdaq Riga.

Following the requirements of the applicable law and the Articles of Association, the Programme shall be executed based on the decision of the Management and on the decision of the Supervisory Board. The decisions of the Management Board and Supervisory Board by which each Tranche of the Bonds shall be issued shall be specified in the Final Terms.

Under the Programme, the Issuer may issue Bonds up to an aggregate principal amount of EUR 15,000,000. The Bonds shall be issued and offered in Tranches. The terms and conditions of each Tranche shall consist of (i) the General Terms and Conditions of Bonds which are identified in Section 7 (*Securities Note*) and Section 8 (*Terms and Conditions of the Offer*) and which shall apply to each Tranche and (ii) the Final Terms.

Thus, the Bonds of each of the Tranches will generally be subject to similar main terms, except that the following may differ, as specified in the respective Final Terms of the respective Tranche:

- (a) the Issue Date, the nominal value of the Bonds, the Issue Price of the Bonds, Maturity Date, Call Date and annual interest rates.

The aggregate principal amount of the Bonds of each of the Tranches shall be specified in the Final Terms. The Issuer may decrease the aggregate principal amount of the Programme and decrease or increase the aggregate principal amount of a Tranche as set out in the Final Terms during the Subscription Period of that Tranche.

The Bonds under the Programme may be issued during the validity term of the Base Prospectus, i.e., 12 months after approval of the Base Prospectus. When this term adjourns and if there is a need to issue any additional bonds by the Issuer, the respective corporate decisions would be taken and a new prospectus would be drafted and provided for approval to the FCMC.

Each Tranche of the Bonds under the Programme will be of fixed and middle term and may have a maturity between 5 (five) and 10 (ten) years or such other maturity as the Issuer decides, but in any case, not shorter than 60 (sixty) months.

The Bonds under the Programme shall be issued in non-material registered form. According to the Financial Instrument Market Law the book entry and accounting of the dematerialized securities in the Republic of Latvia, which will be admitted to trading on the regulated market (Nasdaq Riga), shall be done by Nasdaq CSD.

The Bonds of the respective Tranche shall be valid from the date of their registration until the date of their redemption and deletion from Nasdaq CSD. No physical certificates will be issued to the investors. Principal and interest accrued will be credited to the Bondholders' accounts through Nasdaq CSD.

Neither the Issuer nor the Bonds shall be assigned with credit ratings as a result of the Offering under the Programme.

For more information regarding the Bonds to be issued under the Programme please see Section 7 (*Securities Note*). For more information regarding the use of the proceeds, received from the issue of the Bonds under the Programme, please see Section 7.2 (*Reasons for the Offering and Use of Proceeds*). For more information regarding the Offering of the Bonds under the Programme please see Section 8 (*Terms and Conditions of Offering*).

## 3. RISK FACTORS

### 3.1. Introduction

Prospective investors should be aware that investing in Bonds involves significant risks. Before investing in the Bonds, the prospective investors should carefully review and consider the risk factors presented below and other information contained in this Base Prospectus. If one or more of the risks described below actually materialize, it could, individually or in combination with other circumstances, have a materially adverse impact on the Issuer's operations, in particular on its cash flow, financial position, results of operations and outlook, or the market value of the Bonds and/or the Issuer's ability to perform its payment obligations under the Bonds. As a result, the investors who purchase the Bonds may lose a part or all of their investment.

The Issuer believes that the risk factors described below represent the principal risks inherent in investing in the Bonds. The risk factors are presented in categories and where a risk factor may be categorised in more than one category, such risk factor appears only once and in the most relevant category for such a risk factor. The most material risk factor in a category is presented first under that category, the assessment of the materiality of each risk factor is based on the probability of its occurrence and the expected magnitude of its negative impact, disclosed by rating the relevant risk as low, medium or high. Subsequent risk factors in the same category are not ranked in order of materiality or probability of occurrence.

The risk factors are presented as currently seen by the Issuer based on the information available to it to date and its reasonable opinion. However, the prospective investors should note that the risk factors listed below are not exhaustive. The Issuer's ability to pay interest, principal or other amounts in connection with the Bonds may be affected by other factors or occurrences that currently may not be considered significant risks by the Issuer based on information currently available to it or which it may not currently be able to anticipate or which currently, even if potentially possible to anticipate, do not seem material to the Issuer.

The prospective investors should also read the detailed information set out elsewhere in this Base Prospectus. The Base Prospectus contains forward-looking statements which also involve risks and uncertainties (Section 1.5 (*Forward-Looking Statements*)). The Issuer's actual results may differ significantly from those anticipated in the forward-looking statements as a result of various factors, including but not limited to the risks described below and elsewhere in this Base Prospectus.

This Base Prospectus shall not be considered to be investment advice or recommendation for the subscription and/or acquisition of the Bonds. After a careful review of the entire information provided in this Base Prospectus, each prospective investor should take the investment decision regarding the Bonds based on its own independent views or such professional advice as it deems necessary or appropriate.

### 3.2. Business-specific risk factors

#### **Risks arising from Covid-19 pandemic in Latvia**

The outbreak of the coronavirus ("**Covid-19**") pandemic and the measures taken by the government with the purpose to restrict the spreading of the Covid-19 virus has had a severe negative effect on the economic situation in Latvia which is the main geographical market of the Issuer. Since the beginning of the pandemic in Latvia in the first quarter of 2020 until the date of this Base Prospectus, i.e., during last two years, a prolonged national state of emergency has been announced several times followed by strict restrictions on a great number of business activities. Restrictions on travel and entertainment activities, extended closures of stores and workplaces, quarantines and social distancing have caused heavy financial difficulties to many businesses and households. A part of businesses has been led to insolvency. Most affected in this situation has been the small and medium enterprises that form the main client base of the Issuer. As a result, some part of the borrowers may not be able to repay their loans according to the initial schedule. The Issuer may also not be able to recover debts in a full amount from the insolvent enterprises.

As the Covid-19 pandemic is an unprecedented global occurrence, its extent and impact at the date of this Base Prospectus are still uncertain. It depends on a number of factors outside the Issuer's control, such as the effectiveness of the pharmaceutical solutions developed and non-pharmaceutical measures applied by the governmental authorities, behaviour and possible mutations of the virus. Continuation or repeated escalation of the pandemic resulting in repeated or new forms of restrictions on businesses applied by the governments in Latvia and other states where the clients of the Issuer operate may negatively impact the Issuer's cash flow, liquidity, business results or financial position consequently affecting the ability of the Issuer to make the due payments to the Bondholders.

The Issuer assesses the risks arising from the Covid-19 pandemic to be low.

### **Risks arising from Russia – Ukraine conflict**

On 24th February 2022, Russia's army attacked Ukraine and initiated a war on Ukraine's territory. The conflict between Russia and Ukraine will affect the global economy via three main channels: financial sanctions, rising inflation and supply-chain disruptions.

The European Union, the United Kingdom, the United States and other countries imposed sanctions on Russia and Belarus in relation to the countries involvement and role in facilitating the invasion of Ukraine. As a result, businesses with significant suppliers, vendors, or customers in Ukraine or Russia or Belarus may experience negative effects. Even businesses that do not have direct exposure to Ukraine or Russia or Belarus may be affected by the overall economic uncertainty and negative impacts on the global economy and financial markets arising from the war.

While it is difficult to estimate the impact of the conflict and the sanctions, the degree to which business may be affected depends largely on the nature and duration of uncertain and unpredictable events, such as further military action, additional sanctions, and reactions to ongoing developments by global financial markets.

The Group and the Issuer had no marketable exposures or loans exposure on the assets that were affected by these events, neither did the Group and the Issuer have significant exposures to financial institutions in Russia or Ukraine.

The Group and the Issuer have performed preliminary measures to reduce exposures with potential risks related to the war in Ukraine and sanctions against Russia and Belarus and therefore sees no significant potential losses due to it.

### **Strategic risk**

The Issuer implements its business in accordance with a strategic plan. However, the Issuer may fail to successfully establish or execute the planned business strategy due to a variety of internal or external reasons. All stages of development and implementation of the strategic plan are subject to strategic risk. It includes the setting of wrong or inappropriate strategic goals, the pursuit of wrong strategic decisions, failure in full or in part to achieve the set goals and objectives due to any outside factors or changes in the circumstances.

The specific strategic goals of the Issuer include:

- Growth of the net loans portfolio above 480 million EUR in the next three years, mainly on the local market;
- Sustainably keep the cost of the credit risk below 1.0% level;
- Ensure operating efficiency by holding cost-to-income ratio below 50% starting from the year 2023;
- Continue organic growth on the local market that provides a return on equity above 10%.

Failure by the Issuer to achieve any of the above indicated strategic goals in full or in part may result in lower revenue than anticipated, which may have an adverse material effect on the Issuer's business, prospects, financial condition, results of operations or cash flows. It may affect the Issuer's ability to meet the minimum liquidity or the minimum capital requirements, which may lead to regulatory sanctions.

The Issuer's strategic risk is mitigated through well-considered business plans and in-depth analysis, as well as engaging highly qualified and properly experienced professionals. However, it may be insufficient to prevent the realization of the strategic risk and occurrence of the indicated losses.

The Issuer assesses the strategic risk to be low.

### **Counterparty credit risk**

Counterparty credit risk is the risk of potential loss, which may arise from the counterparty's default on its obligations towards the Issuer. Credit risk affects cash and cash equivalents held by the Issuer with third parties, in particular, the outstanding loans of the customers, as well as investments in bonds, derivatives and other financial instruments held by financial institutions, and any other receivables of the Issuer.

To mitigate this risk, the Issuer has developed and applied a risk management system corresponding to its business operations. The Issuer has established its own methodologies for assessment of creditworthiness for each type of customer and other business partners such as banks, financial institutions, bond issuers. An extensive credit risk assessment is carried out on each potential customer and business partner of the Issuer prior to initiating the business relationship and continuously during the lifetime of the cooperation. The Issuer maintains a system of limits that assigns the maximum potential exposure for each counterparty based on the individual credit risk assessment. The risk is also reduced by obtaining collaterals on the loans. Nevertheless, such assessments of the client's creditworthiness and the value of collaterals in relation to each loan may not always be precise. Such assessments inherently include assumptions and estimates that may lead to erroneous judgements regarding the expected cashflows of the customers, their ability to repay the loans and depreciation or the true value of the collaterals in relation to the particular loans. The recoverability of the credit provided to customers may be adversely affected by negative changes in the overall economic, political or regulatory environment, decrease in collateral values and other circumstances beyond the control of the Issuer. The Issuer makes provisions for expected credit losses in accordance with the applicable requirements, including the IFRS 9 requirements. However, such provisions are made based on the available information, estimates and assumptions, which by definition are subject to a certain amount of uncertainty. Therefore, there can be no assurance that provisions are sufficient to cover potential losses.

As lending constitutes a great part of the Issuer's business and the loan portfolio constitutes a considerable part of the Issuer's assets, inability or reluctance of the counterparty to comply with its obligations towards the Issuer may have a material adverse effect on the Issuer's cash flow, liquidity, business results or financial position consequently affecting the ability of the Issuer to make the payments arising from the Bonds.

The Issuer assesses the counterparty credit risk to be medium.

### **Concentration risk**

The concentration risk is a part of the counterparty credit risk arising from large exposure to one counterparty, related counterparties, or counterparties representing the same region, the same industry, business sector or otherwise affected by the same risk factors. The financial position of a large group of the debtors of the Issuer may be adversely affected by a single change in the overall economic, political or regulatory environment and other circumstances beyond the control of the Issuer.

A considerable part of the customer base of the Issuer is comprised of small and medium enterprises (SME). In the past 3 (three) years most of the loans issued by the Issuer have been issued to SMEs.

SME credits entail greater risk than lending to larger companies. It is more difficult to properly assess the creditworthiness of SMEs and to calculate and predict their future income. Such assessments and calculations are often less precise than in the case of large companies for several reasons. SMEs are generally less financially stable, their income and cashflows vary irregularly and are particularly susceptible to outside factors.

A major part of the loans issued by the Issuer has been issued to residents of the Baltic states. As well as more than half of the Issuer's bond portfolio consists of the Baltic states' sovereign debt securities.

The concentration risk within the Issuer is reduced by the system of limits regarding customers' business sector, region, type of collateral and loan products.

The realisation of the concentration risk may have a material adverse effect on the Issuer's operations, financial condition and results of operations. If the concentrations are mismanaged, a severely adverse credit situation in a segment where the Issuer has excessive concentration could have a material impact on the Issuer's capital levels and lead to a failure to meet its obligations towards its creditors.

The Issuer assesses the concentration risk to be medium.

### **Market risk**

Market risk arises from the Issuer's trading and investment activities in the financial markets, especially in fixed income securities, foreign exchange and stock markets as well as from borrowing activities. Holding and managing such investments and financial instruments are a part of the Issuer's business. The total amount of the Issuer's investment portfolio exceeds 20% of the total assets of the Issuer and it consists almost completely of fixed income securities, but less than 5% of the total assets are securities that are subject to the market risk, other securities are measured at amortized cost. The main part of the investments in securities (more than 80%) is represented by EU government bonds or other EU issuers investment grade rated bonds with an average duration of less than 3 (three) years, therefore, it bears a low market risk.

Losses may be caused to the Issuer by unfavourable changes in foreign exchange rates, prices of securities or interest rates. There is a risk that different factors outside the Issuer's control may increase the volatility of the financial markets which may adversely affect the market value of the financial instruments held by the Issuer. As a result, the value of certain assets of the Issuer may be reduced or written down affecting the Issuer's financial position and its ability to comply with its obligations to the investors.

In order to mitigate the market risk, conservative limits have been established for the investment portfolio and open foreign currency exposures of the Issuer. Despite the measures taken by the Issuer, the market risk may have a material adverse effect on the Issuer's operations, financial condition and results of operations.

The Issuer assesses the market risk to be low.

### **Foreign currency risk**

Foreign currency risk arises due to foreign exchange rate fluctuations. Devaluation, depreciation or appreciation of a foreign currency may have a significant adverse effect on the value of the Issuer's assets denominated in a foreign currency, in particular, securities and receivables or increase the euro value of the Issuer's foreign currency liabilities. Foreign exchange rates are affected by complex political and economic factors, including relative rates of inflation, interest rate levels, the balance of payments between countries, the extent of any government surplus or deficit, and from the monetary, fiscal and trade policies pursued by the governments of the relevant currencies.

The Issuer's foreign currency risk management is based on monitoring the risk exposure against the limits established for a single open currency position. Positions in foreign currencies are monitored on a daily basis and the risk management policy is focused on maintaining substantially closed foreign exchange positions. However, there is a risk that the change in foreign exchange rates may exceed the level estimated by the Issuer. Although the Issuer's foreign currency risk management is based on risk policies, limits and internal procedures, it may turn out to be inadequate and therefore, foreign currency risk may have a material adverse effect on the Issuer's operations, financial condition and results of operations.

The Issuer assesses the foreign currency risk to be low.

### **Interest rate risk**

Due to the type of business of the Issuer, its operations are inherently exposed to the interest rate risk. The interest rate risk arises from the fluctuations of the market interest rate over time. Changes in the interest rates may affect the Issuer's income on loans issued to the customers, the Issuer's liabilities to its creditors, the income on the securities held by the Issuer as well as the market value of such securities. The interest rates are affected by numerous factors such as changes in the overall economic environment, international political circumstances, level of inflation, fiscal and monetary policies of governments and central banks and other factors which are beyond the control of the Issuer.

As of 31st December 2021, 82% of the total loan portfolio of the Issuer consisted of loans with floating interest rates thus the interest income of the Issuer is directly affected by the market interest rate. The interest income will rise if the market interest rate increases and will decline if the interest rate goes down. Nevertheless, the increase of the interest rate may have a negative effect on the ability of the debtors to repay the loans lowering the overall positive effect of the increase of the investment income on the Issuer's loan portfolio. As the interest rates on the loans are fixed for the period mostly of 6 (six) months, the changes of the market interest rates will reflect on the profit/loss of the Issuer with a respective delay.

All of the Issuer's securities are with fixed interest rates. Although the income on such securities will not be directly affected by the interest rate changes, the value of such securities will increase, if the market interest rate goes down and will decrease, if the market interest rate goes up. Such changes may affect the shareholders' equity of the Issuer as the value of the Issuer's investment portfolio may decrease which will be reflected according to the re-evaluation.

The net interest income of the Issuer comprised of the interest income earned from the lending and crediting operations deducting the income costs paid by the Issuer to its creditors on the interest-bearing liabilities, for the financial year of 2021 was EUR 17 394 thousand. It constituted 64.3% of the total income of the Issuer (Bank standalone). As the interest income constitutes a great part of the total income of the Issuer, any adverse change on the market interest rate may have a material adverse effect on the Issuer's profitability, results of operations, prospects, cash flows or financial condition.

Despite the fact that the Issuer uses adequate interest rate risk management methods and tools, due to unforeseen fluctuations of the market interest rates the Issuer may experience considerable losses. Although the market interest rate in Eurozone, where the Issuer operates, for the next two years is predicted by the international organizations (ECB, OECD) to stay low (close to zero), it may be not adequately estimated. As a result, unexpected changes may affect the Issuer's ability to comply with the obligations towards the investors.

The Issuer assesses the interest rate risk to be low.

### **Price risk**

The Issuer holds positions in different financial instruments, which are subject to fluctuations in market price arising from certain geopolitical, economic and other factors beyond the control of the Issuer. Such factors may cause unforeseen market fluctuations, drop in prices for particular financial instruments or disappearance of an active market for the securities held by the Issuer. As a result, the Issuer may have a material adverse effect on the Company's liquidity, financial condition and results of operations.

The total amount of assets that are subject to price risk is 4.5% of the total asset value of the balance sheet and consists mostly of fixed income securities and a limited amount of stocks and Exchange Traded Funds.

The Company uses an internal risk limit system that combines various geographical regions, issuer and portfolio limits to manage this risk. However, such an internal risk limit system applied by the Issuer may not be adequate or sufficient to mitigate potential losses arising from adverse changes in the market prices of the financial instruments held by the Issuer.

The Issuer assesses the price risk to be low.

### **Liquidity risk and dependence on access to funding**

Liquidity risk affects the ability of the Issuer to meet its contractual obligations towards its creditors when they actually fall due. The liquidity risk arises from the imbalance between the maturities of assets and liabilities. Due to its business activities, the maturity of the principal assets of the Issuer (loans to its customers) tends to be longer than the maturity of its liabilities (term deposits, current deposit, ECB debt).

The liquidity management and strategy of the Issuer are based on risk policies, resulting in various liquidity risk measures, limits and internal procedures. The Issuer maintains monitoring of different liquidity risk measures on a daily basis including intra-day liquidity management. Moreover, the Issuer has mid-term and long-term liquidity planning procedures in order to reduce the liquidity risk.

As a regulated credit institution, the Issuer is subject to a minimum liquidity coverage ratio requirement. The minimum requirement is set at 100% which means that the credit institution must maintain liquidity that is sufficient to cover 100% of its obligations in a period of 30 days of no additional incoming funds. The Issuer maintains the liquidity coverage ratio level above the minimum requirement. The liquidity coverage ratio of the Issuer (Bank standalone) on 31 December 2021 was 166.91% and 135.06% on 31 December 2020.

The risk policies and internal procedures of the Issuer may, however, not be adequate or sufficient to ensure the Issuer's access to funding resources when needed in order to ensure sufficient liquidity and timely payments to its creditors, including the investors. The failure to obtain sufficient funding for the operations or the increased costs or unfavourable terms of the available financing or refinancing may have a material adverse effect on the Issuer's operations, financial standing, business results and realisation of its planned business strategies.

The Issuer assesses the liquidity risk and dependency on access to funding related risk to be low.

### **Operational risk**

Operational risk is a risk of potential loss caused by the flaws and failures of human behaviour, internal processes and information systems, external risks, cyber risks. The operational risk also embraces the risk of corporate fraud and misconduct.

The failures of human behaviour refer to the actions performed by the employees and managers of the Issuer, customers, business partners, outsourcing contractors and other third parties. It includes incidental mistakes, errors due to lack of knowledge or insufficient experience, as well as wilful misconduct such as fraud, embezzlement, corruption, violation of the rules and regulations and any other fraudulent behaviour. The human error or a deliberate offence may express itself as information, data or documents being lost, destroyed or improperly used, operation of IT systems interrupted, IT system security compromised, confidential information disclosed or improperly used, as well as other forms.

As the Issuer's business strongly relies on the effective functioning of its systems and processes, any operational failures whether caused by a human factor or by system failures may lead to a disruption in the provision of services and have an adverse effect on the Issuer's business, prospects, financial

condition, results of operations or cash flows. The Issuer may suffer severe reputational damage. Such failures may also result in a breach of external regulations, including but not limited to legal acts regulating activities and services of the bank, customer identification and anti-money laundering, data protection, system securities and others. Being a licensed credit institution, each aspect of the Issuer's business is subject to rigorous regulations. Accordingly, any operational error may lead to regulatory investigations, penalties or litigations.

The Issuer manages the operational risk based on an established non-financial risk management policy. According to the internal policies and procedures, the information systems and operations with human participation are monitored constantly in order to identify risks, flaws or fraud, to minimize the potential loss arising therefrom. The procedures and working instructions are regularly reviewed and updated to detect any possible failures more efficiently. However, the risk of operational failures cannot be eliminated altogether. The Issuer may, despite its efforts, fail to mitigate all such risks and incur adverse consequences indicated above.

The Issuer assesses the operational risk to be low.

### **3.3. Legal and regulatory risk factors**

#### **Maintaining Capital Adequacy Ratio**

Capital adequacy is the main indicator for the assessment of the solvency of credit institutions. Failure to maintain sufficient capital to absorb the losses from all the risks the Issuer is exposed to may lead to a failure of the institution to meet its obligations towards its creditors. Currently, the capital of banks and investment firms in the EU is subject to the legal framework of CRR /CRD IV, largely based on the Basel III framework which is an internationally agreed set of measures introduced in response to the financial crisis of 2008. The objective of these legal frameworks is to enhance the financial sector's stability and ensure the ability of the banks to cover potential losses at all times including economic distress situations.

As of the date of the Base Prospectus the Issuer is in compliance with all applicable capital requirements. The Issuer's capital adequacy ratio at an individual level as of 31 December 2021 is 16.6% (31 December 2020 15.8%). For the purposes of supervision, in addition to the various prudential risk ratios calculated on the Issuer's standalone basis, the same ratios should be met on the prudential consolidated basis. Prudential consolidation perimeter includes the Issuer's parent company BBG AS and its subsidiaries including the Issuer itself and its subsidiaries (the BBG Group). The main business for the BBG AS is a holding company to hold the Issuer's shares, therefore historically there are no large discrepancies between prudential risk ratios calculated on the standalone basis and on the prudential consolidation basis. The BBG Group's CET1 ratio as of 31 December 2021 is 16.7% (31 December 2020 14.7%) and the total capital ratio as of 31 December 2021 is 17.0% (31 December 2020 15.5%). The results are based on the unaudited BBG Group's numbers.

Nevertheless, both legal frameworks providing for the minimum capital requirements (Basel and CRR/CRD) are constantly updated and amended. Accordingly, the capital requirements established in Latvia and the European Union may change leading to unexpected increased requirements. Such changes may result in the need to increase capital, reduce leverage and risk weighted assets, and may eventually negatively affect the Issuer's business, financial condition, prospects, results of operations or cash flows.

The Issuer assesses the risk of maintaining the capital adequacy ratio as low.

### **Risk of Regulatory Actions**

The Issuer is a credit institution registered in the Republic of Latvia, licensed and regulated under the authority of the FCMC which carries out supervision over the Issuer.

The main business activity of the Issuer is providing financial services and products which are thoroughly regulated by local laws as well as legal acts of the European Union. Several national and European Union's authorities, including financial supervision, consumer protection, data protection, tax and other authorities regularly perform examinations, inspections and audits of companies acting in the same sector as the Issuer.

Any determination by the authorities that the Issuer has not acted in compliance with all the applicable laws and regulations could have serious legal and reputational consequences for the Issuer, including exposure to fines, criminal and civil penalties and other damages, increased prudential requirements or even lead to business disruption in the respective fields. Any of these consequences may have a material adverse effect on the Issuer operations, financial position and results as well as on the Bonds price and the Issuer's ability to comply with its obligations towards the investors.

The Issuer assesses the risk of regulatory actions as low.

### **Anti-money Laundering and Sanctions Risk**

As a regulated and licensed entity, the Issuer is required to scrupulously adhere to rigorous regulations regarding the prevention of money laundering, terrorism financing and proliferation as well as the implementation of the international sanctions. The Issuer is a subject of the Law on the Prevention of Money Laundering and Terrorism and Proliferation Financing and the Law on International Sanctions and National Sanctions of the Republic of Latvia.

The Issuer has taken all the steps required by law and applies all the necessary measures and implements the "know your customer" principle in its business operations to reduce the probability of dealing with customers under sanctions or involved in any illegal activity.

The Issuer's Anti-money laundering and combating the financing of terrorism and proliferation (the "AML/CFTP") and prevention of possible violation, circumvention or attempted violation of National, International and OFAC sanctions (the "Sanctions") internal control system consists of all the necessary elements, including clients identification, onboarding process, risk scoring, KYC and KYCB requirements, regular due diligence and enhanced due diligence of clients with a frequency depending on the clients' risk, on-line and offline monitoring transactions and suspicions transaction reporting.

Nevertheless, there is a risk that the measures applied by the Issuer may be insufficient to properly comply with all the relevant Latvian, European Union and international laws and regulations on AML/CFTP, anti-bribery and Sanctions in which case penalties or legal sanctions may be imposed on the Issuer. Such punitive measures may cause financial losses to the Issuer, and the inherent unfavourable publicity in such a case may severely harm the reputation of the Issuer and cause business disruption. Moreover, the failure by the Issuer to implement fully functional AML/CFTP procedures may result in actual participation in crime, corruption, money laundering, terrorism financing or proliferation of illegal weapons, in which case the said consequences may be even harsher. Such consequences could have an adverse effect on the market price of the Bonds and/or the ability of the Issuer to cover the payments related to the Bonds.

The Issuer assesses the AML/CFTP and Sanctions risk as low.

### **Data protection risk**

Data protection risk is the risk of violation of the rights and freedoms of natural persons arising during the process of data processing which could lead to material or non-material damage to the individuals such as discrimination, identity theft, fraud, financial loss.

The Issuer is subject to respective personal data protection acts such as GDPR and Personal Data Processing Law. Due to its business particulars, the Issuer constantly has access to a large volume of personal data of its customers. In order to comply with the AML/CFTP regulations, the Issuer is required

to obtain precise and particularly detailed personal information about its customers, including individuals. The Issuer also collects and processes the data of its employees which may exceed the personnel data collected by unregulated companies, especially for the management positions.

The Issuer has a detailed and developed internal data protection policy ensuring compliance with the applicable laws and requirements. The data collected by the Issuer is processed to the minimum extent possible and only to the extent of specified purpose and procedure. The personal data of the customers are protected by high-end technological safeguard measures. All employees connected to the data processing are under confidentiality obligations and all third parties the data is shared with are obliged to use the same safety measurements as the Issuer and are under a contractual confidentiality obligation. In order to protect personal data from unauthorized access, accidental loss, disclosure or destruction, the Issuer regularly reviews and improves its data protection and information security policy and security measures.

Nevertheless, there is a risk that the measures utilized by the Issuer may not provide sufficient compliance with the regulations of GDPR or the national laws regarding data protection. In such a case, the Issuer may potentially become subject to sanctions or penalties in the amount of up to EUR 10 – 20 million or 2 – 4% of the total worldwide turnover of the Issuer of the preceding financial year depending on the severity of the infringement. Considering also the possibility of a human error, technological failure or system disruption, the Issuer is under the risk of actual data protection breach which may cause litigations, financial loss and reputational damage to the Issuer.

The Issuer assesses the data protection risk as low.

#### **Litigation risk**

The Issuer may face the risk of becoming subject to private actions, administrative proceedings, regulatory actions or other litigation initiated by its customers, employees, shareholders, business partners or other third parties.

The outcome of litigation or similar proceedings or actions is difficult to assess or quantify. The Issuer may be required under a court order or settlement agreement to pay considerable amounts, which may exceed any provisions set up for this purpose. These amounts may affect the Issuer's ability to conduct its business, and the magnitude of the potential losses relating to such actions may remain unknown for substantial periods of time. In addition to these amounts, the legal costs incurred by the Issuer and in some cases of its opponent would also have to be borne. In addition to pecuniary damage, there may be adverse publicity in the case, which could adversely affect the Issuer's reputation, regardless of the outcome of the litigation. The occurrence of any litigation or similar proceedings or actions may have a material adverse effect on the Issuer's business, financial position, financial performance, results of operations or cash flows.

The Issuer assesses the litigation risk as low.

### **3.4. Risks factors specific to the Bonds**

#### **Risk of unsuitable type of investment**

The investment in the Bonds may not be a suitable investment for all investors therefore each potential investor should evaluate the suitability of such investment in the Bonds to their own particular circumstances. Each investor considering investing in the Bonds must have sufficient knowledge and experience to be able to do a proper assessment of the possible consequences of such investment in the Bonds including proper evaluation of the potential risks and likelihood of the expected benefits. The investor must understand in detail all the information provided in this Base Prospectus. The investor must be able to assess and understand what impact the investment in the Bonds will have on his/her overall investment portfolio and how such investment may further affect his/her financial situation and liquidity.

The investor must be prepared and have sufficient financial resources to bear the risks and sustain the possible losses related to the Bonds. Some investors, in particular regulated entities, may be subject to certain restrictions or regulations on investments, therefore each investor should verify whether the investor is permitted to invest in the Bonds.

For each assessment and evaluation indicated in this paragraph, the investor may rely on the opinion and expertise of a third party such as a professional financial adviser or other professional, however, in such a case, the investor bears full responsibility for the choice of such an adviser.

### **Credit risk**

By investing in the Bonds, the investors become creditors of the Issuer, hence they are subject to the credit risk. The Issuer is solely responsible for making the payments arising from the Bonds. However, the Issuer may fail to make such payments to the investors in full or in part in a due and timely manner. The ability of the Issuer to execute the payments to the investors arising from the Bonds depends on the financial position and the results of operations of the Issuer. The inability of the Issuer to make such payments may be caused or intensified by other risk factors set out in this Base Prospectus or factors not included in the Base Prospectus.

The investors in the Bonds must be aware that the investment in the Bonds is not a bank deposit with the Issuer and the investors will not qualify under the deposit protection scheme and are not guaranteed by the Deposit Guarantee Fund of Latvia.

### **Price and liquidity risk**

The Issuer may execute the call option and redeem all of the outstanding Bonds of a particular Tranche before the Maturity Date according to Section 7.12 (*Maturity and Redemption*) of the Base Prospectus. If such early redemption takes place, there is the risk that the rate of return from the investment into the Bonds may be lower than initially anticipated and the redemption price of the Bonds at the time the call option is executed by the Issuer may be lower than the market price of the Bonds on the secondary market. If the prevailing interest rates in the market at the time of the redemption are lower than the interest on the Bonds, the investors may not be able to reinvest the proceeds from the redeemed Bonds in securities with comparable or higher interest rates than the interest rate on the Bonds redeemed.

### **Foreign exchange risk**

The Bonds are denominated in EUR currency. If the investor measures the payments related to the Bonds in another currency, the investor faces a risk that the actual payments received may be lower than expected due to depreciation of EUR currency against the currency of the reference used by the investor.

### **Tax regime risks**

The payments arising from the Bonds may be subject to taxes or other duties in the country of residence, citizenship, registration, the actual location of the investor or in any other country related to the transaction of the investment in the Bonds. Prior to making the planned investment in the Bonds, each investor must ascertain what tax payments shall apply to the payments related to the Bonds in each of the countries related to the investment transaction in order to properly calculate the actual return from the Bonds. In case the applicable tax rates are not properly calculated, not all applicable taxes and duties are considered or if any adverse changes are introduced in the applicable tax regime, the return on the Bonds actually received by the investor may be lower than anticipated. Neither the Issuer nor any other person is under an obligation to compensate for the increase in taxes to the investors.

### **Transaction costs/charges**

Prior to and upon the execution of the transaction of the investment in the Bonds, the investors may incur a variety of incidental costs related to the investment transaction such as transaction fees and commissions, brokerage fees, commissions and other fees and expenses of third parties involved in the transaction such as banks, brokers, dealers and others. Such costs may significantly reduce the expected proceeds from the investment in the Bonds.

### **Risk of Investors resolution**

According to the Terms and Conditions of the Bonds, some of the terms of the Bonds may be amended with a decision of the investors. A resolution of the investors is approved by the majority of the investors. Upon approval, such a resolution shall be binding on all the investors, including the investors who did not participate in the meeting or who voted against the decision taken. Hence, the investor faces a risk that certain rights in relation to the Bonds may be amended, decreased, or cancelled without its consent or against its will.

### **Early redemption**

The Bonds may be redeemed prior to their Maturity Date on the initiative of the Issuer and subject to the approval of the FCMC in the events described in Section 7.12 (*Maturity and Redemption*) of this Base Prospectus. If the early redemption is executed, the rate of return from investment in the Bonds may be lower than initially anticipated. The redemption price of the Bonds may be lower than the market price of the Bonds on the secondary market at the time of early redemption. If the prevailing interest rates in the market at the time of the early redemption are lower than the interest on the Bonds, the investors may not be able to reinvest the proceeds from the redeemed Bonds in securities with comparable or higher interest rates than the interest rate on the Bonds redeemed.

The Issuer assesses the early redemption risk to be low.

### **Subordination risk**

The Bonds and all the payments deriving therefrom constitute unsecured and unguaranteed obligations of the Issuer which are subordinated to all unsubordinated claims against the Issuer. In the event of liquidation, bankruptcy, recovery and resolution proceedings, all the claims arising from the Bonds shall be ranked below the unsubordinated claims and shall be satisfied only after all unsubordinated recognised claims against the Issuer are fully satisfied. The claims related to the Bonds shall rank equally (*pari passu*) without any preference among each other and equally with all unsecured, unguaranteed and subordinated debt of the Issuer. As a result, in case the funds of the Issuer are not sufficient to satisfy all its obligations, the claims of the Bondholders arising from the Bonds may be not satisfied in full.

The Issuer assesses the subordination risk to be low.

### **No rights of set-off or counterclaim**

Bondholders shall not be entitled to exercise any right of set-off or counterclaim against moneys owed by the Issuer in respect of the Bonds. Therefore, such Bondholders will not be entitled (subject to applicable law) to set off the Issuer's obligations under, or in respect of, or in connection to the Bonds against obligations owed by them to the Issuer. Therefore, the Bondholders may be required to participate in separate proceedings in order to recover amounts owned to them under counterclaims and may receive a lower recovery in an insolvency of the Issuer than would be the case if set-off or counterclaim were permitted.

### **Bail-in risk**

If the Issuer experiences serious financial difficulties that may harm the public interest, the FCMC, the Resolution Authority in Latvia, may apply the bail-in tools with regard to the Bonds. The exercise of the bail-in tool in respect to the Bonds may result in any of the following: (a) the principal amount of the Bonds or the total amount outstanding may be reduced, including to zero; (b) the Bonds may be converted into

ordinary shares or other instruments of ownership; (c) the terms of the issue of the Bonds, including but not limited to the terms regarding the repayment, redemption, term of maturity, payments of interest, may be varied. The decision on the exercise of the bail-in tool is at the discretion of the Resolution Authority and cannot be influenced by the Issuer or the Bondholders. In case the resolution occurs, the bail-in tool along with other resolution tools available shall be exploited to the maximum extent before public funding is engaged.

The Issuer assesses the bail-in risk to be low.

### **No ownership and voting rights**

The Bonds are not equity securities, they do not confer any legal or beneficial ownership interest to the Bondholders and do not carry any rights arising from equity securities.

The Bondholders shall not be entitled to receive dividends. The Bonds are a debt instrument and give the Bondholders as debtors the claim rights only to the outstanding payments arising from the Bonds according to the Base Prospectus and the Final Terms of the Bonds.

By Investing in the Bonds, the Bondholders shall not acquire the voting rights in the Shareholders Meetings of the Issuer and will not be able to participate in any way in taking decisions of the Shareholders of the Issuer or to influence such decisions in any way. The Bondholder should be aware that the Shareholders of the Issuer may take decisions that may negatively affect the market price or liquidity of the Bonds.

The Bonds are not convertible to any equity instruments.

### **Cancellation offering**

The Issuer is entitled to change the dates of the opening and closing of a Subscription Period of any of the Tranches, postpone or cancel the Offering of Bonds of any Tranche according to the terms of Section 8.11 (*Cancellation, Suspension or Postponement of the Offering*). The Issuer will apply its best effort to ensure that the Offer of all the Tranches occurs as originally planned, however, the Issuer cannot guarantee that the potential Bondholders who have subscribed for the Bonds of any of the Tranches will actually obtain the Bonds they have subscribed for. Such changes in the dates of the Subscription Period, postponement or cancellation of the Offering of Bonds of any Tranche may negatively affect the investment plan of a particular potential Bondholder.

The Issuer assesses this risk to be low.

## 4. BLUOR BANK

### 4.1. General Corporate Information

BluOr Bank AS, a joint-stock company incorporated and existing under the laws of the Republic of Latvia, registered in the Commercial Register of Latvia maintained by the Enterprise Register under the registration number: 40003551060, legal address: Smilšu iela 6, Riga, LV-1050, Latvia, and its LEI code is 54930080G2M7EJ097A27. The contact details of the Company are the following: address Smilšu iela 6, Riga LV-1050, Latvia, phone +371 67031333, e-mail: [info@bluorbank.lv](mailto:info@bluorbank.lv).

The Company was registered in the Register of the Enterprises of the Republic on 22 June 2001. The Bank is licensed by the FCMC to perform all banking operations provided for in the Credit Institution Law and the Articles of Association of the Bank. The Group includes multiple Subsidiaries, which do not operate in the financial and capital markets.

### 4.2. Statutory Auditors

The Group's consolidated and the Bank's separate financial statements for the year ended 31 December 2020 and for the year ended 31 December 2021 have been prepared in accordance with the IFRS as adopted in the EU and audited by PricewaterhouseCoopers SIA.

According to the Articles of Association, the appointment of statutory auditors is in the competence of the General Meeting, whereas the selection of candidates and making a proposal to the General Meeting is done by the Audit Committee. The General Meeting held on 9 July 2020 and on 15 October 2021 appointed PricewaterhouseCoopers SIA to act as the statutory auditor of the Bank for the financial year 2020 and the financial year 2021 respectively.

### 4.3. History and Development of the Bank

BluOr Bank AS (*ex BlueOrange Bank*) was founded in 2001 by BBG AS holding owned by four Latvian entrepreneurs Aleksandrs Peškovs, Sergejs Peškovs, Andrejs Kočetkovs and Oļegs Čepuļskis. By that time, they had worked together in international business, trade and logistics for more than 10 years, so the Bank was initially established by entrepreneurs for entrepreneurs. Being business persons themselves, they could understand the needs of other businessmen like no one else.

During almost 20 years the Bank has grown in its reputation as a reliable partner and financially stable organization – the Bank shows high liquidity each year and even during the economic slowdown remained profitable.

The Bank has changed its brand and legal name from AS BlueOrange Bank to BluOr Bank AS in March 2022. Changes are introduced with the aim of emphasizing the status of the Bank and strengthening its position in the Latvian and Baltic markets, as well as in other countries, by unifying the brand and legal name of the Bank.

Mr Andrejs Kočetkovs has been engaged in the Group since its establishment in 2001 and was one of the founders thereof. He served as the Chairman and Member of the Board of BBG AS during 2000-2014, currently serves as the Chairman of the Board (from 2014).

#### 4.6.2. Management Board

The Management Board is responsible for the Bank's day-to-day management (except functions reserved to the General Meeting of Shareholders and the Supervisory Board of the Company). According to the Bank's Articles of Association and applicable Latvian law, the members of the Management Board are appointed for a three-year period by the Supervisory Board of the Bank and are also dismissed by the Supervisory Board of the Bank. The number of members of the Management Board is determined by the Bank's Articles of Association and currently stands at five members. The scope of authority of each member of the Management Board is defined by the Supervisory Board. The Supervisory Board of the Bank elects a chairperson of the Management Board from among its members.

The business address of each of the members of the Management Board is the Bank's head office, Smilšu iela 6, Riga, LV-1050, Latvia. The Management Board meets at least bi-weekly, or as frequently as otherwise required. As of the date of this Base Prospectus, the Bank has five members of the Management Board – Mr Dmitrijs Latiševs (Chairman of the Management Board, the authority remains valid until 19 January 2024), Mrs Inga Preimane (the authority remains valid until 19 January 2024), Mr Dmitrijs Feldmans (the authority remains valid until 12 June 2022), Igors Petrovs (the authority remains valid until 9 May 2024) and Mr Vadims Morozs (the authority remains valid until 11 August 2022).

**Dmitrijs Latiševs**, Chief Executive Officer, the Chairman of the Management Board and Executive Committee. Mr Dmitrijs Latiševs is a banking industry expert and a top-level executive. He has held executive positions at Baltijas Tranzitu Banka and Parex Bank. Since 2011 he has been the Bank's CEO. His professional experience is matched by his in-depth knowledge in finance and strategy. Mr Latiševs holds a Master's Degree in Finance and Lending from the University of Latvia.

**Igors Petrovs**, Chief Compliance Officer, a Member of the Management Board. Mr Igors Petrovs has 18 years of banking experience, with 14 years directly related to ensuring and monitoring operational activities and compliance. Mr Petrovs has a Master's degree in management from the Riga Technical University, has received a CAMS (Certified Anti-Money Laundering Specialist) certificate, and is currently continuing his MBA studies.

**Inga Preimane**, a Member of the Management Board. Ms Inga Preimane has over 28 years of experience in the banking industry. She is a highly qualified manager for financial risk and compliance, internal audit functions, and a member of two worldwide professional associations – IIA (Institute of Internal Auditors) and ACAMS (Association of Certified Anti-Money Laundering Specialists), with a CAMS certificate. Ms Preimane has a Master's degree in economics from the Riga Technical University.

**Dmitrijs Feldmans**, a Member of the Management Board and Executive Committee, Executive Officer. Mr Dmitrijs Feldmans started his professional carrier in the banking industry in 2004. During 18 years he has gained valuable experience in corporate lending, servicing corporate and HNWI (high-net-worth individual) customers, as well as investments and financial markets, taking various positions at banks and investment companies. Mr Dmitrijs Feldmans joined the team of BluOr Bank AS in 2010 and proved himself as a professional in various areas, such as managing investment sales, leading the team of private bankers and running a regional office of the Bank. Currently, Mr Dmitrijs Feldmans are in charge of business development and servicing individual and corporate clients. Mr Feldmans has a Master Degree in Business Management from the University of Latvia.

**Vadims Morozs**, a Member of the Management Board. Mr Vadims Morozs has more than 20 years of experience in the banking sector. Mr Vadims Morozs has been working with the BluOr Bank team in the capacity of a chief accountant since 2016. A number of complex accounting projects have been carried out under his leadership and the effectiveness of important accounting processes has been improved. Mr Morozs is responsible for the general management and control of the Bank's accounting.

### **4.6.3. Key Committees**

#### **Audit committee**

The Audit Committee is formed by the Supervisory Board of the Bank and it is an advisory body to the Supervisory Board in the fields of audit activities, effectiveness of the internal control and risk management system. The Audit Committee is composed of three members.

#### **Role and duties**

The Audit Committee is formed for the purpose of ensuring the protection of the Shareholders' interests in the preparation and audit of annual reports, the effectiveness of the Banks' internal control system, risk management process as far as the reliability and objectivity of the annual report are concerned. The Audit Committee is responsible for ensuring the selection process of the Bank's candidates for sworn auditors and for supervising the compliance of the Bank's sworn auditor with the independence and objectivity requirements specified in the laws and regulations.

#### **Executive Committee**

The Executive Committee is a corporate governance body formed by the Management Board of the Bank. The Executive Committee is composed of eight members.

#### **Role and duties**

The Executive Committee is formed with the purpose of dealing with daily tasks of business development and control to increase the competitiveness and efficiency of the Bank's products and services in the market.

The Executive Committee develops proposals on business development plans to be presented for evaluation by the Management Board and implements the day-to-day business development management issues of the Bank's operations, and controls the implementation of the Bank's projects related to the Bank's business development management and approves completed projects.

The Executive Committee follows up on the Banks' budget performance at the operational level, evaluates proposals for the need for outsourcing, as well as evaluates proposals for the launch of new products and the establishment of working groups and ensures the monitoring of the new products after their implementation.

#### **Credit Committee**

The Credit Committee is a corporate governance body formed by the Management Board of The Bank. The Credit Committee is composed of six members.

#### **Role and duties**

The Credit Committee is formed for the purpose of management of the Banks' loan portfolio to ensure the achievement of the loan portfolio development goals set out in the Bank's strategy. The Credit Committee manages the Bank's loan portfolio, monitors the quality of the loan portfolio, its structure and compliance with limits.

The Credit Committee makes decisions on credit projects, covenants and conditions of the financing of the Banks' clients. The Credit Committee approves the list of competent appraisers for carrying out the valuations of the collateral, including real estate, vessels and property.

#### **Investment Committee**

The Investment Committee is a corporate governance body formed by the Management Board of the Bank. The Investment Committee is composed of seven members.

### Role and duties

The Investment Committee ensures management of the Bank's assets and liabilities in accordance with the Bank's strategy and policies and taking into account regulatory requirements, risks and income targets, as well as determines the Bank's investment strategy.

The Investment Committee sets and controls Banks' balance sheet, off-balance sheet items and portfolio limits of the Bank. The Investment Committee provides liquidity management, control and forecasts its possible development. The Investment Committee is responsible for a balanced term structure of assets and liabilities, ensures long-term liquidity of the Bank.

The Investment Committee oversees the Bank's financial risk management. It evaluates the results of financial risk stress testing (and reverse stress testing) and decides on the necessary measures to ensure strong capital adequacy.

### **Asset Valuation Committee**

The Asset Valuation Committee is a corporate governance body formed by the Management Board of the Bank. The Asset Valuation Committee is composed of five members.

### Role and duties

The Asset Valuation Committee analyses, evaluates and classifies the Bank's assets and off-balance sheet liabilities, which have credit risk, and makes decisions about provisions for possible impairment losses.

### **Methodology Committee**

The Methodology Committee is a corporate governance body formed by the Management Board of the Bank. The Methodology Committee is composed of six members.

### Role and duties

The Methodology Committee organises and coordinates the development of normative and methodological documents necessary for the creation and improvement of the internal control system at the Bank. The Methodology Committee in accordance with the authorization specified by the Management Board makes decisions regarding the approval and regular revision of policies and procedures. The Bank's internal documents (e.g. strategies, policies, regulations and plans) that are within the competence of the Management Board or the Supervisory Board shall be submitted by the Methodology Committee to the Management Board or the Supervisory Board for final approval.

### **Administrative Committee**

The Administrative Committee is a corporate governance body formed by the Management Board of the Bank. The Administrative Committee is composed of five members.

### Role and duties

The Administrative Committee reviews and classifies documents and information resulting from the Bank's operational processes.

## **4.6.4. Remuneration Policy**

The Remuneration Policy of the Company is designed to achieve the operational goals set out in the Bank's strategy by attracting and retaining highly qualified and experienced personnel, ensuring the continuous and sustainable operation of the Bank by providing reliable and secure financial services to customers.

The Supervisory Board of the Bank ensures that the Remuneration Policy and practice do not restrict the Bank's ability to strengthen its own capital, which is consistent with prudent and effective risk management. The Management Board of the Bank is responsible for observing the key principles of the Remuneration Policy established by the Supervisory Board of the Bank, developing the appropriate remuneration system and related documents. The Human Resources Department of the Bank monitors compliance with the established key principles of the Remuneration Policy on a daily basis.

The key principles of the Bank's Remuneration Policy include quality criteria for evaluating individual performance. The components of the Bank's remuneration consist of fixed and variable elements of remuneration.

Remuneration of employees and officials is proportionate to the risks involved and motivates to achieve sustainable results by promoting prudent and effective risk management and is set to ensure the long-term development of the Bank's business, attract highly qualified specialists, retain existing staff and stimulate their professional growth. The variable part of the remuneration is granted based on performance results, matching them with the values of the Bank.

When determining the elements of the variable part of remuneration, the Bank shall ensure that they do not include incentives that would cause the respective employees or officials to give preference to their own interests or the interests of the Bank. Given that the variable part of remuneration in monetary form can be considerable and especially high, the Bank uses the algorithm for determining the variable part of a significant remuneration in accordance with the requirements of the law of the Republic of Latvia, observing that the fixed and variable part of the remuneration of employees involved in the provision of investment services is based not only on quantitative commercial criteria but should also include the relevant qualitative criteria that reflect compliance with the applicable rules, fair treatment of customers and quality of services provided to customers.

In accordance with the Remuneration Policy, the Bank applies the deferred system for determining and paying the variable part of the remuneration for employees whose role has an impact on the risk profile. The total amount of remuneration and benefits paid to the members of the Supervisory Board and Management Board of the Bank during the financial year 2020 amounted to EUR 768'000 (including applicable taxes) and for the financial year 2021 – EUR 774'000 (including applicable taxes).

#### 4.7. Conflict of Interest

There are no conflicts of interest or potential conflicts of interest between any duties owed by the members of the Supervisory Board of the Bank or the Management Board to the Bank and their private interests and/or other duties other than the management loans indicated below or as described in the Section 4.8 (*Shares Held by the Management of the Bank*).

Management Loans. As of 31 December 2021, there was EUR 7.548 million in loans and EUR 2.082 million in other financial commitments and guarantees in place between the Bank and members of the Management Board and of the Supervisory Board of the Bank, their close relatives and companies in which they have a controlling interest.

#### 4.8. Shares Held by the Management of the Bank

Share ownership. As of the date of this Base Prospectus, the members of the Supervisory Board and their related persons hold the following number of shares representing the indicated proportion in the share capital of the Bank either directly or indirectly:

Name	Ownership (%)		Proportion
	Held by member	Held by Related Persons <sup>1</sup>	
Mr. Aleksandrs Peškova	10.59%	29.94%	40.53%
Mr. Sergejs Peškova	24.05%	16.48%	40.53%
Mr. Andrejs Kočetkova	7.27%	2.20%	9.47%

It should be noted that the majority of the shares - 81.06% are indirectly held by Sergejs Peškova and Aleksandrs Peškova (related persons themselves) and their related persons.

As of the date of this Base Prospectus, none of the Management Board members hold shares in the Bank.

<sup>1</sup>For the purposes of clarity in this table Sergejs Peškova and Aleksandrs Peškova are assumed as persons that are not related.

## 5. BUSINESS OVERVIEW

### 5.1. Principal Activities

The Bank is a Latvian licensed credit institution. The Bank provides a wide range of banking products to private individuals and corporate clients. The Bank offers all classical banking services: accepts deposits, issues loans, makes money transfers, provides documentary operations, exchanges currencies for its clients, issues and processes debit and credit cards, provides brokerage and asset management services, is engaged in trade finance, in investing and trading in securities.

The Bank's strategy focused on corporate banking along with financing and servicing small and medium-sized enterprises.

As of 31 December 2021, the total loan portfolio of the Bank on a consolidated basis stood at EUR 344 million and the total amount of deposits was EUR 711 million. As of 31 December 2021 the share of loans to corporate in the total portfolio of loans was more than 92%.

### 5.2. Principal markets

As of the date of this Base Prospectus, the Bank operates in six geographic markets – Latvia, Germany, Austria, Ireland, Spain and the Netherlands. The Bank operates in Latvia with a strong focus on providing banking services to small and medium-sized enterprises.

The Bank cooperates with deposit platforms and actively receives deposits from the following deposit markets: Germany, Austria, Ireland, Spain and the Netherlands. The Bank does not conduct any other services in these markets.

#### **Latvian Banking Market**

According to the data published by the FCMC, as of 31 December 2021, there were 12 credit institutions in Latvia and 4 branches of foreign credit institutions operating in the Latvian banking market. The Latvian Banking sector is highly consolidated with the dominance of the credit institutions belonging to the large banking groups (Swedbank, SEB, Luminor Bank, OP Corporate Bank). The largest three banks (AS Swedbank, AS SEB Banka, AS Citadele Banka) together with AS Luminor Bank (Estonia) Latvian Branch hold more than 80% of the combined market share in assets. The Scandinavian-owned banks currently dominate the Latvian banking sector.<sup>2</sup> The Bank operates in a highly competitive Latvian Banking sector environment and this has a significant material impact on the Bank's financial results and leads to increased competition for main banking products and services.

Total assets of the Latvian banking sector stood at EUR 25.5 billion as of 31 December 2021. Total assets of the Latvian banking sector continue to grow during the year. An increase in the asset volume was driven by a number of factors. Firstly, some of the credit institutions participated in the auctions of the European Central Bank's targeted longer-term refinancing operations (TLTRO II). Secondly, the decrease in economic activity and in consumption contributed to a rapid increase in deposits of domestic non-financial corporations and households.

The Bank is the sixth-largest bank in Latvia with EUR 875 million in assets as of 31 December 2021. The number of deposits held by non-bank customers increased significantly during the last two years. As of 31 December 2021 the total volume of deposits of the credit institutions operating in the Latvian market stood at EUR 20,9 billion. As of 31 December 2021, the total volume of non-bank loans was EUR 14.65 billion.<sup>3</sup>

<sup>2</sup> Data available in the FCMC webpage – Statistics – Credit Institutions - "Quarterly Reports" and "Public quarterly reports by banks", available: <https://www.fktk.lv/en/statistics/credit-institutions/> [viewed at 18.03.2022.]

<sup>3</sup> Data available in the FCMC webpage – Statistics – Credit Institutions - "Quarterly Reports" and "Public quarterly reports by banks", available: <https://www.fktk.lv/en/statistics/credit-institutions/> [viewed at 18.03.2022.]

## **European Deposit Markets<sup>4</sup>**

The Bank uses European deposit markets as markets where it, along with the Latvian market, offers deposit products. As of December 2021, the total size of the European deposit market was EUR 8'760 billion. The Bank accepts public deposits from Germany, Austria, the Netherlands, Spain and Ireland.

German deposit market size is EUR 2'640 billion and the average interest rate for deposits with maturity up to 1 year was -0.07% as of December 2021.

Austrian deposit market size is EUR 301.76 billion and the average interest rate for deposits with maturity up to 1 year was 0.07% as of December 2021.

Dutch deposit market size is EUR 539.26 billion and the average interest rate for deposits with maturity up to 1 year was 1.00% as of December 2021.

Spanish deposit market size is EUR 965.80 billion and the average interest rate for deposits with maturity up to 1 year was 0.01% as of December 2021.

Irish deposit market size is EUR 136.62 billion and the average interest rate for deposits with maturity up to 1 year was 0.13% as of December 2021.

The Bank offers interest rates on deposits that are higher than average in most of the markets. Higher interest rates together with an online deposit solution offer a significant advantage over rates and deposit products from local traditional financial institutions.

### **5.3. Competitive positions and key strengths**

The Bank is the sixth-largest bank in Latvia with EUR 875 million in assets as of 31 December 2021. The Bank provides a wide range of banking products to private individuals and corporate clients. According to the Bank's strategy, the main business segment is corporate banking with a focus on small and medium-sized companies (SME). The Bank was the seventh-largest bank in terms of corporate loans with a 4.0% market share as of 31 December 2021, showing more than 100% growth over the last three years, when it was 2.0% (as of 31 December 2018).

The Bank's strategy for the next three years is to strengthen its position in the corporate banking segment. The Bank has set a goal to improve the main performance indicators of the Bank, to increase the loan portfolio to at least EUR 480 million and decrease the financing cost. Strategic partnership with Fintech companies and deposit platforms allows to receive deposits from foreign European deposit markets. The access to European deposit markets ensures an efficient and relatively cheap source of stable and long-term funding that allows the Bank to keep a high net interest margin and ensures scalability in the future. By achieving these results, the Management believes that the Bank could achieve a cost-to-income ratio below 50% and secure the return on equity above 10%.

The Management believes that the Bank has strengthened its main competitive advantages that naturally correspond to the Bank's strategy:

- experience in large corporate project financing, trade finance and shipping finance;
- experience in providing complementary services, such as payments, investments, hedging, currency conversion and documentary operations to corporate clients;
- experience in corporate finance that allows flexible structuring of financing deals via bond issue or syndicated loans;
- access to stable and relatively cheap long-term funding sources from the European deposit markets that provides an easy and efficient way to scale up the funding base.

---

<sup>4</sup>Data obtained from Euro Area Statistics webpage, available: <https://www.euro-area-statistics.org/> [viewed at 01.03.2022] and Statistical Data Warehouse of the ECB webpage, available: <https://sdw.ecb.europa.eu/> [viewed at 01.03.2022]

The Bank's product prices are from the average-high segment that is justified with an individual approach, personal contacts and flexible terms.

The Bank believes its online banking service is a strong growth factor in the Bank's further development.

#### **5.4. Employees**

As of the date of the Base Prospectus the Bank employs 193 persons.

#### **5.5. Investments**

The Bank has made no significant investment since the date of the last published financial statements (Audited Financial Statement for the year ended 31 December 2021). The Audited Financial Statements for the year ended 31 December 2021 are incorporated into this Base Prospectus.

#### **5.6. Material Contracts**

Neither the Bank nor any Subsidiary has entered into a material contract other than contracts entered into in the ordinary course of business, which could result in any Group member being under an obligation or an entitlement that is material to the Bank's ability to meet its obligations to the Bondholders in respect of the Bonds being issued.

The following is a summary of each agreement (not being an agreement entered into in the ordinary course of business), which has been entered into by the Bank or any of its subsidiaries, which contains any provision under which the Bank or any of its subsidiaries has any obligation or entitlement, which is relevant to the Bank as at the date hereof.

##### **MasterCard Licence Agreement**

On 30 June 2002, MasterCard International Incorporated, the "MasterCard", and the Bank entered into a Principal licence agreement under which MasterCard granted the Bank non-assignable, non-exclusive licence to use the MasterCard Marks and rights to provide certain services related to the operation of payment cards: issuing services, acquiring services etc.

##### **Visa Europe Agreement**

On 28 December 2012, Visa Europe Limited and the Bank entered into a membership deed, under which Visa Europe granted the Bank rights to use the Visa Licensed Marks and the Licensed Intellectual Property in connection with participation in the Visa System and receive certain services under the Visa Europe system.

##### **Worldline Agreement**

On 3 February 2014 and on 30 December 2003, WorldLine Latvia SIA (formerly – First Data Latvia) and the Bank entered into certain agreements under which WorldLine Latvia provides solutions related to the operation of payment cards: acquiring processing services, payment terminal services.

##### **Deposit Platforms Agreements**

###### **Raisin Agreements**

On 5 October 2017, Raisin GmbH, "Raisin" (presently Raisin DS GmbH), MHB-Bank AG, "MHB" (presently Raisin Bank AG), and the Bank entered into a service agreement under which Raisin provides access to its internet platforms (e.g. [www.weltsparen.de/](http://www.weltsparen.de/), [www.weltsparen.at/](http://www.weltsparen.at/), [www.raisin.es/](http://www.raisin.es/) and others) that enable retail customers to access deposit offerings of the Bank. The Raisin conducts marketing activities to attract customers to the internet platforms and to deposit offers of the Bank. The Bank has agreed to pay certain service fees, which are determined in the agreement.

## **Deposit Solutions Agreements**

On 19 March 2019, Deposit Solutions GmbH, "DS" (presently Raisin DS GmbH) and the Bank entered into a distribution agreement, and on 10 May 2019, DS, Max Heinr. Sutor OHG, "Sutor bank", and the Bank entered into a deposit account agreement. Under these agreements, DS provides access to its internet platforms (e.g. [www.zinspilot.de/](http://www.zinspilot.de/) and others) that enable retail customers to access deposit offerings of the Bank. DS conducts marketing activities to attract customers to the internet platforms and to deposit offers of the Bank. The Bank has agreed to pay certain services fees, which are determined in the agreements.

On 25 June 2021, the DS and the Raisin announced the completion of their merger, forming Raisin DS GmbH. As of the date of the Base Prospectus, the existing agreements with the DS and the Raisin remain in force and have not been affected by the merger.

## **DSW Agreement**

On 05 September 2001, DSW SIA and the Bank entered into an agreement under which DSW agreed to supply the Bank with the WALL core banking software system and documentation and to grant a licence to use such systems and related documentation. The Bank has agreed to pay certain licence and service fees, which are determined in the agreement. The agreement is concluded for an indefinite period and is in force until terminated in accordance with its terms.

## **NetEconomy Agreement**

On 22 March 2017, NETECONOMY B.V. and the Bank entered into a Software Licence and Services Agreement under which the Bank uses Financial Crime Risk Management (FCRM) software. FCRM is an adaptive, comprehensive solution that ensures transaction monitoring to reduce the risk of money laundering, keep operational costs in check and ensure regulatory compliance. Under the agreement, the Bank has been granted the right to use FCRM software for internal business purposes. The Bank has agreed to pay certain licence and service fees, which are determined in the agreement.

## **S.W.I.F.T. Agreement**

On 12 November 2001, S.W.I.F.T. SC and the Bank entered into an agreement, which allows to install the SWIFT Alliance software and to connect to Society for Worldwide Interbank Financial Telecommunication (S.W.I.F.T.) network, that allows the Bank to send and receive financial messages, providing worldwide payments and other financial services to the clients.

## **Bloomberg Finance Agreement**

On 25 July 2005, Bloomberg Finance LP and the Bank entered into Bloomberg Electronic Trading and Order Routing Services Agreement under which Bloomberg provides access to Bloomberg Terminal, offers multi-asset order and execution management solutions and informational services. The Bank has agreed to pay certain services fees, which are determined by the agreement.

## **Subordinated Deposits Agreements**

The Bank has concluded a number of subordinated deposit agreements with its customers and has received subordinated debt in order to strengthen and increase long term capital. As of 31 December 2021, the Bank had subordinated deposits of EUR 1 147 thousand.

## **5.7. Description of Expected Financing of the Issuer Activities**

The Issuer expects to finance its business activities using the usual sources of funding: term deposits from the retail customers and other institutions, current account balances from servicing corporate and retail customers and Issuer's equity. These sources of funding are supplemented by net proceeds of the Bonds and other debt securities. The Issuer plans to continue working on further diversification of its funding base, however the sources are expected to remain stable.

## 6. FINANCIAL AND TREND INFORMATION

### 6.1. Financial Statements

Consolidated financial information of the Company (balance sheet, profit and loss statements, and other important metrics) is provided in the tables below. Audited Financial Statements are incorporated by reference into this Base Prospectus (they may also be found on the Issuer's website [www.bluorbank.lv](http://www.bluorbank.lv) and [www.nasdaqbaltic.com](http://www.nasdaqbaltic.com)). Unless otherwise stated, the information of this Section below should be read in conjunction with and is qualified in its entirety by reference to such financial statements and related notes.

The tables below set forth the key financial information as at the end of each of the financial years ended 31 December 2019, 31 December 2020 and 31 December 2021, which has been extracted or derived from the Audited Financial Statements included in this Base Prospectus respectively.

#### Ratios

	31.12.2019	31.12.2020	31.12.2021
Return on equity (ROE)	8.9%	5.0%	13.3%
Return on total assets (ROA)	1.1%	0.5%	1.2%
Net interest margin (NIM)	2.8%	2.7%	3.3%
Impairment losses to loan portfolio	-0.4%	-0.6%	-0.6%
Cost/income ratio (CIR)	63.2%	67.1%	50.8%
Equity to total assets	12.0%	9.4%	8.6%

The above table includes key regulatory ratios as reported to the competent authorities and calculated in accordance with the CRR and CRDIV and other laws and regulations and certain data, which the Company considers to constitute alternative performance measures (the APMs) for the purposes of the European Securities Markets Authority's ("ESMA") Guidelines on Alternative Performance Measures. These APMs are not audited and defined by, or presented in accordance with, IFRS and should not be considered as alternatives to any measures of performance under IFRS or as measures of the Group's liquidity. The Company's use and method of calculation of APMs may vary from other company's use and calculation of such measures.

The table below provides a list of ratios calculation methodology, and the main rationale for using it.

APM	Formula	Rationale for using APMs
Return on Equity (ROE)	Net Profit / Total Average Equity (beginning of the year plus end of the year divided by two)	The ratio shows the percentage return the Bank earns from equity. The higher the ROE ratio, the better the financial performance of the Bank. ROE shows the overall efficiency of how the Company uses its own funds.
Return on total assets (ROA)	Net profit / Total Average Assets (beginning of the year plus end of the year divided by two)	The ratio shows the percentage return the Bank earns from assets. The higher the ROA ratio, the better the financial performance of the Bank. ROA shows the efficiency of how the Company allocates its assets.
Net interest margin (NIM)	Net Interest Income (excluding impairments) / Average Interest-Bearing assets (beginning of the year plus end of the year divided by two)	The NIM ratio is a measure of the profitability of the Bank. The positive and the higher the ratio, the better the financial performance of the Bank. NIM is important to monitor the balance between funding costs and return from the assets. Interest-Bearing assets – Loans and receivables, Investment securities, Trading financial assets
Impairment losses to loan portfolio	Non-Performing Loan Portfolio (gross value) / Total Loan Portfolio (gross value)	The ratio indicates how much of the total loan portfolio is considered as non-performing. The ratio shows the quality of the loan portfolio of the Bank. The lower the ratio, the better the financial performance of the Bank.
Cost/income ratio (CIR)	Administrative expenses including depreciation / Net Operating Income	The ratio indicates the amount of cost used to earn one euro of income. The CIR ratio is a measure of operating efficiency of the Bank. The lower the CIR ratio, the more efficient the Bank is in generating income.
Equity to total assets	Total Equity / Total Assets	The ratio shows how much of the Bank's assets are financed by shareholders. The ratio indicates of how financially stable the Bank is. The higher the ratio, the less leveraged the Bank is.

#### 6.4. Audited Financial Statements

Please refer to Section 1.9 (*Financial Information and Accounting Principles*) regarding the information, related to the audit of the Audited Financial Statements and other information of the Base Prospectus.

#### 6.5. Qualifications and emphasis of matter

There was no qualification or emphasis of the matter in the auditor's report on the Group's consolidated and the Bank's separate financial statements for the year ended 31 December 2020 and 31 December 2021.

#### 6.6. Legal and Arbitration Proceedings

As of the date of this Base Prospectus, none of the legal or arbitration proceedings to which a Group company is a party to (including any such proceedings which are pending or threatened of which the Company is aware) are considered likely to have any significant effects on the Group's financial position and there are no legal or administrative proceedings to which a Group company has been a party to (including any such proceedings which are pending or threatened of which the Company is aware) during the 12 months preceding the date of this Base Prospectus which may have, or have had, significant effects on the Group's financial position or profitability.

In the course of its everyday business operations, the Bank is a party to several legal and arbitration proceedings. In general, the Bank acts as a plaintiff in the court proceedings seeking to recover debts from defaulted borrowers and other customers of the Bank.

### **6.7. Significant Change in the Issuer's Financial Position**

The shareholders of the Company at the Extraordinary General Meeting of the shareholders held on 8 April 2022 have approved the resolution (Nº 06/2022) to distribute part of the profit for the period till 31 December 2017. The dividends of EUR 4`000`000 have been paid to the Company's shareholders on 8 April 2022.

There have been no other significant changes in the financial or trading position of the Company since 31 December 2021.

There has been no material adverse change in the prospects of the Group since 31 December 2021.

### **6.8. Profit Forecasts or Estimates**

The Issuer is not providing financial forecasts or estimates in the Base Prospectus.

### **6.9. Regulatory Disclosures**

The Company has not disclosed any information under the Market Abuse Regulation over the last 12 months as no securities of the Company have been admitted to trading in the stock exchange.

## 7. SECURITIES NOTE

This Section 7 (*Securities Note*) provides an overview of general terms and conditions of the Bonds (the “**General Terms and Conditions of the Bonds**”), which together with the applicable Final Terms, constitute the terms and conditions of each Tranche (the “**Terms of the Bonds**”). The General Terms and Conditions of the Bonds shall apply to each Tranche. Specific terms and conditions specified in the applicable Final Terms may be different in respect of each individual Tranche. In order to identify each Tranche, the Final Terms (as defined below) shall stipulate a serial number of a respective Tranche.

The shareholders of the Company has at the General Meeting of the shareholders held on 22 April 2022 authorised the issuance, public offering and listing of the Bonds (resolution No. 07/2022) and authorised the Management Board of the Company to approve the general terms and conditions of the Bonds, the Base Prospectus, the Final Terms and any of the documents thereto, as well as any amendments and supplements thereof.

Management Board of the Company has approved the Base Prospectus at its meeting on 25 April 2022 (resolution No. 19/2022).

Each Final Terms issued in respect of each issue of Bonds shall be approved by a separate resolution of the Management Board of the Company.

### 7.1. Interest of Natural and Legal Persons Involved in the Offering

According to the knowledge of the Management, save for any fees payable to Sales Agent if any, there are no personal interests of the persons involved in the Offering material to the Offering. The Management is unaware of any conflicts of interest related to the Offering.

### 7.2. Reasons for the Offering and Use of the Proceeds

This Base Prospectus is designated to (i) the Bonds issue Programme for the Offering of the Bonds of the Company in the amount of up to EUR 15'000'000 and (ii) Admission thereof to trading on the Baltic Bond List of Nasdaq Riga.

The primary purpose of the Offering is to strengthen the capital structure of the Company to retain a strong capital base in light of a growing risk-weighted asset base. The proceeds from the Offering will be entirely used for strengthening the Tier 2 regulative capital base. Conservative capital buffers are needed in advance to support the general corporate purposes, further growth, strengthen the market position of the Company, finance launch of new products and increase the business volumes of the Company.

In 2021 the risk-weighted assets of the Company have increased by nearly 2% from EUR 480 million to EUR 489 million and have plans to grow risk-weighted assets to more than EUR 600 million in the next years, mainly by increasing loans portfolio. According to the EU legislation applicable to credit institutions, the increase in risk-weighted assets needs to be covered by regulative capital. Therefore, the Company is looking to engage additional capital in the amount of up to EUR 15'000'000. If in respect of a separate Tranche of the Bonds, there is another identified use of the proceeds, then as indicated above, this will be stated in the relevant Final Terms.

The total amount of costs related to the Offering is estimated to be up to EUR 300 000, which will be deducted from the proceeds of the Offering before using the proceeds as described above.

### 7.3. Type and Class of Bonds

The Bonds are freely transferable non-convertible unsecured and unguaranteed subordinated bonds denominated in EUR with the nominal value of EUR 1'000. The Bonds represent an unsecured debt obligation of the Company towards the Bondholder.

### 7.4. Currency and Nominal Value

The Bonds will be issued in euro (EUR). The nominal value (face value) of each Bond shall be specified in the Final Terms, but it shall amount to at least EUR 1'000.

### 7.5. Form and Registration

The Bonds are dematerialized debt securities in a bearer form and registered with Nasdaq CSD in a book-entry form with the securities settlement system governed by Latvian law (the "**Latvian SSS**").

Each Tranche will be assigned a separate ISIN (International Security Identification Number) code, which will be different from the ISIN code of the other Tranches. Investors may hold Bonds through Nasdaq CSD participants including the Issuer participating in the Latvian SSS. Before commencement of the Offering of the Tranche, Nasdaq CSD, upon request of the Bank, will assign to the respective Tranche an ISIN code. The ISIN code of the respective Tranche will be specified in the Final Terms.

### 7.6. Ranking and Subordination

The Bonds are subordinated within the meaning of the Latvian Credit Institutions Law to all unsubordinated claims against the Company. For the avoidance of doubt, the Bonds are not subordinated to the claims, which are subordinated to the Bonds or which rank *pari passu* with the Bonds. By subscribing to the Bonds, the investors unconditionally and irrecoverably agree to the subordination of claims arising from the Bonds. The subordination of the Bonds means that upon the liquidation or insolvency of the Company, all the claims arising from the Bonds shall fall due in accordance with the Terms of the Bonds and shall be satisfied only after the full satisfaction of all unsubordinated recognised claims against the Company in accordance with the applicable law. Therefore, upon the liquidation or insolvency of the Company, the Bondholders are not entitled to any payments due under the Terms of the Bonds until the full and due satisfaction of all the unsubordinated claims against the Company. As long as there are no liquidation or insolvency proceedings initiated against the Company, all claims arising from the Bonds shall be satisfied in accordance with the Terms of the Bonds and the applicable law.

### 7.7. Security

The Bonds constitute unsecured, unguaranteed and subordinated obligations of the Company ranking *pari passu* without any preference among themselves.

### 7.8. Ratings

The Bonds have not been rated by any credit agencies.

### 7.9. Applicable Law and Dispute Resolution

Each Issue of the Bonds shall be governed by the laws of the Republic of Latvia.

Any disputes relating to or arising from the Issue will be settled solely by the courts of the Republic of Latvia of competent jurisdiction. Claims arising from the Bonds shall expire in accordance with the statutory terms of Latvian law.

## 7.10. Delivery

The Company organises the registration of the Bonds in Nasdaq CSD and their deletion from Nasdaq CSD upon their redemption. Only persons who have securities accounts (whether directly or via a nominee structure) with Nasdaq CSD can subscribe for or purchase the Bonds.

## 7.11. Transferability

There are no restrictions on the transfer of the Bonds as they are described in the applicable Latvian law. However, any Bondholder wishing to transfer the Bonds must ensure that any offering related to such transfer would not be qualified as an offering requiring the publication of a prospectus in the meaning of the applicable law. Ensuring that any offering of the Bonds does not require publication of a prospectus under the applicable law is the obligation and liability of the Bondholder.

The Bonds can be transferred from one securities account to another by the registrar of Nasdaq CSD by way of debiting the first securities account and crediting the other securities account in the amount of the corresponding number of securities. Ownership of a Bond is deemed to have changed in respect of the Company as from the moment a relevant entry is made in Nasdaq CSD, i.e. when a Bond is transferred to the securities account of the respective Bondholder.

## 7.12. Maturity and Redemption

Each Tranche of the Bonds shall have a maturity between 5 and 10 years starting from the Issue Date. The Bonds shall be repaid in full at their nominal value on the maturity date, which will be specified in the Final Terms (the "**Maturity Date**"), or on the early redemption date.

The Company is further entitled to redeem the Bonds prematurely if there is a change in the regulative classification of the Bonds resulting in the Bonds being, in the opinion of the Company, excluded from the classification as own funds of a credit institution or if there is a significant change in the taxation regime applicable in respect of the Bonds, provided that the Company was not in a position to foresee such changes upon the issue of the Bonds.

Upon the occurrence of a Tax Event, but subject to having obtained the relevant Competent Authority's permission if such permission is then required under the Applicable Banking Regulations, the Company may, at its option, having given not less than 30 days' notice to the Bondholders in accordance with Section 7.26 (Notices) (which notice shall be irrevocable) redeem all (but not some only) of the outstanding Bonds at any time at a redemption amount equal to their Outstanding Principal Amount together with interest (if any) accrued up to but excluding the date of redemption.

Upon the occurrence of a Capital Event, but subject to having obtained the relevant Competent Authority's permission, if such permission is then required under the Applicable Banking Regulations, the Company may, at its option, having given not less than 30 days' notice to the Bondholders in accordance with Section 7.26 (Notices) (which notice shall be irrevocable) at any time redeem all (but not some only) of the outstanding Bonds at a redemption amount equal to their Outstanding Principal Amount, together with interest (if any) accrued up to but excluding the date of redemption.

At any time after the lapse of 5 years from the Issue Date in accordance with the Final Terms the Company may, at its option, having given not less than 30 days' notice to the Bondholders in accordance with Section 7.26 (Notices) (which notice shall be irrevocable) at any time redeem all (but not some only) of the outstanding Bonds of the relevant Tranche at a redemption amount equal to their Outstanding Principal Amount, together with interest (if any) accrued up to but excluding the date of redemption ("**Call Option**").

The Bonds may be redeemed prematurely by the Company on the above-described grounds only if the FCMC has granted its consent to the early redemption. The FCMC may grant its consent for the early redemption of the Bonds after the lapse of 5 years from the Issue Date only if the conditions of Article 78(1) of the Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms and amending Regulation (EU) No 648/2012 (the "**CRR**") are met. The FCMC may grant its consent for the early redemption of the Bonds before lapse of 5 years from the Issue Date only if the conditions of Article 78(4) of the CRR are met.

The Bondholders are not entitled to claim early redemption of the Bonds under any circumstances.

All Bonds redeemed in accordance with this Section 7.12 will be cancelled and may not be reissued or resold. References in this paragraph to the purchase of the Bonds by the Company shall not include the purchase of the Bonds in the ordinary course of business of dealing in securities as a market-maker or the purchase of the Bonds otherwise than as a beneficial owner.

### 7.13. Purchases

The Company and its subsidiaries may at any time, if in accordance with the Applicable Banking Regulations, purchase the Bonds for the purpose of market-making at any price and any such purchases shall be subject to the prior permission of the Competent Authority in accordance with the CRR and Commission Delegated Regulation No 241/2014 supplementing Regulation (EU) No 575/2013 of the European Parliament and of the Council of 7 January 2014 with regard to regulatory technical standards for own funds requirements for institutions, and any other Applicable Banking Regulations (if such permission is then required under the Applicable Banking Regulations).

### 7.14. Interest

The Bonds carry an annual coupon interest, which shall be specified in the Final Terms. The annual coupon interest of every Tranche shall be the same for each and every year until the Maturity Date (as defined below) or the Early Redemption Date (as defined below), as the case may be.

The interest is paid quarterly on the dates specified in the Final Terms (the “**Interest Payment Dates**”). The interest on the Bonds shall be calculated based on a 30-day calendar month and a 360-day calendar year (30/360).

Interest on the Bonds shall be paid through Nasdaq CSD in accordance with the applicable rules of Nasdaq CSD. The Bondholders’ list eligible to receive the interest on the Bonds will be fixed at the end of the 5th (fifth) Business Day immediately preceding the Interest Payment Date.

Should any Interest Payment Date fall on a date that is not a Business Day, the payment of the interest due will be postponed to the next Business Day. The postponement of the payment date shall not have an impact on the amount payable.

### 7.15. Payments

Payments of amounts (principal, including the Final Redemption) due on the Bonds will be made to the persons who were registered as the Bondholders at the close of business on the Business Day preceding the due date for such payment. Payment of amounts due on the Final Redemption of the Bonds will be made simultaneously with deletion of the Bonds, or, if so, required by the Company, against delivery of the Bonds to the Company. If the due date for payment of the Final Redemption amount of the Bonds is not a Business Day, the Bondholder thereof will not be entitled to payment thereof until the next following Business Day and no further payment shall be due in respect of such delay save in the event that there is a subsequent failure to pay in accordance with these Terms.

If the Company fails to transfer any amount payable to a Bondholder in connection with the Bond by the due date, the Company undertakes to pay delay interest to the Bondholder on the outstanding amount as from the payment deadline until actual payment at the rate specified in the Final Terms.

## 7.16. Underwriting

None of The Bonds will be underwritten.

## 7.17. Issue Date

The issue date of each Tranche (the “**Issue Date**”) shall be specified in the Final Terms.

## 7.18. Rights Attached to the Bonds

The rights attached to the Bonds have been established by the Terms of the Bonds, which are included in this Base Prospectus as Section 7 (*Securities Note*). The main rights of Bondholders arising from the Bonds and the Terms of the Bonds are the right to the redemption of the Bonds on the Maturity Date and the right to receive payment of interest subject to the conditions and limitations of these rights as described in the Terms of the Bonds.

In addition to the right to the redemption of the Bonds and the right to receive payment of interest, upon a delay in making any payments due under the Terms of the Bonds, the Bondholders are entitled to a delay interest per each day in delay. The rights arising from the Bonds can be exercised by the Bondholders in accordance with the Terms of the Bonds and the applicable law.

No Bondholder shall be entitled to exercise any right of set-off against moneys owed by the Company in respect of such Bonds.

According to the Terms of the Bonds, any dispute between the Company and a Bondholder shall be solved by amicable negotiations and if the amicable negotiations have no outcome during a reasonable period of time, the dispute shall be settled by Latvian courts.

## 7.19. Taxation

Should any amounts payable in cash (whether in respect of principal, redemption amount, interest or otherwise) in respect of the Bonds be subject to withholding or deduction of any present or future taxes or duties of whatever nature imposed or levied by or on behalf of the Republic of Latvia or any political subdivision thereof or any authority or agency therein or thereof having the power to tax, the Company shall be entitled to withhold or deduct the respective taxes or duties. For the avoidance of doubt, any such withholdings or deductions shall be made by the Company on the account of the Bondholder with the Company having no obligation to compensate the withheld or deducted tax amounts to the Bondholder.

If an applicable treaty for the avoidance of double taxation sets forth lower withholding rates than those otherwise applicable to the interest payment under Latvian domestic law, the respective Bondholder shall be requested to provide the documents necessary for the application of the respective treaty (including, but not limited to, residence certificate issued or attested by the tax authority of the residence state of the Bondholder) at least 15 (fifteen) days prior to the payment. If such documents are not presented to the Company, the Company shall be entitled to withhold tax at the rates set forth by the Latvian law.

Any reference in this Section 7 (*Securities Note*) to interest in respect of the Bonds shall be deemed also to refer to any additional amounts, which may be payable under this Section or any undertaking given in addition thereto or in substitution therefor. For the avoidance of doubt, no additional amounts shall be payable by the Company in respect of payments of the principal under the Bonds.

## 7.20. Further Issues

The Company may from time to time, without the consent of and notice to the Bondholders, create and issue further bonds. Thus, this Section shall not limit the Company's right to issue any other bonds.

## 7.21. Limitation Period

Claims against the Company in respect of the Bonds will expire in accordance with the statutory terms of Latvian law.

## 7.22. Publication of the Final Terms

The Final Terms of each Tranche will be approved by the Management Board of the Company. Before the Offering of the respective Tranche commences, the initial Final Terms:

- will be submitted to the FCMC, who will forward them to the EFSA and the Bank of Lithuania; and
- will be published on the Bank's website [www.bluorbank.lv](http://www.bluorbank.lv).

The Final Terms containing information about the established aggregate principal amount of the respective Tranche and definitive amount of the Bonds to be issued, as well as the final Offering Period, Annual Interest Rate, Issue Price, Issue Date, Maturity Date and Interest Payment Dates will be published on the Bank's website [www.bluorbank.lv](http://www.bluorbank.lv) and submitted to the FCMC after allotment of the Bonds to the investors.

## 7.23. Admission to Listing and Trading

The Bank shall submit an application for admitting each Tranche to listing and trading on the official bond list (Baltic Bond List) of Nasdaq Riga AS, registration number: 40003167049, legal address: Valņu 1, Riga, LV-1050, Latvia (the "**Nasdaq Riga**") according to the requirements of Nasdaq Riga. In each case, the Bank will take appropriate actions to ensure that the relevant Tranche is admitted to listing and trading on the official bond list (Baltic Bond List) of Nasdaq Riga soon as practically possible however in each case such time period shall not exceed 3 (three) months after the Issue Date of the respective Tranche.

Unless the context requires otherwise, references in this Base Prospectus to the Bonds being "listed" (and all related references) shall mean that such Bonds have been listed and admitted to trading on the Baltic Bond List of Nasdaq Riga as may be specified in the applicable Final Terms.

The Bank shall use its best efforts to ensure that the respective Tranche remains listed in the official bond list (Baltic Bond List) of Nasdaq Riga or if such listing is not possible to obtain or maintain, listed or traded on another regulated market. The Bank shall, following a listing or admission to trading, take all reasonable actions on its part required as a result of such listing or trading of the respective Tranche. The Bank will cover all costs, which are related to the admission of the respective Tranche to the relevant regulated market.

## 7.24. Estimated Expenses Charged to the Investors

Investors shall bear all costs and fees charged by the respective credit institution or investment brokerage firms through which they submit their Subscription Orders, including but not limited to expenses, which are related to the opening of securities accounts with the credit institutions or investment brokerage firms, as well as commissions, which are charged by the credit institutions or investment brokerage firm in relation to the execution of the investor's purchase or selling orders of the Bonds, the holding of the Bonds or any other operations in relation to the Bonds. The Bank shall have no obligation whatsoever to compensate the Bondholders for any such expenses.

## 7.25. Agent

As the Company plays the Agent's role itself, i.e. there is no mediator between the Company and the Bondholders during registration of the Bonds as well as subscription for the Bonds, interest and redemption payments, etc., the Bondholders acknowledge that they have no additional claims against the Company and the Company has no additional obligations, other than those provided in the General Terms and Conditions of the Bonds, arising solely from the fact that the Company plays the Agent's role itself.

The Company might at its own discretion for any Tranche conclude an agreement with the Sales Agent which might carry out some operations on behalf of the Company. In each case, the Sales Agent or agents would be a bank or an investment firm. In case of using the Sales agent, the Company shall reimburse the relevant Sales Agent fees and costs for the services provided by it to the Company, however, the Company is not liable for any claims that might arise between the relevant sales agent and potential bondholders or the Bondholders. For the avoidance of doubt, this Base Prospectus does not in any way regulate the legal relationship between the potential bondholders and the relevant Sales Agent.

## 7.26. Notices

The Bondholders shall be advised on matters relating to the Bonds by a notice published in English and Latvian on the Company's website at [www.bluorbank.lv](http://www.bluorbank.lv) as well as on [www.nasdaqbaltic.com](http://www.nasdaqbaltic.com). Any such notice shall be deemed to have been received by the Bondholders when published in the manner specified in this Section.

Notices to the Company will be deemed to be validly given if delivered to Smilšu 6, LV-1050, Riga, Latvia or it delivered by e-mail to [info@bluorbank.lv](mailto:info@bluorbank.lv) (or at such other addresses as may have been notified to the Bondholders in accordance with this Section or via the Company's website) and will be deemed to have been validly given at the opening of business on the next day on which the Company's principal office is open for business.

## 7.27. Acknowledgement of Bail-in Powers

Notwithstanding and to the exclusion of any other term of the Bonds or any other agreements, arrangements or understanding between the Company and any Bondholder (which, for the purposes of this Section, includes each holder of a beneficial interest in the Bonds), by its acquisition of the Bonds, each Bondholder acknowledges and accepts that any liability arising under the Bonds may be subject to the exercise of Bail-in Powers by the Relevant Resolution Authority and acknowledges, accepts, consents to and agrees to be bound by:

- (a) the effect of the exercise of any Bail-in Powers by the Relevant Resolution Authority, the exercise of which (without limitation) may include and result in any of the following, or a combination thereof:
  - a. the reduction of all, or a portion, of the Relevant Amounts in respect of the Bonds;
  - b. the conversion of all, or a portion, of the Relevant Amounts in respect of the Bonds into shares, other securities or other obligations of the Company or another person, and the issue to or conferral on the Bondholder of such shares, securities or obligations, including by means of an amendment, modification or variation of the Terms;
  - c. the cancellation of the Bonds or the Relevant Amounts in respect of the Bonds;
  - d. the amendment or alteration of the amount of interest payable on the Bonds, or the date on which interest becomes payable, including by suspending payment for a temporary period; and
- (b) the variation of the Terms, as deemed necessary by the Relevant Resolution Authority, to give effect to the exercise of any Bail-in Powers by the Relevant Resolution Authority.

## 7.28. Bondholders Meeting

The decisions of the Bondholders (including decisions on amendments to these Terms and Conditions or the Final Terms of the relevant Tranche or granting of consent or waiver) shall be passed at a meeting of the Bondholders ("**Bondholders' Meeting**"). The Bondholders Meeting might be held in person, electronically by submitting votes in a written form at the choice of the Issuer.

The right to convene the Bondholders' Meeting shall be vested in the Issuer. As a general rule, the Bondholders' Meetings are convened by the Issuer giving not less than 30 days' notice to the Bondholders in accordance with Section 7.26 (Notices). Such notice shall include (i) relevant request for a decision; (ii) reasoning for such a request; (iii) a form for replying to the request; (iv) the stipulated time period within which the Bondholder must reply to the request and a manner of a reply; (v) requirements for the powers of attorney; (vi) a statement that if the Bondholder does not reply to the request in the stipulated time period, then it shall be deemed that the Bondholder has voted against or in favour of the relevant request.

Only those who were registered as the Bondholders by the end of the 13th (thirteenth) Business Day prior to convening the Bondholders' Meeting. The Bondholders' Meeting has a quorum, if at least 2 or more Bondholders representing at least 50 per cent or one Bondholder holding 100 per cent of the principal amount of the Bond of the relevant Tranche outstanding are present in the Bondholders' Meeting or provide replies in the written form. Decisions in the Bondholders' Meeting are adopted by a simple majority.

A matter decided at the Bondholders' Meeting is binding on all Bondholders of the Bonds of the relevant Tranche, irrespective of whether they were present at the Bondholders' Meeting. Decisions made at the Bondholders' Meeting are deemed to have been received by the Bondholders of the Bonds of the relevant Tranche at the time they have been entered in the account maintained by Nasdaq CSD, or notified to the Bondholders in accordance with 7.26 (Notices), provided that a failure to do so shall not invalidate any decision made or the voting result achieved. In addition, the Bondholders are obliged to notify subsequent transferees of the Bonds of the resolutions of the Bondholders' Meeting.

The Bonds and this Base Prospectus may be amended by the Issuer without the consent of the Bondholders to correct a manifest error or to comply with mandatory provisions of the applicable law. In addition, the Issuer shall have a right to amend the technical procedures relating to the Bonds in respect of payments or other similar matters without the consent of the Bondholders, if such amendments are not prejudicial to the interests of the Bondholders.

The Bonds held by or for the account of the Company or any of its Subsidiaries for their own account will not carry the right to vote at the Bondholders' Meetings and will not be taken into account in determining how many Bonds are outstanding for the purposes of the Terms of the Bonds. For the avoidance of doubt when determining whether the Bondholders' Meeting has a quorum the Bonds owned by the Group are excluded.

All expenses in relation to the convening and holding the Bondholders' Meetings shall be covered by the Issuer.

## 7.29. Representation of the Bondholders

The rights of the Bondholders to establish and/or authorize an organization/person to represent the interests of all or a part of the Bondholders are not contemplated notwithstanding the provisions of Section 7.28 ("**Bondholders Meeting**"), however, such rights are not restricted. The Bondholders should cover all costs and fees of such representative(s) by themselves.

## 8. TERMS AND CONDITIONS OF THE OFFERING

### 8.1. General Description

The Issuer may issue Bonds up to an aggregate principal amount of EUR 15'000'000. The Bonds shall be issued and offered in tranches (the “**Tranches**”, individually the “**Tranche**”). The terms and conditions of each Tranche shall consist of (i) the General Terms and Conditions of the Bonds which are identified in Section 7 (*Securities Note*) and Section 8 (*Terms and Conditions of Offering*) and to each Tranche accordingly (ii) the Final Terms.

Thus, the Bonds of each of the Tranches will generally be subject to similar main terms, except that the following may differ, as specified in the respective Final Terms of the respective Tranche - the Issue Date, nominal value of the Bonds, Issue Price of the Bonds, Maturity Date, Call Date and annual interest rates.

The aggregate principal amount of the Bonds of each of the Tranches shall be specified in the Final Terms. The Issuer may decrease and increase the aggregate principal amount of a Tranche as set out in the Final Terms during the Subscription Period of that Tranche.

The Bonds will be offered for subscription for a minimum investment amount (the “**Minimum Investment Amount**”), which will be specified in the Final Terms.

### 8.2. General Structure of the Offering

This Programme consists of: (i) a public offering(s) to retail investors and Institutional investors in the Republic of Latvia, in the Republic of Lithuania and in the Republic of Estonia, and/or (ii) private placement(s) (offering(s)) to Institutional investors and retail investors in certain Member States of the EEA and to other selected investors in each case pursuant to an exemption under Article 1 of the Prospectus Regulation.

For the purpose of the public offering, only such prospective investors will be eligible to participate in the Offering who at or by the time of placing their orders (before the end of the Subscription Period) have opened securities accounts with entities of their choice, which are licensed to provide such services within the territory of the Republic of Latvia, of the Republic of Lithuania or of the Republic of Estonia.

The Offering is not addressed to investors who are Russian or Belarusian nationals or natural person residing in Russia or Belarus. The latter shall not apply to nationals of a Member States of the European Union or natural persons holding a temporary or permanent residence permit in a Member State of the European Union. The Offering is also not addressed to investors that is a legal person, entity or body established in Russia or Belarus<sup>5</sup>.

Thus, according to the information, provided above, the Offering of each of the Tranche shall be structured in the following order:

- (a) the Subscriptions as to the acquisition of the Bonds of the respective Tranche shall be received from the investors, described in this Base Prospectus and in the Final Terms of the respective Tranche;
- (b) based on the decision of the Management Board the Bonds shall be finally allocated to the investors;
- (c) the Bonds shall be registered with Nasdaq CSD and distributed to the investors;
- (d) Listing application will be submitted to Nasdaq Riga for listing and trading the Bonds on the Baltic Bond List.

<sup>5</sup> The prohibitions imposed in accordance with Article 5e and 5f of Regulation (EU) No. 833/2014 (as amended by Council Regulation (EU) No. 2022/328 and 2022/394) and Article 1x and 1y of Regulation (EC) No. 765/2006 (as amended by Council Regulation (EU) No 2022/398)

The Offering of each of the Tranche may be done through an auction facilitated by Nasdaq Riga (the “**Auction**”) in accordance with specific rules of the Bond Subscription Process for the relevant Tranche and via Nasdaq CSD Latvian SSS participants located in Estonia.

### **8.3. Subscription procedure**

The subscription period for each respective Tranche (the “**Subscription Period**”) will be specified in the Final Terms if any additional information shall be provided. The persons wishing to subscribe and purchase the Bonds shall submit their orders to acquire the Bonds (the “**Subscription Orders**” or “**Subscriptions**”) at any time during the Subscription Period.

At the time of placing the Subscription Orders, the investors shall be required to make a binding and irrevocable instruction for depositing the Bonds in a securities account maintained in their name and opened with the Issuer or entities of their choice, which are licensed to provide such services within the territory of the Republic of Latvia, the Republic of Lithuania and the Republic of Estonia.

By placing a Subscription Order, each investor will be deemed to have read this Base Prospectus, the Company’s Articles of Association and accepted their content, as well as have read the Final Terms of the respective Tranche and its Summary, consented to be allotted a lower number of Bonds than the number specified in such an investor’s Subscription Order or to not being allotted any Bonds at all, pursuant to the terms and conditions of the Offering.

While submitting the Subscription Order the investor authorizes Nasdaq CSD, Nasdaq Riga, the Issuer and the Sales Agent to process, forward and exchange information on the identity of the investor and the contents of respective investor’s Subscription Order before, during and after the Offering Period.

An investor will be allowed to submit a Subscription Order either personally or via a representative whom the investor has authorized (in the form required by law) to submit the Subscription Order. More detailed information concerning the identification of investors, including requirements concerning documents submitted and the rules for acting through authorized representatives, can be obtained by investors from the entities accepting Subscription Orders.

An investor must ensure that all information contained in the Subscription Order is correct, complete and legible. The Issuer reserves the right to reject any Subscription Order that is incomplete, incorrect, unclear or ineligible or that has not been completed and submitted and/or has not been supported by the necessary additional documents, requested by the Issuer, during the Subscription Period and in accordance with all requirements set out in the terms and conditions of the Offering.

Any consequences of form of a Subscription Order for the Bonds being incorrectly filled out will be borne by the investor.

### **8.4. Place of Subscription**

The Subscriptions shall be made on a Subscription Order, which will be available on the websites of the Issuer and at the address (-es) indicated in the Final Terms and/or in accordance with specific rules of the Bond Subscription Process of Nasdaq Riga or Nasdaq CSD Latvian SSS participants located in Estonia in case their technical means shall be used for the Subscription.

For the purposes of public offering, the Subscription Orders may be submitted through any financial institutions that are licensed to provide such services within the territory of the Republic of Latvia, of the Republic of Lithuania or of the Republic of Estonia or directly to the Issuer or to the Sales Agent. In the case of Auction, the Issuer in the Final Terms might be prescribed that Subscription Orders may only be submitted through financial institutions that are members of Nasdaq Riga. In the case of Subscription via Nasdaq CSD Latvian SSS participants located in Estonia, the Issuer in the Final Terms might be prescribed that Subscription Orders may only be submitted through financial institutions that are participants of the Nasdaq CSD Latvian SSS participants located in Estonia.

The total amount of the Bonds to be acquired and indicated in each Subscription Order shall be for at least Minimum Investment Amount. The procedure of submission of the Subscription Orders will be specified in the Final Terms if any additional information shall be provided.

All Subscription Orders shall be binding and irrevocable commitments to acquire the allotted Bonds, with the exceptions stated below. The Subscription Orders shall not be considered valid and shall not be processed in case the purchase amount indicated in the Subscription Orders is less than the Minimum Investment Amount or the Subscription Orders were received after the Subscription Period. The Issuer has no obligation to inform the investors about the fact that their Subscription Orders are invalid.

Firms managing securities portfolios on a discretionary basis will have to place subscription orders for the Bonds by submitting the Subscription Order form along with a list of investors on whose behalf the Subscription Order is placed. The list must include details required to be included in the Subscription Order form with respect to each investor listed and must be signed by the persons authorised to represent the entity.

### **8.5. Private Placement Subscription Procedure**

In respect of private placement of the Bonds investors wishing to purchase the Bonds may become investment services clients of the Issuer and submit their Subscription Order directly to the Issuer. Other investors may submit Subscription Orders through a credit institution, investment firm or other financial intermediaries (the “**Institutional investor**”) that are licensed to provide such services from which the investor receives investment services. Institutional investor submits its own Subscription Orders or Subscription Orders received from the investors to the Issuer or agent if any. The Issuer may receive the Subscription Orders only from the Institutional investors who are eligible counterparty of the Issuer.

The Institutional investors will also be entitled to place multiple Subscription Orders.

The Institutional investors should contact the Issuer for information on detailed rules governing the placement of Subscription Orders, in particular the documents required if an order is placed by a statutory representative, proxy or any other person acting on behalf of an investor.

### **8.6. Withdrawal of the Subscription Orders**

Subscription Orders for the Bonds of the respective Tranche may be withdrawn (and new orders placed) at any time until the end of the Subscription Period of the respective Tranche. An investor will be liable for the payment of all fees and costs charged by the institution, used by the investor for the Subscription of the Bonds in connection with the withdrawal or amendment of the Subscription Order.

Furthermore, a Subscription for the Bonds may also be withdrawn when after the start of the Offering, a supplement is made public concerning an event or circumstances occurring before the allotment of the Bonds, of which the Issuer became aware before the allotment. The investor who has made a Subscription before the publication of the supplement may withdraw such Subscription by submitting a written statement to the institution where the subscription was made, within 2 (two) Business Days as from the date of the publication of the supplement.

The above right of investors to withdraw their Subscriptions shall only apply to the relevant Tranche and not to any other Tranches of the Bonds under this Base Prospectus.

The repayments will be made (or the blocked funds will be released) in accordance with the Subscription Order within 3 (three) Business Days after making the statement on the Subscription cancellation.

## **8.7. Pricing**

The nominal value and Issue Price shall be determined by the Issuer and shall be announced prior to commencement of the Subscription Period. The nominal value of the Bond shall be at least EUR 1'000. The final nominal value and Issue Price of the respective Tranche Bonds will be determined by the Issuer taking into account market demand for the Bonds of the respective Tranche and general market conditions at the time of the respective Tranche.

## **8.8. No Assignment or Transfer**

The rights arising out of this Base Prospectus in relation to the Subscription for the Bonds (including, without limitation, rights arising from any Subscription Orders or any acceptance thereof) are not assignable, tradable or transferable in any way and any assigned or transferred rights will not be recognised by the Company and will not be binding on the Company.

## **8.9. Procedure and date for payment for the Bonds**

By submitting a Subscription Order, each investor shall authorise and instruct the institution operating the investor's cash account connected to the investor's securities account to immediately block the whole subscription amount on the investor's cash account until the payment for the allotted Bonds is completed or until the funds are released in accordance with this Base Prospectus. The subscription amount to be blocked will be equal to the Offer Price multiplied by the amount of the Bonds, the respective investor wishes to subscribe for. An investor may submit a Subscription Order only when there are sufficient funds on the cash account. If the blocked funds are insufficient, the Subscription Order will be deemed null and void to the extent funds are insufficient.

The investors who have not been allotted any Bonds or whose Subscriptions have been reduced will receive reimbursements of the payment made upon placing the Subscription Order (or the blocked funds will be released) in accordance with instructions provided by each such investor, as required under the procedures applicable in the investment firm or credit institution with which the Subscription Order was placed. The reimbursement will take place (or the blocked funds will be released) within 10 (ten) Business Days as from the end of the Subscription Period or from the date of the publication of the supplement to this Base Prospectus on the cancellation of the Offering. The payments shall be returned (or the blocked funds will be released) without any reimbursement for costs incurred by the investors in the course of subscribing for the Bonds and shall be net of all transfer expenses and without interest.

In respect of private placement of the Bonds the Institutional Investor shall consent to the obligation to ensure the subscription amount on the settlement date on the Delivery Versus Payment terms in accordance with Nasdaq CSD rules.

Payments for the Bonds are interest free.

## **8.10. Allotment**

On the next 3 Business Days following the end of the Subscription Period or about that date the Issuer will decide whether to proceed with the Offering of the Bonds of a Tranche or cancel the Offering of the respective Tranche.

In case the Offering of the Bonds of a Tranche is cancelled, the Issuer will publish an announcement on its website as well as submit this information to the FCMC.

In case the Issuer decides to proceed with the Offering of the Bonds of a Tranche the following actions shall be taken on the next 3 Business Days following the Subscription Period or about that date:

- (a) Allotment of the Bonds to the investors.

The Issuer will establish the exact amount of the Bonds to be allotted with respect to each Subscription Order.

As a general principle, if the total number of the Bonds subscribed for is equal to or less than the number of the Bonds and the Issuer decides to proceed with the Offering of the respective Tranche of Bonds, the Bonds will be allotted based on the Subscription Orders placed.

In case the total number of the Bonds subscribed for is higher than the number of the Bonds and the Issuer decides to proceed with the Offering and it is decided to reduce the Subscriptions placed, the Bonds may be allocated to them in an entirely discretionary manner of the Issuer.

If any additional provisions would be applied to the allocation of the separate Tranche Bonds, these will be specified in the Final Terms for the Offering of the relevant Tranche.

The Issuer will not be obliged to allocate any Bonds to any investors participating in the Offering. Furthermore, there will be no target minimum individual allotment to the investors.

#### (b) Confirmations

After completion of the allotment, the Investor shall receive a notification about partial or full satisfaction or rejection of the Subscription Order submitted by the investor and the number of Bonds allotted to the investor if any.

#### (c) Information about the Results of the Offering

Information about the results of the Offering of each Tranche (amount of the Bonds issued and an aggregate principal amount of the respective Tranche) shall be published on the Issuer's website [www.bluorbank.lv](http://www.bluorbank.lv) as well as at [www.nasdaqbaltic.com](http://www.nasdaqbaltic.com).

### **8.11. Cancellation, Suspension or Postponement of the Offering**

The Issuer may cancel the Offering of the Bonds of any Tranche at any time prior to the Settlement Date without disclosing any reason for doing so. The Issuer may also change the dates of opening and closing of the Subscription Period, or decide that the Offering of any of the Tranches will be postponed and that new dates of the Offering will be provided by the Issuer later.

The Issuer may cancel the Offering if the Issuer considers it impracticable or inadvisable to proceed with the Offering. Such reasons include, but are not limited to: (i) suspension or material limitation of trading in securities; (ii) sudden and material adverse change in the economic or political situation in Latvia or worldwide; (iii) a material loss or interference with the Issuer's or its Subsidiaries business, or (iv) any material change or development in or affecting the general affairs, management, financial position, shareholders' equity or results of the Issuer's operations or the operations of the Subsidiaries. In such an event, Subscriptions for the Bonds that have been made will be disregarded, and any Subscription payments made will be returned (or the blocked funds will be released) without interest or any other compensation.

If the Offering is suspended, the Issuer may decide that the Subscriptions made and payments made (or the blocking of funds) will be deemed to remain valid, however, for no longer than 7 (seven) Business Days. In such a case, the investors will be allowed to withdraw Subscriptions made by submitting a relevant statement to that effect within 2 (two) Business Days after the report on the suspension is announced.

Any decision on cancellation, suspension, postponement or changes of the dates of the Offering will be published in a manner compliant with applicable regulations, as well as market practices in Latvia.

### **8.12. Settlement and Delivery**

The settlement of the Offering will be carried out by Nasdaq CSD. The Bonds allocated to investors will be transferred to their securities accounts through the “delivery versus payment” method pursuant to the applicable rules of Nasdaq CSD simultaneously with the transfer of payment for such Bonds. The title to the Bonds will pass to the relevant investors when the Bonds are transferred to their securities accounts. If an investor has submitted several Subscription Orders through several securities accounts, the Bonds allocated to such an investor will be transferred to all such securities accounts proportionally to the number of the Bonds indicated in the Subscription Orders submitted for each account, rounded up or down as necessary. The settlement will take place on the Issue Date. All paid up Bonds shall be treated as issued.

If an investor has opened a securities accounts with the Issuer and is acting through the Issuer in respect to the purchase of the Bonds, the settlement for the Bonds will be performed in accordance with the terms and conditions of the agreements concluded between the Issuer and such investor.

### **8.13. Listing and Admission to Trading**

The Issuer shall submit an application to list and admit to trading each Tranche of the Bonds on Nasdaq Riga Baltic Bond List.

The decision as to the listing and admission of Bonds to trading on Nasdaq Riga shall be adopted by the Board of Nasdaq Riga. The Company shall take all the measures, established in Nasdaq rules, needed that the Bonds would be admitted to trading on Nasdaq Riga as soon as practicably possible.

The Issuer expects that the Bonds of the respective Tranche shall be admitted to trading on Nasdaq Riga within 3 (three) months as from placement thereof to the investors at the latest. Disregarding this, the Issuer will put its best endeavours so that these terms would be as short as practicable possible.

The Issuer shall also put its best efforts to ensure that the Bonds remain listed on the Nasdaq Riga. The Issuer shall, following a listing or Admission to trading, take all reasonable actions on its part required as a result of such listing or trading of the Bonds.

The Issuer will cover all costs, which are related to the Listing of the Bonds on Nasdaq Riga.

The Issuer does not intend to apply for admission of the Bonds (or part thereof) to trading on other regulated markets or equivalent markets.

## 9. FORM OF THE FINAL TERMS

The following form will be used for defining the Final Terms.

Table \_\_ Form of the Final Terms

**Final Terms dated [\_\_\_\_]  
BluOr Bank AS**

Annex – Issue Specific Summary

Management Board of BluOr Bank AS:

## 10.ADDITIONAL INFORMATION

### **Documents Available**

Throughout the period of validity of this Base Prospectus, the documents, indicated in Section 1.6. Information Incorporated by Reference will be available to the investors.

# 11. TAXATION

The following is a general summary of certain tax considerations in the Republic of Latvia, the Republic of Lithuania and the Republic of Estonia in relation to the Bonds. It is not exhaustive and does not purport to be a complete analysis of all tax consequences relating to the Bonds. Only the essential regulations of income taxation are described.

The Issuer emphasizes that the specific tax consequences shall depend on each specific case. The Bondholders shall note the tax legislation of their member state and of the Issuer's country of incorporation (Latvia) may have an impact on the income received from the Bonds.

This section is made in accordance with existing regulatory enactments in force in the Republic of Latvia, Republic of Estonia and Republic of Lithuania at the time of the Base Prospectus. The Bondholders should note that the regulatory enactments may be amended in future as well as competent authorities might adopt regulatory enactments with retroactive effect meaning that the regulatory enactment would govern historical tax relationships. This section does not take into account or discuss the tax implications of any country other than the Republic of Latvia, the Republic of Lithuania and the Republic of Estonia.

The information provided in this Section is not to be treated as legal or tax advice; and prospective investors are advised to consult their own tax advisors as to the tax consequences of the subscription, ownership and disposal of the Bonds applicable to their particular circumstances.

## 11.1. Republic of Latvia

This Sub-section is meant to give an overview of the tax regime applicable to the Bondholders in relation to the Republic of Latvia. The Republic of Latvia has concluded tax conventions on the avoidance of double taxation with many countries, under which more favourable tax treatment could be possible. Therefore, if the Republic of Latvia has a valid tax convention with the country of the potential non-resident investor, it would be advisable to also read its provisions.

### 11.1.1. Natural persons

For tax purposes, an individual shall be considered a resident of the Republic of Latvia if it permanently resides in the Republic of Latvia, or it stays in the Republic of Latvia for more than 183 days within any 12-month period, or it is a citizen of the Republic of Latvia employed abroad by the government of the Republic of Latvia government.

In a case, if an individual has close personal and economical relationships also with other countries, a tax treaty concluded between the Republic of Latvia and this country has to be taken into consideration as the relevant tax treaty might hold specific provisions to determine a country of tax residence for the individual.

In accordance with the regulatory enactments (Law "On Personal Income Tax") interest income from the Bonds for individuals that are residents of the Republic of Latvia are subject to a 20% tax withheld by the Issuer at the time of disbursement. Income from the sale of the Bonds is subject to a 20% tax, but in this case, the tax is paid by the individual directly.

In regards to individuals that are not residents of the Republic of Latvia in accordance with the regulatory enactments (Law "On Personal Income Tax"), interest from publicly traded Bonds, as well as income from the sale of publicly traded Bonds shall not be taxed in the Republic of Latvia.

### 11.1.2. Legal persons

For tax purposes, a legal person is considered to be a resident of the Republic of Latvia if it has been established and registered or had it must be established and registered in the Republic of Latvia in accordance with the legislation of the Republic of Latvia. This applies to also to permanent establishments of foreign companies in the Republic of Latvia.

In accordance with the regulatory enactments (Corporate Income Tax Law) payments for Bonds in public circulation, received by legal persons that are residents of the Republic of Latvia are not subject to withholding tax. Corporate income tax shall be paid at the time of profit distribution. The corporate income tax rate applicable to gross distributable earnings is 20%.

Interest income on the Bonds, as well as gains from the sale of the Bonds of a permanent establishment of a legal person, is to be regarded as taxable income and is taxed at the time of the distribution of the profits.

In accordance with the regulatory enactments (Corporate Income Tax Law), interest income on the Bonds, as well as gains from the sale of the Bonds of legal persons that are not residents of the Republic of Latvia is not taxable in the Republic of Latvia unless the recipient is in a low tax or in a tax-free country or territory as from time to time determined by the Cabinet of the Ministers (at the time of the Base Prospectus – Regulations of the Cabinet of Ministers of 17 December 2020 No. 819 "Regulations on low-tax or tax-free countries and territories").

## **11.2. Republic of Lithuania**

This Sub-section is meant to give an overview of the tax regime applicable to the Bondholders in relation to the Republic of Lithuania. The Republic of Lithuania has concluded tax conventions on the avoidance of double taxation with many countries, under which more favourable tax treatment could be possible. Therefore, if the Republic of Lithuania has a valid tax convention with the country of the potential non-resident investor, it would be advisable to also read its provisions.

### **11.2.1. Natural persons**

For tax purposes, an individual shall be considered a resident of the Republic of Lithuania if it permanently resides in the Republic of Lithuania, or its personal, social or economic interests are located in the Republic of Lithuania, it stays in the Republic of Lithuania for more than 183 days within relevant tax period or at least 280 days in two consecutive tax periods and at least 90 days in one of these tax periods, who is a citizen of the Republic of Lithuania and who does not meet any of the aforesaid criteria but for whom remuneration for the work carried out abroad is paid or costs of living abroad are covered by the Republic of Lithuania or any of the municipalities thereof.

In a case, if an individual has close personal and economical relationships also with other countries, a tax treaty concluded between the Republic of Lithuania and this country has to be taken into consideration as the relevant tax treaty might hold specific provisions to determine a country of tax residence for the individual.

Interest from the Bonds and capital gain from the disposal of the Bonds earned by an individual that is resident of the Republic of Lithuania is subject to personal income tax at progressive tax rates of 15%, which applies on income not exceeding the established threshold, and 20%, which applies on income exceeding the threshold.

The threshold is equal to 120 state average monthly salaries (as established by the Parliament of the Republic of Lithuania on a yearly basis). This threshold applies to the total annual worldwide income of an individual other than employment and employment related income, dividends, management board and supervisory board member's remuneration, income from individual entrepreneurship, income received under copyright contracts from a person related to the individual through employment or similar relations, income received under civil service agreements by directors of small partnerships who are not the members thereof.

### **11.2.2. Legal persons**

For tax purposes, a legal person is considered to be a resident of the Republic of Lithuania if it has been established and registered in the Republic of Lithuania in accordance with the legislation of the Republic of Lithuania.

Interest income on the Bonds, as well as gains from the sale of the Bonds of a permanent establishment of a legal person that is not resident of the Republic of Lithuania, is to be regarded as a taxable income and is taxed the same as for the legal person that is a resident of the Republic of Lithuania.

Interest from the Bonds and gains from the sale of the Bonds earned by legal persons that is resident of the Republic of Lithuania is to be included in the taxable income of an entity and profit of such entity is to be taxed by corporate income tax at the rate of 15% (unless a reduced 0% or 5% corporate income tax applies to a small enterprise under the regulatory enactments (Law on Corporate Income Tax of the Republic of Lithuania)) under the general taxation rules applicable.

### **11.3. Republic of Estonia**

This Sub-section is meant to give an overview of the tax regime applicable to the Bondholders in relation to the Republic of Estonia. The Republic of Estonia has concluded tax conventions on the avoidance of double taxation with many countries, under which more favourable tax treatment could be possible. Therefore, if the Republic of Estonia has a valid tax convention with the country of the potential non-resident investor, it would be advisable to also read its provisions.

#### **11.3.1. Natural persons**

For tax purposes, an individual shall be considered a resident of the Republic of Estonia if it permanently resides in the Republic of Estonia, or it stays in the Republic of Estonia for at least 183 days within any 12-month period.

In a case, if an individual has close personal and economical relationships also with other countries, a tax treaty concluded between the Republic of Estonia and this country has to be taken into consideration as the relevant tax treaty might hold specific provisions to determine a country of tax residence for the individual.

Interest from the Bonds and capital gain from the disposal of the Bonds earned by an individual that is a resident of the Republic of Estonia is subject to personal income tax at a flat tax rate of 20%, including a tax on interests and capital gains.

#### **11.3.2. Legal persons**

For tax purposes, legal persons that are residents of the Republic of Estonia and permanent establishments of legal persons that are not residents of the Republic of Estonia are subject to corporate income tax upon distributing of profits meaning that the legal person that is resident of the Republic of Estonia and the legal person that is not resident of the Republic of Estonia acting through its permanent establishment registered in Estonia carrying out profit distribution has to pay income tax of the amounts distributed.

The corporate income tax rate applicable to gross distributable earnings is 20%.

Interest income on the Bonds, as well as gains from the sale of the Bonds of a permanent establishment of a legal person, is to be regarded as a taxable income and is taxed at the time of the distribution of the profits.

## 12. GLOSSARY

In this Base Prospectus, the definitions will have the meaning indicated below, unless the context of the Base Prospectus requires otherwise. Definitions are listed in alphabetical order and the list is limited to the definitions which are considered to be of most importance. Other definitions may be used elsewhere in the Base Prospectus.

Term	Definition
Admission	means the admission of the Bonds to trading on the Baltic Bond List of Nasdaq Riga
Agent	means BluOr Bank AS a joint stock company, incorporated in, and operating under the laws of the Republic of Latvia, and registered with the Commercial Register of Latvia under the registration number: 40003551060, legal address: Smilšu iela 6, Riga, LV-1050, Latvia
Allotment Date	means the date on which the Bonds of each separate Tranche will be allocated to the investors
Applicable Banking Regulations	means at any time the laws, regulations, delegated or implementing acts, regulatory or implementing technical standards, rules, requirements, guidelines and policies relating to capital adequacy and/or minimum requirement for own funds and eligible liabilities and/or loss absorbing capacity then in effect in Latvia including, without limitation to the generality of the foregoing, CRD, the SRM Regulation, BRRD, the Creditor Hierarchy Directive and those regulations, requirements, guidelines and policies relating to capital adequacy and/or minimum requirement for own funds and eligible liability and/or loss absorbing capacity and any other regulations, requirements, guidelines and policies relating to capital adequacy then in effect of the Competent Authority, the Resolution Authority or any other national or European Union authority from time to time, and then in effect (whether or not such requirements, guidelines or policies have the force of law and whether or not they are applied generally or specifically to the Issuer)
Articles of Association	means the Articles of Association of the Company effective as at the date of this Base Prospectus.
Audited Financial Statements	the Group's consolidated and Bank's separate financial statements for the year ended 31 December 2021 and for the year ended 31 December 2020
Bail-in and Loss Absorption Powers	means any loss absorption, write-down, conversion, transfer, modification, suspension or similar or related power existing from time to time under, and exercised in compliance with, the SRM Regulation, or any laws, regulations, rules or requirements in effect in the Republic of Latvia, relating to (i) the transposition of the BRRD and (ii) the instruments, rules and standards created thereunder, as applicable, pursuant to which any obligation of the Issuer (or any affiliate of the Issuer) can be reduced, cancelled, modified, or converted into shares, other securities or other obligations of the Issuer or any other person (or suspended for a temporary period).
Bail-in Powers	means any loss absorption, write-down, conversion, modification, suspension or similar or related power existing from time to time under, and exercised in compliance with, any laws, regulations, rules and requirements in effect in the Republic of Latvia, relating to the: (i) transposition of the BRRD (including but not limited to the Law on the Recovery and Resolution of the Credit Institutions and Investment Firms) as amended from time to time and (ii) regulations, rules and standards created thereunder, pursuant to which any obligation of the Company can be reduced, cancelled, modified, or converted into shares, other securities or other obligations of the Company or any other person

## Report of the Council and the Board

---

**AS BlueOrange Bank** (Bank) is a joint-stock company established on 22 June 2001 and entered into the Register of Enterprises of the Republic of Latvia under uniform registration No. 40003551060. The bank's address is Smilšu iela 6, Rīga, LV-1050, Republic of Latvia. On 8 June 2001, the Bank received a license for conducting the activities of a credit institution, which was re-registered on 28 June 2011 and on 14 September 2017 – license No. 06.01.05.002/483 at the license register of the FCMC. The Bank operates in accordance with the applicable legislation of the Republic of Latvia and the European Union.

The Group consists of the Bank, which is a Parent company of the Group and a number of subsidiaries. The business operations of the subsidiaries are not related to the functions of the Bank and they were set up to manage repossessed collaterals and real estate property.

The worldwide economic challenges due to the pandemic COVID-19 have led to adjustments in the business environment and have affected the development and growth of the economy of Latvia. However, despite the difficulties experienced in many sectors, the Bank was successful in continuing its activities in 2020 in line with its strategy and business priorities.

According to audited data, the year 2020 was closed with a profit of EUR 3.7 million, which meets the expected level. The Bank's gross income amounted to EUR 30 million during the reporting period, and net operating income amounted to EUR 20.2 million. The Bank's equity amounted to EUR 70 million. The Bank's total assets under management have increased by 34% up to EUR 726 million as at the end of 2020.

At the end of 2020 the Bank's liquidity reached 80%. Other key financial performance indicators of the Bank were successful as well — return on capital (ROE) 5.5% and return on assets (ROA) 0.6%.

In 2020, the Bank continued further development of its strategic priority business line — servicing and financing of businesses, which was also demonstrated by the increase in BlueOrange lending: at the end of the year, the total loan portfolio reached EUR 308 million (gross), which represents a 20% increase compared to the previous year. Out of that, new loans issued in 2020 amounted to EUR 117 million, that resulted in a 21% increase of lending income compared to the previous year. 92% of loans issued during the reporting period were granted to domestic companies, thus promoting both the development of individual sectors of economy and the acquisition of new export markets, as well as the use of new business opportunities during this difficult period for the economy of Latvia.

The role of small and medium-sized enterprises in the recovery and growth of the economy of Latvia will be particularly important in the wake of the crisis. The Bank has set up financing programme for the segment of small and medium-sized enterprises. SME lending accounted for nearly 90% of the Bank's total lending in 2020.

At the same time, during the last year the Bank focused on improving the financial services for legal entities, which resulted in an 18% increase of the number of domestic clients — legal entities. At the end of the reporting period, the share of clients based in Latvia, Baltic Countries and Europe in the total client portfolio accounted for 98%.

In order to make financial services more accessible and convenient, the Bank plans to introduce remote identification facilities for legal entities in 2021.

Last year, the Bank continued to cooperate with a number of European fintech companies, attracting deposits from countries such as Germany, Austria, the Netherlands, Spain, thereby providing additional funds for lending to local businesses. The Bank participated in the European Central Bank's TLTRO operations (Targeted longer-term refinancing operations) which allowed for the diversification of

## Report of the Council and the Board

funding sources and cheaper resources for lending to local businesses. In addition to raising funds, the Bank launched a new issue of uncollateralised subordinate bonds for EUR 10 million in 2020.

During the reporting period, the BlueOrange's API was upgraded to the NextGenPSD2 (Berlin Group) standard, which corresponds to the format established by the PSD2 Regulation, thus allowing the Bank's customers to unify their IT systems and reduce maintenance costs. The Bank also continued its technological development by automating its internal business processes and expanding the functionality of internet banking, with a view to ensuring an increasingly convenient access to banking products and services for clients in remote settings and ensuring the highest security of financial transactions in on-line environment.

In order to provide its clients with the latest payment and business opportunities, while continuing the development of digital services, BlueOrange joined Europe's instant payment system in the end of 2020. BlueOrange is the sixth bank in Latvia, which provides its clients with instant payments 24 hours a day, 7 days a week, 365 days a year, including holidays. To provide its customers with safe on-line purchasing environment meeting the standards of the European Union, the Bank has implemented all the required changes in addition to gradual implementation of safety regulations.

With a view to promoting business-to-business cooperation in order to overcome economic consequences and provide for new development opportunities, the Bank has engaged in active cooperation with representatives of several European trade organisations in Latvia.

In spring 2020, the BlueOrange Bank as a responsible financial institution joined the moratorium of Finance Latvia Association in supporting the Bank's clients in the circumstances of COVID-19. The Bank actively cooperated with various institutions in helping to select the best solutions on a national level for the support of both individuals and entrepreneurs.

In 2020, the Bank continued to prioritise the matters of risk management and operational compliance. The Bank continued improving its internal processes and information systems in the area of risk-management for the prevention of money laundering and terrorism financing and proliferation, meanwhile improving its client transaction monitoring and due diligence procedures.

In publishing the Annual Report, the Board of the Bank proposes to leave the profit for the last year in the amount of EUR 3.7 million undistributed for the strengthening of the Group's capital position.

Considering the fact that maintaining lending rates is an essential instrument for warming up the national economy, BlueOrange Bank, in line with its business strategy, will maintain funding of domestic businesses as a top priority also in 2021, with a particular focus on the sector of small and medium-sized enterprises.

On behalf of the Bank,

**Aleksandrs Peškova**  
*Chairman of the Council*

**Dmitrijs Latiševs**  
*Chairman of the Board*

## Statement of the Management's responsibility

---

The Management of AS BlueOrange Bank (hereinafter – the “Bank”) is responsible for the preparation of the consolidated financial statements of the Bank and its subsidiaries (hereinafter – the “Group”) as well as for the preparation of the financial statements of the Bank.

The Group's consolidated and the Bank's separate financial statements are prepared in accordance with International Financial Reporting Standards as adopted by the European Union on a going concern basis. Appropriate accounting policies have been applied on a consistent basis. Prudent and reasonable judgements and estimates have been made by the Management in the preparation of the Group's consolidated and the Bank's separate financial statements.

The Group's consolidated and the Bank's separate financial statements on pages 13 to 101 are prepared in accordance with the source documents and present fairly the financial position of the Group as at 31 December 2020 and the consolidated results of its operations and cash flows for the year then ended, as well as the financial position of the Bank as at 31 December 2020 and the results of its operations and cash flows for the year ended 31 December 2020.

The management of the Bank is responsible for the maintenance of a proper accounting system, safeguarding the Group's and the Bank's assets, and the detection and prevention of fraud and other irregularities in the Group and the Bank. Management is also responsible for operating the Group and the Bank in compliance with the Law on Credit Institutions, regulations of the Finance and Capital Market Commission and other legislation of the Republic of Latvia applicable to credit institutions.

On behalf of the Bank,

## Independent Auditor's Report

To the Shareholder of AS BlueOrange Bank

### Report on the audit of the separate and consolidated financial statements

---

#### Our opinion

In our opinion, the separate and consolidated financial statements set out on pages 13 to 101 of the annual report give a true and fair view of the separate and consolidated financial position of AS "BlueOrange Bank" (the "Bank") and its subsidiaries (together the "Group") as at 31 December 2020, and their separate and consolidated financial performance and their separate and consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards as adopted by the European Union.

Our opinion is consistent with our additional report to the Audit Committee dated 4 March 2021.

#### What we have audited

The financial statements, which consist of the separate financial statements of the Bank and the consolidated financial statements of the Group (together "the financial statements") comprise:

- the Group's Consolidated and the Bank's Separate Income Statements for the year ended 31 December 2020;
- the Group's Consolidated and the Bank's Separate Statements of Other Comprehensive Income for the year ended 31 December 2020;
- the Group's Consolidated and the Bank's Separate Statements of Financial Position as at 31 December 2020;
- the Group's Consolidated Statement of Changes in Shareholders' Equity for the year then ended;
- the Bank's Separate Statement of Changes in Shareholders' Equity for the year then ended;
- the Group's Consolidated and the Bank's Separate Statements of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

---

#### Basis for opinion

We conducted our audit in accordance with International Standards on Auditing adopted in the Republic of Latvia (ISAs). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Independence

We are independent of the Bank and the Group in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (IESBA Code)] and the ethical requirements of the Law on

All possible care has been taken to ensure that the translation is an accurate representation of the original. However, in all matters of interpretation of information, views or opinions, the original language version of our report takes precedence over this translation.

Audit Services that are relevant to our audit of the financial statements in the Republic of Latvia. We have fulfilled our other ethical responsibilities in accordance with the IESBA Code and the ethical requirements of the Law on Audit Services.

To the best of our knowledge and belief, we declare that non-audit services that we have provided to the Bank and the Group are in accordance with the applicable law and regulations in Republic of Latvia and that we have not provided non-audit services that are prohibited under Article 37.6 of Law on Audit Services of the Republic of Latvia.

The non-audit services that we have provided to the Bank and the Group, in the period from 1 January 2020 to 31 December 2020, are disclosed in Note 11 to the financial statements.

## Our audit approach

### Overview

- Overall Bank and Group materiality: EUR 633 thousand, which represents 1% of net assets.
- We have audited the separate financial statements of the Bank.
- We have performed selected audit procedures over the significant balances and transactions of other subsidiaries.
- Our audit scope covered substantially all of the Group's revenue and substantially all of the Group's total assets.

Expected credit losses on loans (Group and Bank)

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we considered where management made subjective judgements; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters, consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

### Materiality

The scope of our audit was influenced by our application of materiality. An audit is designed to obtain reasonable assurance whether the financial statements are free from material misstatement. Misstatements may arise due to fraud or error. They are considered material if individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

Based on our professional judgement, we determined certain quantitative thresholds for materiality, including the overall Bank and Group materiality separately for the separate and consolidated financial statements as a whole as set out in the table below. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures and to evaluate the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Translation note: This version of our report is a translation from the original, which was prepared in Latvian. All possible care has been taken to ensure that the translation is an accurate representation of the original. However, in all matters of interpretation of information, views or opinions, the original language version of our report takes precedence over this translation.

---

<b>Overall materiality</b>	Overall materiality applied to the Bank and the Group was EUR 663 thousand.
----------------------------	---

---

<b>How we determined it</b>	1% of the Bank's and the Group's net assets at 31 December 2020.
-----------------------------	--

---

<b>Rationale for the materiality benchmark applied</b>	<p>We chose net assets as the benchmark because net assets, in our view, is the benchmark which is of primary focus by the users of the financial statements and forms the basis for capital adequacy for regulatory purposes.</p> <p>We chose the threshold of 1%, which is within the range of accepted quantitative materiality thresholds for this benchmark.</p>
--	---

---

We agreed with the Audit Committee that we would report to them misstatements identified during our audit above EUR 66.3 thousand, as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

---

#### **Key audit matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Translation note: This version of our report is a translation from the original, which was prepared in Latvian. All possible care has been taken to ensure that the translation is an accurate representation of the original. However, in all matters of interpretation of information, views or opinions, the original language version of our report takes precedence over this translation.

Key audit matter	How our audit addressed the key audit matter
<p><i>Expected credit losses on loans (Group and Bank)</i></p> <p>Refer to Note 19 “Loans and receivables” to the financial statements.</p> <p>We focused on this area because application of IFRS 9 “Financial instruments” expected credit loss (ECL) model for loans impairment losses requires complex and subjective judgements over the estimation of the ECL.</p> <p>The key features of the ECL model include classification of loans to 3 stages, assessment of credit risk parameters and application of forward-looking information. The amount of impairment provision for the Group’s and the Bank’s loans is based on the model calculations taking into consideration the exposure at default, probability of default, changes in customer credit rating, other known risk factors impacting stage of each exposure, and taking into account estimated future cash flows from the loan repayments or sale of collateral (loss given default), and ECL adjustments by expected impact of future macroeconomic scenarios.</p> <p>For all loans in Stage 1 and 2 and insignificant loans in Stage 3 the expected credit losses are calculated using the ECL model, while for significant exposures in Stage 3 an expert credit judgement is applied to determine if the ECL calculated in accordance with the model needs to be adjusted.</p> <p>As at 31 December 2020 expected credit losses amounted to EUR 5 179 thousand at the Group and the Bank (refer to Note 19).</p>	<p>We assessed whether the Group’s and the Bank’s accounting policies in relation to the ECL of loans to customers are in compliance with IFRS 9 by assessing each significant model component: exposure at default, probability of default and loss given default, definitions of default and significant increase in credit risk, use of macroeconomic scenarios.</p> <p>We assessed the design and operating effectiveness of the controls over relevant loan data and ECL calculations. These controls included controls over authorization for loan origination, recording of loans data in the system, the non-retail loans credit file periodic review and related credit rating assessment, a timely transfer into overdue accounts and correctness overdue days calculation, appropriate classification into individual or collective assessment, staging assessment. We determined that we could rely on these controls for the purpose of our audit. We also reconciled of the source data used in the calculation PD.</p> <p>Further, we performed detailed testing over reliability of loan data, including contract dates, interest rates, collateral values and types, performing/ non-performing status and other inputs used in ECL calculation. For a sample of loans we evaluated reasonableness of assumptions made by credit expert in scenarios for individually assessed loans to legal entities. We have verified the rationale of these adjustments and also verified the reasonableness of the values of collaterals used in the assessment of the adjustments. On a sample basis we tested the collectively assessed credit loss allowance for loans to customers. We analysed PD and LGD applied by the Group and the Bank. We recalculated the final credit loss allowance for loans and advances to legal entities assessed on collective basis.</p>

Translation note: This version of our report is a translation from the original, which was prepared in Latvian. All possible care has been taken to ensure that the translation is an accurate representation of the original. However, in all matters of interpretation of information, views or opinions, the original language version of our report takes precedence over this translation.

We reviewed a selection of loans from COVID-19 affected industries to evaluate reasonableness of staging as at 31 December 2020. We also reviewed and assessed the post-model expert credit adjustments applied as at 31 December 2020.

Finally, we have reviewed the credit risk disclosures.

---

### **How we tailored our Group audit scope**

We tailored the scope of our audit in order to perform sufficient work to enable us to provide an opinion on the consolidated financial statements as a whole, taking into account the structure of the Group, the accounting processes and controls and the industry in which the Group operates.

The Group engagement team carried out audit work on the Bank's financial statements and performed selected audit procedures over the significant balances and transactions of other subsidiaries. Our audit work addressed substantially all of the Group's revenues and the Group's total assets. Audit services for separate and consolidated financial statements was performed by Group's auditors, component auditors were not engaged.

---

### **Reporting on other information including the Report of the Council and the Board**

Management is responsible for the other information. The other information comprises:

- Report of the Council and the Board, as set out on pages 2 to 3 of the accompanying Annual Report;
- information on Council and Board of the Bank, as set out on page 4 of the accompanying Annual Report; and
- Statement of Management's Responsibility, as set out on page 5 of the accompanying Annual Report,

but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information identified above, including the Report of the Council and the Board, information on Council and Board and the Statement of Management's Responsibilities.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

With respect to the Report of the Council and the Board, we also performed the procedures required by Law on Audit Services. Those procedures include considering whether the Report of the Council and the Board is prepared in accordance with the requirements of the applicable legislation.

Based on the work undertaken in the course of our audit, in our opinion:

- the information given in the Report of the Council and the Board, information on Council and Board and the Statement of Management's Responsibilities for the financial year for which the financial statements are prepared is consistent with the financial statements;
- the Report of the Council and the Board has been prepared in accordance with the requirements of the Financial and Capital Market Commission Regulation No 113 "Regulation on preparation

Translation note: This version of our report is a translation from the original, which was prepared in Latvian. All possible care has been taken to ensure that the translation is an accurate representation of the original. However, in all matters of interpretation of information, views or opinions, the original language version of our report takes precedence over this translation.

of the annual report and consolidated annual report of credit institutions, investment brokerage companies and investment management companies”.

In addition, in light of the knowledge and understanding of the Bank and the Group and their environment obtained in the course of the audit, we are required to report if we have identified material misstatements in the Report of the Council and the Board or other information that we obtained prior to the date of this auditor’s report. We have nothing to report in this respect.

---

### Responsibilities of management and those charged with governance for the financial statements

Management is responsible for the preparation of the financial statements that give a true and fair view in accordance with International Financial Reporting Standards as adopted by the European Union and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Bank’s and the Group’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Bank’s and the Group’s financial reporting process.

---

### Auditor’s responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank’s and the Group’s internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management’s use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank’s and the Group’s ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor’s report to the related disclosures in the financial statements or, if such disclosures

Translation note: This version of our report is a translation from the original, which was prepared in Latvian. All possible care has been taken to ensure that the translation is an accurate representation of the original. However, in all matters of interpretation of information, views or opinions, the original language version of our report takes precedence over this translation.

are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank or the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

---

## Report on other legal and regulatory requirements

---

### Appointment

We were first appointed as auditors by the Bank shareholders' resolution on 28 November 2018. Our appointment has been renewed annually by shareholders' resolution representing a total period of uninterrupted engagement appointment of 3 years.

As BlueOrange Bank, as a parent company, is responsible for establishing the structure and corporate governance system of the Group with clearly defined duties and responsibilities and adequate supervision of subsidiaries. There is a Council (composed of two members of the Council) and a Board (composed of one member of the Board) established in AS Pils Pakalpojumi. The Boards of other subsidiaries of the Bank consist of one member of the Board or one elected director. No significant changes have occurred in the corporate governance structure and operations of the Group and its companies, compared to the previous reporting period.

**Notes to the Group's Consolidated and the Bank's Separate Annual Report****Investments in associated companies (the Group):**

Company	Country of incorporation, address	Line of business	Holding (%)	Holding (%)
			31.12.2020	31.12.2019
AS Termo biznesa Centrs	Kr. Valdemāra iela 149, Rīga, Latvia	Real estate development	26.15	26.15

**2. BASIS OF PREPARATION****(1) Statement of Compliance**

The financial statements of the Bank and the Group ("financial statements") have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union, and regulations of the Financial and Capital Market Commission of the Republic of Latvia ('FCMC') in force as at 31 December 2020.

The Group's consolidated and the Bank's separate financial statements were authorized for issue by the Board on 4 March 2021. Shareholders have the power to reject the financial statements prepared and issued by the management and the right to request that new financial statements are issued.

**(2) Functional and presentation currency**

These consolidated and separate financial statements are presented in thousands of euros ('000 EUR), unless stated otherwise. Subsidiaries of the Group and the Bank operate in the functional currency of euro and bulgarian lev.

**(3) Basis of measurement**

The Group's consolidated financial statements and the Bank's separate financial statements are prepared on the historical cost basis except for the following:

- financial instruments at fair value through profit or loss are stated at fair value;
- derivative financial instruments are stated at fair value;
- financial instruments at FVOCI are valued at fair value;
- repossessed collaterals are recognised at lower of its carrying amount and fair value less cost to sell.

**3. SIGNIFICANT ACCOUNTING POLICIES**

The following significant accounting policies have been applied in the preparation of these Group's Consolidated and the Bank's Separate Financial Statements. The accounting principles have been consistently applied, except for the changes in accounting policies.

**(1) Basis for consolidation****(i) Subsidiaries**

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

Investments in subsidiaries are carried in the Bank's separate financial statements at cost less impairment, if any.

**(ii) Loss of control**

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured by the Group at fair value when control is lost.

**(iii) Interest in equity-accounted investees**

The Group's interests in equity accounted investees comprise interests in associates.

Associates are those entities in which the Group has significant influence, but not control or joint control, over the financial and operating policies.

**Notes to the Group's Consolidated and the Bank's Separate Annual Report**

Investments in associates are accounted for in the Group's consolidated financial statements using the equity method. The Bank ensures the appropriate adjustments are made in the associate's financial information to align the accounting policies with those used by the Group before equity method of accounting is applied. They are initially recognised at cost, including transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of the profit or loss and OCI in equity-accounted investees, until the date on which significant influence or joint control ceases.

Investments in associates are carried in the Bank's separate financial statements at cost less impairment, if any.

**(iv) Transactions eliminated on consolidation**

Intra-group balances and transactions, and any unrealised gains arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Unrealised gains arising from transactions with equity-accounted investees are eliminated to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

**(v) Group's unified accounting policy**

In the preparation of the consolidated financial statements, the financial statements of those Group entities that use different accounting policies are adjusted to conform with the Group's accounting policy.

**(2) Foreign currency**

Transactions in foreign currencies are translated into the respective functional currencies of the Group companies at the exchange rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated into the functional currency at the spot exchange rate at that date. The foreign currency gain or loss on monetary items is the difference between amortized cost in the functional currency at the beginning of the period, adjusted for effective interest and payments during the period, and the amortized cost in foreign currency translated at the exchange rate at the end of the period.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated into the functional currency at the spot exchange rate at the date that the fair value was determined. Foreign currency differences arising on retranslation are recognized in the income statement.

The exchange rates for the most significant currencies as set by the European Central Bank at reporting date are as follows:

	<b>31 December 2020</b>	<b>31 December 2019</b>
USD	1.2271	1.1234

**Foreign operations**

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated into EUR at exchange rates set by the European Central Bank at the reporting date. The income and expenses of foreign operations are translated into the functional currency at the exchange rates of transaction dates.

Foreign currency differences are recognized in other comprehensive income and accumulated in the translation reserve, except to the extent that the translation difference is allocated to non-controlling interest.

Foreign exchange gains or losses arising from a monetary item receivable from or payable to a foreign operation, the settlement of which is neither planned nor likely to occur in the foreseeable future and which in substance is considered to form part of the net investment in the foreign operation, are recognized in other comprehensive income and accumulated in the translation reserve.

**(3) Financial instruments****a) Classification**

**Financial instruments are classified into the following categories:**

**A financial asset is measured at amortized cost** if it meets both of the following conditions and is not designated as at FVTPL:

— It is held within a business model whose objective is to hold assets to collect contractual cash flows, and

## Notes to the Group's Consolidated and the Bank's Separate Annual Report

— Its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

**A financial asset is measured at FVOCI** only if it meets both of the following conditions and is not designated as at FVTPL:

— It is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets, and

— Its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All financial assets not classified as measured at amortized cost or FVOCI as described above are measured at **FVTPL**. IFRS 9 also allows entities to irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or FVOCI as FVTPL, if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

On initial recognition, an equity instrument other than held for trading, may be irrevocably designated as FVOCI, with no subsequent reclassification of profit or losses to the income statement.

**Financial liabilities carried at amortised cost** represent financial liabilities of the Group and the Bank other than financial instruments designated at fair value through profit or loss. This category includes due to credit institutions on term, customer deposits, issued bonds and other financial liabilities.

Financial liabilities carried at amortized cost are initially measured at fair value less directly attributable transaction costs and are subsequently remeasured to amortized cost using the effective interest rate.

### *Due from other credit institutions*

Demand deposits with central banks, and placements with credit institutions are classified as financial assets measured at amortised cost, provided that the following criteria are met:

- they are held within the business model, which aim is achieved by collecting contractual cash flows ("Held to collect" business model);
- their contractual cash flows represent solely payments of principal and interest on outstanding principal
- the Group does not designate them on initial recognition to fair value through profit or loss measurement option

## Business model assessment

The Bank and the Group made an assessment of the objective of the business model in which a financial asset is held at portfolio level because this best reflects the way the business is managed and information is provided to management. The information that is considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice, including whether management's strategy focuses on earning contractual interest revenue, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of the liabilities that are funding those assets or realising cash flows through the sale of assets;

- how the performance of the portfolio is evaluated and reported to the Bank's and the Group's management;

- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;

- the frequency, volume and timing of sales in prior periods, the reasons for such sales and expectations about future sales activity. However, information about sales activity is not considered in isolation, but as part of an overall assessment of how the Bank's and the Group's stated objective for managing the financial assets is achieved and how cash flows are realised.

Financial assets that are held for trading and those that are managed and whose performance is evaluated on a fair value basis are measured at FVTPL because they are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

During the reporting year, the Bank changed its business model in respect of the management of the Bank's securities portfolios, and starting from 01.03.2020 certain securities from Trading portfolio were reclassified to Investment portfolio, incl. the investment in the fund "iShares J.P. Morgan USD EM Bonds" was reclassified to the category "Financial assets at fair value through other comprehensive

## Notes to the Group's Consolidated and the Bank's Separate Annual Report

income (FVOCI)", and investments in debt securities were reclassified to the category "Financial assets at amortised cost".

The reclassification of securities in the Bank's trading portfolio (change of the business model) complies with the Bank's development strategy. The Bank's strategy aims at developing long-term investments with a view to generating interest income, mainly by investing resources in the credit portfolio. Large share of the Bank's bonds in the trading portfolio after the reclassification, in terms of parameters, corresponds to the target parameters of the credit portfolio — yield based on credit risk exceeding 3% a year and maturity up to 10 years. Holding of securities until maturity will be considered as an alternative to increasing the interest-bearing assets.

### SPPI assessment

Classification for debt instruments is driven by the group business model for managing the financial assets and whether the contractual cash flows represent solely payments of principal and interest (SPPI). If a debt instrument is held to collect, it may be carried at amortised cost if it also meets the SPPI requirement. Debt instruments that meet the SPPI requirement that are held in a portfolio where an entity both holds to collect cash flows and sells assets it may be classified as FVOCI.

Making SPPI assessment, the Group and the Bank considers whether the contractual cash flows are consistent with a basic lending arrangement i.e. interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at fair value through profit or loss.

#### b) Recognition

The Group and the Bank initially recognize loans and advances, deposits, debt securities issued and subordinated liabilities on the date at which they are originated. Regular way purchases and sales of financial assets are recognized on the settlement date at which the Group and the Bank commits to purchase or sell the asset. All other financial assets and liabilities (including assets and liabilities designated at fair value through profit or loss) are initially recognized on the trade date at which the Group and the Bank becomes a party to the contractual provisions of the instrument.

#### c) Measurement

A financial asset or financial liability is initially measured at fair value plus transaction costs that are directly attributable to acquisition of the financial asset or liability, in the case of a financial asset or liability other than measured at fair value through profit or loss.

Subsequent to initial recognition, all financial assets and liabilities measured at fair value through profit or loss and all financial assets measured at FVOCI are measured at fair value.

All financial liabilities other than those measured at fair value through profit or loss and financial assets other than those measured at FVTPL or FVOCI are measured at amortized cost using the effective interest rate method.

A gain or loss arising from a change in the fair value of a financial asset or liability is recognised as follows:

- a gain or loss on a financial asset classified as at fair value through profit or loss is recognised in profit or loss;
- a gain or loss on debt securities classified as at fair value through other comprehensive income is recognised in fair value reserve through other comprehensive income (except for impairment losses and foreign exchange gains or losses on monetary assets) until the asset is derecognised, at which time the cumulative gain or loss previously recognised in equity is recognised in profit or loss. Interest in relation to debt securities classified as at fair value through other comprehensive income is recognised as earned in profit or loss (net interest income) calculated using the effective interest method.
- equity investments classified at fair value through other comprehensive income are subsequently measured at fair value. Dividends are recognised as income in profit or loss. Other net gains and losses are recognised in other comprehensive income and are never reclassified to profit or loss.

For financial assets and liabilities carried at amortised cost, a gain or loss is recognised in profit or loss when the financial asset or liability is derecognised including the instances where the terms change substantially or impaired.

**Notes to the Group's Consolidated and the Bank's Separate Annual Report****d) Amortized cost measurement**

The amortized cost of a financial asset or liability is the amount at which the financial asset or liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortization using the effective interest method, minus any reduction for impairment.

The effective interest rate is a method of calculating the amortized cost of a financial asset or liability, which is based on the recognition of interest income and expenses over a specific period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability. When calculating the effective interest rate, the management estimates cash flows considering all contractual terms of the financial instrument but does not consider future losses. The calculation includes all fees paid or received between parties to the contract that are an integral part of the effective interest rate, transaction costs, and all other premiums or discounts.

**e) Derecognition**

**A financial asset** (or, where applicable a part of a financial asset or a part of a group of similar financial assets) **is derecognised** when:

- the rights to receive cash flows from the asset have expired; or
- the Group and the Bank have transferred the rights to receive cash flows from the asset, or retained the right to receive cash flows from the asset, but have assumed an obligation to pay them in full without material delay to a third party under a 'pass-through' arrangement; and
- the Group and the Bank either (a) have transferred substantially all the risks and rewards of the asset, or (b) have neither transferred nor retained substantially all the risks and rewards of the asset, but have transferred control of the asset.

When the Group and the Bank has transferred the rights to receive cash flows from an asset or has entered into a pass-through arrangement and have neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognised to the extent of the Group's and the Bank's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group and the Bank could be required to repay.

Where continuing involvement takes the form of a written and/or purchased option (including a cash-settled option or similar provision) on the transferred asset, the extent of the Group's and the Bank's continuing involvement is the amount of the transferred asset that the Group and the Bank may repurchase, except that in the case of a written put option (including a cash-settled option or similar provision) on an asset measured at fair value, the extent of the Group's and the Bank's continuing involvement is limited to the lower of the fair value of the transferred asset and the option exercise price.

**Financial assets – write-off.** Financial assets are written-off, in whole or in part, when the Group exhausted all practical recovery efforts and has concluded that there is no reasonable expectation of recovery. The write-off represents a derecognition event. The Group may write-off financial assets that are still subject to enforcement activity when the Group seeks to recover amounts that are contractually due, however, there is no reasonable expectation of recovery.

**Financial assets – modification.** The Group sometimes renegotiates or otherwise modifies the contractual terms of the financial assets. The Group assesses whether the modification of contractual cash flows is substantial considering, among other, the following factors: any new contractual terms that substantially (if cash flows differs more than 10%) affect the risk profile of the asset (e.g. profit share or equity-based return), significant change in interest rate, change in the currency denomination, new collateral or credit enhancement that significantly affects the credit risk associated with the asset or a significant extension of a loan when the borrower is not in financial difficulties.

If the modified terms are substantially different, the rights to cash flows from the original asset expire and the Group derecognises the original financial asset and recognises a new asset at its fair value. The date of renegotiation is considered to be the date of initial recognition for subsequent impairment calculation purposes, including determining whether a SICR has occurred. The Group also assesses whether the new loan or debt instrument meets the SPPI criterion. Any difference between the carrying amount of the original asset derecognised and fair value of the new substantially modified asset is

**Notes to the Group's Consolidated and the Bank's Separate Annual Report**

recognised in profit or loss, unless the substance of the difference is attributed to a capital transaction with owners.

In a situation where the renegotiation was driven by financial difficulties of the counterparty and inability to make the originally agreed payments, the Group compares the original and revised expected cash flows to assets whether the risks and rewards of the asset are substantially different as a result of the contractual modification. If the risks and rewards do not change, the modified asset is not substantially different from the original asset and the modification does not result in derecognition. The Group recalculates the gross carrying amount by discounting the modified contractual cash flows by the original effective interest rate (or credit-adjusted effective interest rate for POCI financial assets), and recognises a modification gain or loss in profit or loss.

**A financial liability** is derecognised when the obligation under the liability is discharged or cancelled or expires.

When the contractual cash flows of a financial assets are substantially modified, such a modification is treated as a derecognition of the original assets and the recognition of a new financial asset, and the difference in respective carrying amounts is recognised in the income statement. In the case of financial asset modification, which does not lead to derecognition, the Group and the Bank recalculates the gross carrying amount of the financial asset and recognises a modification gain or loss.

Where an existing financial liability is replaced by another from the same lender on substantially different terms, or when the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in the income statement.

**f) Offsetting**

Financial assets and liabilities are set off and the net amount presented in the statement of financial position when, and only when, the Group and the Bank have a legal right to set off the amounts and intend either to settle on a net basis or to realize the asset and settle the liability simultaneously.

Income and expenses are presented on a net basis only when permitted by the accounting standards, or for gains and losses arising from a group of similar transactions such as in the trading activity.

**(4) Identification and measurement of impairment of financial assets****Identification and measurement of impairment:**

The Group and the Bank recognize an allowance for expected losses for all loans and other debt financial assets not held at FVPL, together with loan commitments and financial guarantee contracts.

IFRS 9 requires a loss allowance to be recognized at an amount equal to either 12-month ECLs or lifetime ECLs. Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument, whereas 12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date.

The Bank and the Group recognize loss allowances at an amount equal to lifetime ECLs (Stage 2 and Stage 3 instruments), except financial instruments for which credit risk has not increased significantly since initial recognition, for which the amount recognized will be the 12-month ECLs (Stage 1 instruments).

Accordingly, the Bank and the Group have established a policy to perform an assessment at the end of each reporting period as to whether a given asset's credit risk has increased significantly since initial recognition. When determining whether the credit risk on a financial instrument has increased significantly since initial recognition, the Bank and the Group consider reasonable and supportable information that is relevant and available without undue cost or effort, including both quantitative and qualitative information and analysis based on the Bank's and the Group's historical experience and forward-looking information. The Bank and the Group primarily identify whether a significant increase in credit risk has occurred for an exposure by comparing the remaining lifetime probability of default (PD) as at the reporting date, with the remaining lifetime PD for this point in time that was estimated on initial recognition of the exposure.

Significant assets are tested for impairment on an individual basis, while for insignificant assets a collective assessment is performed. The collective assessment is based on probabilities of default (PD) obtained from the statistical data for the different type of loans and borrowers, adjusted by several macro factors in order to include forward-looking information. For the individual assessment the Bank

## Notes to the Group's Consolidated and the Bank's Separate Annual Report

and the Group estimate ECLs based on a probability-weighted estimate of the present value of all cash shortfalls over the remaining expected life of the financial asset, i.e. the difference between: the contractual cash flows that are due to the Bank and the Group under the contract, and the cash flows that they expect to receive, discounted at the effective interest rate of the loan.

The Bank and the Group have grouped their loans into Stage 1, Stage 2 and Stage 3, based on the applied impairment methodology, as described below:

— Stage 1 – Performing loans: when loans are first recognized, the Bank and the Group recognize an allowance based on twelve months expected credit losses.

— Stage 2 – Loans with a significant increase in credit risk: when a loan shows a significant increase in credit risk since initial recognition, the Bank and the Group recognize an allowance for the lifetime expected credit loss.

In addition, a significant increase in credit risk is assumed to have taken place, if an alarm signal is reported concerning the loan that indicates a significant increase in credit risk, the Bank and the Group expect to grant the borrower forbearance or when forbearance measures have already taken place, or the facility is included in watch list, and if the borrower falls more than 30 days past due in making its contractual payments. The Bank has joined the moratorium announced by the Finance Latvia Association on deferring principal loan payments for both legal and natural persons. The granting of relief under the conditions of the moratorium was not considered as a significant indication of an increased credit risk, unless other indications were identified.

— Stage 3 – Impaired loans: Financial assets are recognized in Stage 3 when there is objective evidence that the loan is impaired. This category includes non-performing loans (also defaulted) and loans in the process of recovery. A loan is considered as defaulted, if it is clear that borrower will not be able to fulfil his obligations to the Bank without any additional measures like realisation of collateral, or if the borrower falls more than 90 days past due in making its contractual payments. The lifetime expected credit losses are recognized for these loans and in addition, the Bank and the Group accrue interest income on the amortised cost of the loan net of allowances.

The Bank and the Group recognize impairment for FVOCI debt securities as applicable, depending on whether they are classified as Stage 1, 2 or 3, as explained above. However, the expected credit losses will not reduce the carrying amount of these financial assets in the statements of financial position, which shall remain to be stated at fair value. Instead, an amount equal to the allowance that would arise if the assets were measured at amortised cost will be recognized in OCI as an accumulated impairment amount, with a corresponding charge to profit or loss.

For financial guarantee contracts, the Bank and the Group estimate their lifetime ECLs based on the present value of the expected payments to reimburse the holder for a credit loss that is incurred less any amounts that the guarantor expect to recover from the holder, the debtor or any other party. For other off-balance sheet loan commitments (credit lines, overdrafts) ECL is estimated similarly to on-balance sheet instruments, applying the certain conversion factor, which is calculated based on historical data of usage of such facilities.

### *Limitation of estimation techniques*

The models applied by the Bank and the Group may not always capture all characteristics of the market at a point in time as they cannot be recalibrated at the same pace as changes in market conditions. Interim adjustments are expected to be needed until the base models are updated. Although the Bank and the Group use data that are as current as possible, models used to calculate ECLs are based on data that are one year in arrears and adjustments will be made for significant events occurring prior to the reporting date. The Bank's management has developed an off-model estimate, taking into account the changes in the GDP during the first nine months of the year 2020, which increased the PD, respectively.

**Notes to the Group's Consolidated and the Bank's Separate Annual Report****(5) Fair value measurement**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal, or in its absence, the most advantageous market to which the Group and the Bank has access at that date. The fair value of a liability reflects its non-performance risk.

The methods described below have been used for the determination of fair values.

The best evidence of the fair value of a financial instrument at initial recognition is the transaction price, i.e., the fair value of the consideration given or received, unless the fair value of that instrument is evidenced by comparison with other observable current market transactions with the same instrument or based on a valuation technique whose variables include only data from observable markets. When transaction price provides the best evidence of fair value at initial recognition, the financial instrument is initially measured at the transaction price and any difference between this price and the value initially obtained from a valuation model is subsequently recognized in the profit and loss statement depending on the individual facts and circumstances of the transaction but not later than when the valuation is supported wholly by observable market data or the transaction is closed out.

When available, the Group and Bank measure the fair value of an instrument using quoted prices in an active market for that instrument. A market is regarded as 'active' if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

If a market for a financial instrument is not active, the Group and the Bank determine fair value using a valuation technique. Valuation techniques include recent arm's length transactions between knowledgeable, willing parties (if available), reference to the current fair value of other instruments that are substantially the same, discounted cash flow analyses and option pricing models. The chosen valuation technique makes maximum use of market inputs, relies as little as possible on estimates specific to the Group and the Bank, incorporates all factors that market participants would consider in setting a price, and is consistent with accepted economic methodologies for pricing financial instruments.

Where third-party information, such as broker quotes or pricing services, are used to measure fair value, the Group and the Bank assesses and documents the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of IFRS. This includes:

- Verifying that equity broker or pricing service is approved by the Group and Bank for use in pricing the relevant type of financial instrument;
- Understanding how the fair value has been arrived at and the extent to which it represents actual market transactions;
- When prices for similar instruments are used to measure fair value, how these prices have been adjusted to reflect the characteristics of the instrument subject to measurement;

Fair value is classified into different levels of the fair value hierarchy based on the inputs used in the measurement techniques:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability might be categorized in different levels of the fair value hierarchy, the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group and the Bank recognize transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. The Group and the Bank recognizes transfers between levels of the fair value hierarchy as of the end of the reporting period during which the change has occurred. For further analysis of the basis for fair value refer to Note 45.

Assets and long positions are measured at a bid price; liabilities and short positions are measured at an asking price. Where the Group and the Bank has positions with offsetting risks, mid-market prices are used to measure the offsetting risk positions and a quoted bid or asking price adjustment is applied only to the net open position as appropriate. Fair values reflect the credit risk of the instrument and include adjustments to take account of the provisions of the instrument. Fair value estimates obtained from models are adjusted for any other factors, such as liquidity risk or model uncertainties, to the extent

## Notes to the Group's Consolidated and the Bank's Separate Annual Report

that the Group and the Bank believes a third-party market participant would take them into account in pricing a transaction.

### *Loans*

The estimated fair value of loans represents the discounted amount of estimated future cash flows expected to be received. The interest rate used to discount estimated cash flows are based on the prevailing money-market interest rates curve plus an adequate credit spread.

### *Shares and other non-fixed income securities*

The fair value of shares and other non-fixed income securities is determined by reference to their quoted bid price at the reporting date, if available. For a number of non-listed shares where disposal was limited, it was assumed that it was not possible to make a reliable estimate of fair value.

The fair value of S.W.I.F.T shares was determined based on the "transfer amount", approved for the respective year by the shareholders' meeting, representing the price for new share allocation and the participants' quit price.

### *Derivatives*

The fair value of currency swaps is estimated by discounting the contractual cash flows to be received and to be paid in appropriate foreign currencies for the residual maturity, and translating the difference of the discounted cash flows into euro, applying the exchange rate published by the European Central Bank. EURIBOR and LIBOR interest rates are used for discounting purposes.

### *Liabilities to other credit institutions and customers*

The estimated fair value of deposits with no stated maturity, which includes non-interest-bearing deposits, is the amount repayable on demand, as they are largely due on demand. The estimated fair value of overnight deposits is their carrying amount. The estimated fair value of fixed interest-bearing deposits not quoted in an active market is based on discounted cash flows using interest rates for new deposits with similar remaining maturities.

## **(6) Derivatives**

Derivatives include foreign currency swaps and forwards. As at 31 December 2020 and 2019 all derivatives of the Group and the Bank were classified as financial instruments held for trading.

Derivatives are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. All derivatives are carried as assets when their fair value is positive and as liabilities when their fair value is negative.

Changes in the fair value of derivatives are recognised immediately in the income statement.

Although the Group and the Bank trades in derivative instruments for risk hedging purposes, the Group and the Bank does not apply hedge accounting.

## **(7) Repo transactions**

Repo transactions are recognized as financing transactions. When the Bank or the Group is the seller of securities, securities continue to be recognized on the statement of financial position. Proceeds from the sale are recognized as a liability to the purchaser of the securities. When the Bank or the Group is the purchaser of securities, the purchased securities are not recognized in the statement of financial position. The amount paid for securities is recognized as a loan provided to the seller. The Group is involved in two types of such transactions – classic *repo* and *buy/sellback* transactions. The result of *repo* and *buy/sellback* transactions is recognized in the income statement on an accrual basis as interest income or expense.

Securities purchased under agreements to resell ("reverse repo") are recorded as amounts receivable under reverse repo transactions. The differences between the purchase and resale prices are treated as interest income and accrued over the term of the reverse repo agreement using the effective interest method.

## Notes to the Group's Consolidated and the Bank's Separate Annual Report

### (8) Investment property

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes.

If the use of the property has been changed, investment properties are reclassified to property and equipment.

Investment property is initially measured at cost. Subsequently investment property is carried at its cost less any accumulated depreciation and any accumulated impairment losses.

### (9) Repossessed assets

In the normal course of business the Group and the Bank occasionally take title to property and other assets that originally were pledged as security for a loan. When the Group and the Bank acquires (i.e. gains a full title to) an asset in this way, the asset's classification follows the nature of its intended use by the Group and the Bank. When the Group or the Bank is uncertain of its intentions with respect to land and buildings that it has repossessed, those properties are classified as assets classified as held for sale.

### (10) Property and equipment

Items of property and equipment are stated at cost less accumulated depreciation and impairment losses.

Current repair and maintenance costs are charged to the income statement as incurred. Capital repairs of property and equipment are added to property and equipment at cost, and its useful life is extended. Upon increasing the carrying amount of an item of property and equipment by expenses incurred to replace a material component, the replaced component is derecognised according to the derecognition requirements.

Items of property and equipment are derecognised when disposed or when no economic benefits are expected from the use or disposal of these items in the future. Gains or losses from derecognition of items of property and equipment are determined as the difference between the proceeds from disposal and the net carrying amount of the asset at the date of disposal, and are recognised in the income statement.

Depreciation is charged to the income statement on a straight-line basis over the estimated useful lives of the individual assets. Depreciation is calculated from the date of acquisition or, in respect of internally constructed assets, from the time an asset is completed and ready for use. Where an item of property and equipment comprises major components having different useful lives, they are accounted for as separate items of property and equipment.

Depreciation methods, useful lives and residual amounts are reviewed at each reporting date.

#### *Land and buildings*

The cost of land and buildings disclosed in the financial statements is their assumed fair value measured at the date of acquisition. Subsequent measurement is carried out on a cost basis similar to other items of property and equipment. Land is not depreciated.

Construction in progress and capital repairs of real estate properties include costs directly attributable to construction in progress, including a corresponding proportion of direct overheads incurred during the establishment of the item of property and equipment. Depreciation of such assets is calculated from the date when the assets are put into operation.

Real estate properties are depreciated over the useful life which is determined to be 20 years.

#### *Leasehold improvements*

Depreciation of leasehold improvements is calculated over the remaining period of lease. Depreciation is calculated from the date when leasehold improvements are completed and ready for use.

**Notes to the Group's Consolidated and the Bank's Separate Annual Report***Useful lives of vehicle and other property and equipment*

The annual depreciation percentages are as follows:

Furniture and equipment	20%
Computers	25%
Mobile phones	50%
Others	20%
Vehicle (yaht)	10%

**(11) Intangible assets**

Intangible assets, except goodwill, are identifiable non-monetary assets without physical substance (licenses, software that is separately identifiable from electronic devices and others) held for rendering of services or other purposes if it is expected that an economic benefit attributable to these assets will flow to the Group and the Bank.

Intangible assets are recorded at cost less accumulated amortization and amortized to the profit or loss in equal amounts over the useful life of the intangible asset. The annual amortization rate for software is 20%.

**(12) Recognition of income and expenses**

All significant categories of income and expenses, including interest income and expenses, are recognized on an accrual basis.

Interest income and expenses are recognized in the income statement based on the effective interest rate of the asset/liability. The effective interest rate is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial asset or liability (or, where appropriate, a shorter period) to the carrying amount of the financial asset or liability. When calculating the effective interest rate, the Group and Bank estimate future cash flows considering all contractual terms of the financial instruments, but not future credit losses.

Interest income and expenses include discount or premium amortization or other difference between the carrying amount of an interest bearing instrument and its value on the maturity date calculated based on the effective interest rate method.

Fee and commission income and expense are recognised on an accrual basis. Fees earned from the provision of services over a period of time are recognised over that service period. Loan origination fees together with the related direct costs, are deferred and amortised to interest income over the estimated life of the financial instrument using the effective interest rate method. Fee and commission income is recognised over time on a straight line basis as the services are rendered, when the customer simultaneously receives and consumes the benefits provided by the Group's and the Bank's performance. Such income includes fees for loan, lease or other credit enhancement contracts administration.

Net trading income comprises gains less losses related to trading assets and liabilities, and includes all realized and unrealized fair value changes, interest, dividends and foreign exchange differences.

## Notes to the Group's Consolidated and the Bank's Separate Annual Report

### (13) Off-balance sheet items

In the ordinary course of business, the Group and the Bank has been involved with off-balance sheet financial instruments consisting of commitments to extend loans and advances, financial guarantees and commercial letters of credit. Such financial instruments are recorded in the balance sheet when they are funded or related fees are incurred or received.

The Group and the Bank measures issued financial guarantees initially at their fair value, which is normally evidenced by the amount of fees received. This fee amount is then amortised on a straight-line basis over the life of the guarantee. At each balance sheet date, the guarantees are measured at the higher of (i) the unamortized balance of the amount at initial recognition and (ii) Expected credit loss.

Documentary and commercial letters of credit represent written undertakings by the Bank and the Group on behalf of a customer authorising a third party to draw drafts on the Bank and the Group up to a stipulated amount under specific terms and conditions.

### (14) Taxes

Corporate income tax is calculated on the basis of distributed profit (20/80 of the net amount payable to shareholders). Corporate tax on distributed profit will be recognized when the shareholders of the Company make a decision about profit distribution.

The Bank calculates and pays corporate income tax also for the conditionally distributed profit (20/80 of calculated taxable base), which includes taxable objects in accordance with the Corporate Income Tax law, such as the expenditure not related to economic activity, the doubtful debts of debtors and the loans to the related parties, if they meet criteria provided in the Corporate Income Tax law, as well other expenses exceeding statutory limits for deduction. Corporate income tax for the conditionally distributed profit is recognized in the profit or loss statement in the year for which it is assessed. Corporate income tax for the distributed profit and corporate income tax for the conditionally distributed profit is included in the profit and loss statement line item "Corporate income tax for the reporting year" and disclosed by the components in the notes to the financial statements.

### Deferred tax

According to the new Law on Enterprise Income Tax of the Republic of Latvia adopted on 28 July 2017, and effective from 1 January 2018, a 20% rate is only applied to distributed profits. Therefore, deferred tax assets and liabilities are recognisable at nil amount. This principle has been applied in the Group's and Bank's financial statements for the year ended 31 December 2019.

### (15) Cash and cash equivalents

Cash and cash equivalents are cash on hand and amounts due from the Bank of Latvia and other credit institutions with initial maturities of up to 3 months, except liabilities towards the Bank of Latvia and other credit institutions with initial maturities of up to 3 months.

### (16) Leases

*the Group and Bank as a lessee*

Where the Bank acts as a lessee, the standard requires that right-of-use (RoU) assets and lease liabilities arising from most leases are recognised on the balance sheet.

Depreciation of the RoU assets and interest expenses related to lease liabilities are recognised in the income statement. In the cash flow statement payments for the principal portion of the lease liability are presented within financing activities and payments for the interest portion are presented within operating activities. The lease liability is initially measured as the present value of lease payments that are not paid at the commencement date. Over time, the liability will increase with interest expense accruals and decrease with lease payments. The RoU asset is initially measured at cost i.e. the same amount as the initial measurement of the lease liability plus certain other costs, for example lease payments made at or before commencement date. The RoU asset is thereafter depreciated over the lease term. Lease payments are discounted using the incremental borrowing rate. The Bank applies a singlediscount rate to a portfolio of leases with reasonably similar characteristics.

## Notes to the Group's Consolidated and the Bank's Separate Annual Report

### *the Group as lessor*

When acting as a lessor all leases shall be classified as either an operating lease or a finance lease. Operating leases are those leases where the lessor bears the economic risks and benefits. No major changes in accounting occurred after adoption IFRS 16

### **(17) Provisions**

Provisions are recognized in the statement of financial position when the Group and the Bank have a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made.

Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

### **(18) Short-term employee benefits**

Short term employee benefits, including salaries and social security contributions, bonuses and vacation benefits are included in net operation expenses on an accrual bases. The Group and the Bank pay fixed security contributions to the State Social Fund on behalf of its employees during the employment period in accordance with local legal requirements and the Group and the Bank will have no obligations to pay further contributions relating to retired employees.

### **(19) Loans and advances to customers**

Loans and advances to customers are recorded when the Group advances money to purchase or originate a loan due from a customer. Based on the business model and the cash flow characteristics, the Group classifies loans and advances to customers into one of the following measurement categories: (i) AC: loans that are held for collection of contractual cash flows and those cash flows represent SPPI and loans that are not voluntarily designated at FVTPL, and (ii) FVTPL: loans that do not meet the SPPI test or other criteria for AC or FVOCI are measured at FVTPL.

### **(20) Assets under management**

Assets managed by the Bank and the Group on behalf of customers are not treated as assets of the Bank and the Group. The Group and the Bank assume no risk in relation to these assets.

### **(21) Investments in debt securities and Investments in equity securities**

Investment securities includes Investments in debt securities and Investments in equity securities.

**Investments in debt securities.** Based on the business model and the cash flow characteristics, the Group and the Bank classifies investments in debt securities as carried at AC, FVOCI or FVTPL. Debt securities are carried at AC if they are held for collection of contractual cash flows and where those cash flows represent SPPI, and if they are not voluntarily designated at FVTPL in order to significantly reduce an accounting mismatch.

Debt securities are carried at FVOCI if they are held for collection of contractual cash flows and for selling, where those cash flows represent SPPI, and if they are not designated at FVTPL. Interest income from these assets is calculated using the effective interest method and recognised in profit or loss. An impairment allowance estimated using the expected credit loss model is recognised in profit or loss for the year. All other changes in the carrying value are recognised in OCI. When the debt security is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from OCI to profit or loss.

Investments in debt securities are carried at FVTPL if they do not meet the criteria for AC or FVOCI. The Group and the Bank may also irrevocably designate investments in debt securities at FVTPL on initial recognition if applying this option significantly reduces an accounting mismatch between financial assets and liabilities being recognised or measured on different accounting bases.

**Notes to the Group's Consolidated and the Bank's Separate Annual Report**

**Investments in equity securities.** Financial assets that meet the definition of equity from the issuer's perspective, i.e. instruments that do not contain a contractual obligation to pay cash and that evidence a residual interest in the issuer's net assets, are considered as investments in equity securities by the Group. Investments in equity securities are measured at FVTPL, except where the Group elects at initial recognition to irrevocably designate an equity investments at FVOCI. The Group's policy is to designate equity investments as FVOCI when those investments are held for strategic purposes other than solely to generate investment returns. When the FVOCI election is used, fair value gains and losses are recognised in OCI and are not subsequently reclassified to profit or loss, including on disposal. Impairment losses and their reversals, if any, are not measured separately from other changes in fair value. Dividends continue to be recognised in profit or loss when the Group's right to receive payments is established except when they represent a recovery of an investment rather than a return on such investment.

**(22) Correction of prior period errors**

In 2020, an error was identified in the Bank's and the Group's financial statements.

The error relates to fair valuation of investments in equity securities and allowances for expected credit losses on loans. The Bank and the Group valued investments in Mastercard shares at cost while these shares had to be valued at fair value at the date of adoption of IFRS 9 that requires investments in equity instruments to be valued at fair value. The Bank did not establish sufficient provision for individually assessed Stage 3 loans as at 31 December 2019.

In order to correct the errors, restatement of comparative information was performed in accordance with requirements of IAS 8. The Group has not presented third balance sheet as there is no material impact of the restatement on the opening balances at 1 January 2019.

Detailed information on correction of errors is as follows:

- As at 31 December 2019 the Bank's and the Group's statement of financial position line item Investment securities was understated by EUR 863 thousand, Loans and advances to customers was overstated by EUR 429 thousand and Retained earnings were understated by EUR 433 thousand.
- The Bank's and the Group's income statement line items Net profit from trading and revaluation of financial instruments and Credit losses for the year ended 31 December 2019 was understated by EUR 330 thousand and EUR 429 thousand respectively.
- The above restatements did not have impact on the Net cash used in operating activities for the year ended 31 December 2019 of the Bank and the Group

**Standards or interpretations effective for the first time for the annual periods beginning 1 January 2020**

- **Amendments to the Conceptual Framework for Financial Reporting** (effective for annual periods beginning on or after 1 January 2020). The revised Conceptual Framework includes a new chapter on measurement; guidance on reporting financial performance; improved definitions and guidance - in particular, the definition of a liability; and clarifications in important areas, such as the roles of stewardship, prudence and measurement uncertainty in financial reporting.
- **Definition of a business - Amendments to IFRS 3** (effective for acquisitions from the beginning of annual reporting period that starts on or after 1 January 2020). The amendments revise definition of a business. A business must have inputs and a substantive process that together significantly contribute to the ability to create outputs. The new guidance provides a framework to evaluate when an input and a substantive process are present, including for early stage companies that have not generated outputs. An organized workforce should be present as a condition for classification as a business if are no outputs. The definition of the term 'outputs' is narrowed to focus on goods and services provided to customers, generating investment income and other income, and it excludes returns in the form of lower costs and other economic benefits. It is also no longer necessary to assess whether market participants are capable of replacing missing elements or integrating the acquired activities and assets. An entity can apply a 'concentration test'. The assets acquired would not represent a business if substantially all of the fair value of gross assets acquired is concentrated in a single asset (or a group of similar assets).
- **Definition of materiality – Amendments to IAS 1 and IAS 8** (effective for annual periods beginning on or after 1 January 2020). The amendments clarify the definition of material and how it should be applied by including in the definition guidance that until now has featured elsewhere in IFRS. In addition, the explanations accompanying the definition have been improved. Finally, the amendments ensure that the definition of material is consistent across

## Notes to the Group's Consolidated and the Bank's Separate Annual Report

all IFRS Standards. Information is material if omitting, misstating or obscuring it could reasonably be expected to influence the decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity.

- **Interest rate benchmark reform – Amendments to IFRS 9, IAS 39 and IFRS 7** (effective for annual periods beginning on or after 1 January 2020). These amendments provide certain reliefs in connection with interest rate benchmark reform. The reliefs relate to hedge accounting and have the effect that IBOR reform should not generally cause hedge accounting to terminate. However, any hedge ineffectiveness should continue to be recorded in the income statement.
- **Covid-19 Related Rent Concessions – Amendments to IFRS 16** (effective for annual periods beginning on or after 1 January 2020). The amendments provided lessees (but not lessors) with relief in the form of an optional exemption from assessing whether a rent concession related to COVID-19 is a lease modification.

### Standards or interpretations effective for the first time for the annual periods beginning on or after 1 January 2021 or not yet adopted by the EU

- **Sale or Contribution of Assets between an Investor and its Associate or Joint Venture - Amendments to IFRS 10 and IAS 28** (effective for annual periods beginning on or after a date to be determined by the IASB, not yet adopted by the EU).
- **IFRS 17 "Insurance Contracts"** (effective for annual periods beginning on or after 1 January 2021, not yet adopted by the EU).
- **Classification of liabilities as current or non-current – Amendments to IAS 1** (effective for annual periods beginning on or after 1 January 2022, not yet adopted by the EU).
- **Amendments to IAS 16, IAS 37 and IFRS 3, and Annual Improvements to IFRSs 2018-2020 – amendments to IFRS 1, IFRS 9, IFRS 16 and IAS 41** (effective for annual periods beginning on or after 1 January 2022, not yet adopted by the EU).
- **Amendments to IFRS 17 and an amendment to IFRS 4** (effective for annual periods beginning on or after 1 January 2023, not yet adopted by the EU).
- **Interest rate benchmark (IBOR) reform – phase 2 amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16** (effective for annual periods beginning on or after 1 January 2021, not yet adopted by the EU).

## 4. RISK MANAGEMENT

Within the framework of the internal control system, the Group and the Bank have developed and follow the risk management strategy and policies, approved by the Council, which in line with the volumes, complexity and specifics of the Group's and the Bank's operations, define the following:

- 1) General guidelines observed by the Group and the Bank in their activities aimed at decreasing risks associated with their activities which might lead to losses;
- 2) Description of risk transactions and other risks to which the Group and the Bank are exposed;
- 3) Identification and management of the significant risks, including measurement, evaluation, control, and preparation of risk reports;
- 4) The procedure for setting limits and restrictions for risk transactions together with regular control and development;
- 5) Measures for the regular assessment of capital adequacy and maintenance of sufficient capital to cover the inherent risks and risks to which the Bank might be exposed to;
- 6) Updating of normative documents regarding the risk management process according to market changes.

The risk management strategy and policies describe and determine the aggregate of measures to ensure that the possibility of suffering losses is minimized in the event the invested resources are not repaid in due time or the Bank or the Group suffers other losses.

## Notes to the Group's Consolidated and the Bank's Separate Annual Report

The Board of the Bank ensures the development of the risk management system as described by the risk management normative documents; the Board, the Investment Committee, Credit Committee, Non-financial Risk Management Committee and Customer Activity Compliance Control Committee make the key decisions according to their regulations. Risk Officer is responsible for the overall control and monitoring of the risk management system. Independent risk management departments ensure risk management on a daily basis. The risk management system is monitored by the Internal Audit Service on a regular basis is being continuously developed pursuant to the development of the Group and the Bank and activities on financial markets. The Board and the Council regularly receive and review the information on risk management, implementation of the strategy and policies approved by the Council. Risk management is carried out both on the Group and Bank level.

### (1) Credit risk

Credit risk is the risk of potential loss resulting from the inability or refusal to fulfil any contractual obligations by the Group's or the Bank's debtor or counterparty.

Credit risk is managed in accordance with the Risk management Strategy and the Credit Risk Management Policy, approved by the Council. This policy details the basic principles of credit risk management, identification, assessment, mitigation and control.

The management of risks associated with ordinary loans involves the assessment of the potential borrower's credit standing that is performed by the Financial Analysis and Risk Management Department. Decisions on granting of loans are made by the Credit Committee or the Board, based on the above analysis and evaluation of collateral. Subsequent to loan granting, the Financial Analysis and Risk Management Department performs a regular analysis of the borrower's financial position, which enables the Bank and the Group to take prompt action in the case of deterioration of the borrower's financial position.

Credit risk that is related to inter-bank operations (or operations with financial institutions), including the credit risk related to inter-bank settlements and the Bank's investments in debt securities, is controlled by the Bank's Investment Committee that sets limits for transactions with each counter party and issuer.

The Bank and the Group monitor the concentration of significant assets, liabilities, as well as contingent liabilities and commitments' credit risk by geographical regions, customer groups and types (i.e. central governments, local authorities, state enterprises, private enterprises, private individuals, etc.) and industries. Credit risks are presented in Note 43.

### Impairment policies

An important part of the credit risk management is the estimation of provisions under IFRS9, which mostly is based on the assessment of credit risk of financial instruments. As a result of the assessment, all assets are divided into stages according to the level of credit risk and changes thereof.

The Group recognizes an allowance for expected credit losses on all loans and other debt financial assets not held at FVTPL, together with loan commitments and financial guarantee contracts.

The Bank's ECL calculations are outputs of complex models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL models that are considered in accounting judgements and estimates include:

- the criteria for assessing the significance of an increase in credit risk and the criteria for granting the Stage 1, Stage 2 or Stage 3 loans that meet the requirements of IFRS9, including the EBA guidelines for classification of loans due to the impact of COVID-19;
- assessing the accounting interpretations and modelling assumptions used to build the ECL calculation models, including various formulas and choice of inputs;
- modelling and calculation of key parameters of ECL model, including probability of default (PD), loss given default (LGD) and exposure at default (EAD);
- determining the macro-economic indicators and incorporating forward-looking information into the ECL model, as described below;
- estimating the above-mentioned indicators for individually assessed loans for a credible future period and for at least two different scenarios (baseline scenario and pessimistic scenario), and assigning probabilities to those scenarios.

**Notes to the Group's Consolidated and the Bank's Separate Annual Report**

In order to estimate the expected credit loss (ECL) for debt securities, inter-bank deposits, letters of credit and financing against securities portfolio, the statistics of historical defaults and recovery rates by Moody's is used. Historical PD is applied accordingly to instruments' or issuers' external credit ratings. If an instrument has not any external rating, it is conservatively assumed to apply historical data which is relevant for the rating B-. For the instruments with prime grades, where historical PD is equal to 0%, it is assumed to take PD=0.005%. PD under these scenario ranges from 0.005% for prime grade instruments to 30% for instruments with the lowest ratings. Significant increase in credit risk for such instruments is recognized, for example, if the instrument is downgraded and PD corresponding to the new rating increases by at least 100bp.

The approach for the ECL calculations for loan portfolio are based both on a collective and individual assessment. Criteria for the individual ECL assessment are the following:

- Outstanding amount of a loan or total amount of loans granted to one specific customer group exceeds 3 mio. EUR;
- Outstanding amount of a loan or total amount of loans granted to one specific customer group exceeds 0.5 mio. and internal credit rating "Weak"/"Hard to estimate" is assigned or the amount of the estimated potential losses exceeds 40%.

All other loans are assessed on a collective basis. Calculations of ECL in this case are based on different PD scenarios, taking into account forward looking macroeconomic information. Scenarios are based on Latvia's banking sector statistics about NPL, which is published by FCMC quarterly.

In the Bank's credit portfolio, the share of residents consists of companies with long history, previously credited by other credit institutions in Latvia, and the customer profile of resident loans does not differ significantly from credit customers of other banks. The portfolio of residents-individuals was established recently (2018–2020), and it consists of simple products (payment card overdrafts, mortgage loans and consumer loans), with a customer profile similar to that of other retail banks, thus forming the basis for statistics in this segment. The non-resident credit portfolio statistics of the banking sector of Latvia mainly (89%) consist of banks that historically have been focusing on servicing non-residents. Credit portfolios of these banks historically have had a high exposure to CIS countries (or business risks associated with CIS countries). The Bank has large number of loans in its credit portfolio, which can be affected by the economic situation of the region. Based on these statistics, the following groups of loans are established:

- Residential corporate loans;
- Non-residential loans;
- Residential private individuals: mortgages, card loans, consumer loans and other loans.

For Stage 1 loans, PD scenarios are adjusted by the following macroeconomic factors:

- for corporate loans and non-residential loans annual change in real increase/decrease of GDP is applied;
- For private individuals loans annual change in labour costs is applied.

In order to take into account the cyclical nature of the economy, the lifetime ECL for Stage 2 loans was calculated by applying a 5-year maximum NPL proportion of the respective group of loans in the total of the loans within the respective loan group, which includes the effects of the crisis period. This allows obtaining a forward-looking credit PD, taking into account a set of macro factors that are typical of a crisis period that may be relevant during the life of the loan. As a result, PD ranges from 1.1% to 13.9% (for Stage 1 loans) and from 5.97% to 26.4% (for Stage 2 loans). The PD scenarios described herein are updated on an annual basis, using the most recent available FCMC statistics on the activity of the banking sector and the data from the database of the Central Statistical Bureau. These data are applied with the deviation of one year, assuming that the actual impact of macroeconomic factors on the PD is reflected in one year. Considering the fact that the macroeconomic indicators for the year 2020 were non-typical and there is still a great deal of uncertainty, these data were not directly used in the model.

For Stage 3 loans the PD is conservatively assumed to be equal to 100% in all loan groups.

The loans, collectively assessed by volume, represent 20% of the Bank's total credit portfolio. Out of them, 88% are classified as Stage 1 loans, 10.5% as Stage 2 loans, and 1.5% as Stage 3 loans.

**Notes to the Group's Consolidated and the Bank's Separate Annual Report**

The loss given default (LGD) ratio is calculated as the total of the gross book value of the loan and the estimated outstanding amount of the off-balance sheet items minus the carrying amount of collateral. The estimated outstanding amount of the off-balance sheet items is calculated by multiplying the actual outstanding amount of the off-balance sheet items by the expected conversion factor. This ratio is derived based on the Bank's historical data on the use of the outstanding amount of the off-balance sheet items for the last two years, by calculating the average use of the outstanding amounts of the off-balance sheet items for overdrafts and credit lines. If a loan is fully collateralised, LGD is calculated as 0.5% of the total sum of the gross book value of the loan and the estimated outstanding amount of the off-balance sheet items.

The modelled PD scenarios were compared with the actual default cases in the Bank's credit portfolio during the period 2018–2020. The actual PDs are comparable to those applicable in the model and do not exceed them. Consequently, the allowance created is considered to be appropriate for the Bank's credit portfolio.

For individually assessed loans at least two scenarios are developed: base case scenario and negative one. Depending on loan quality, history and all other necessary information, Bank's credit analysts estimate the probability for each scenario. ECL is calculated as a probability weighted difference between the PV of cash flow under each scenario and the present value of contractual cash flow.

Impairments for different financial instruments are recognized based on calculated ECL coefficients and these coefficients dynamically change depending on outstanding amount of each instrument.

**(2) Currency risk**

Foreign exchange risk is the risk of potential loss as a result of the revaluation of assets, liabilities, as well as contingent liabilities and commitments denominated in foreign currencies due to change in exchange rates.

The Bank and the Group continuously monitor the open positions of foreign currencies and regularly assesses the structure of assets and liabilities by currency.

An analysis of sensitivity of the Bank's net profit or loss for the year and comprehensive income to changes in the foreign currency exchange rates based on positions existing as at 31 December 2020 and 31 December 2019 and a simplified scenario of a 5% change in the USD to EUR exchange rates is as follows:

EUR'000	2020		2019	
	Profit or loss	Shareholders' equity	Profit or loss	Shareholders' equity
5% appreciation of USD against EUR	(11)	(11)	50	50
5% depreciation of USD against EUR	11	11	(50)	(50)

An analysis of the foreign currency position is presented in Note 41.

**(3) Interest rate risk**

Interest rate risk is related to potential losses incurred by the Group and the Bank due to movements in interest rates.

For controlling the interest rate risk, the Investment Committee performs regular analyses of assets and liabilities by maturity and type of interest. A change of interest rates by 100 basis points would result in the following changes in profit or loss and capital and reserves:

	2020 EUR'000	2019 EUR'000
EUR	644	527
USD	(99)	(37)

The interest reprising analysis is disclosed in Note 42.

**Notes to the Group's Consolidated and the Bank's Separate Annual Report****(4) Debt securities price risk**

Debt securities price risk is the potential loss that may arise to the debt securities included in the trading portfolio due to the decline in market prices as a result of changes in market factors.

The debt securities price risk is managed by the Bank by setting limits on the total amount of the trading portfolio, as well as purchasing debt securities with relatively short maturities that are less sensitive to price risk.

EUR'000	2020		2019	
	Profit or loss	OCI	Profit or loss	OCI
10% increase in securities prices	-	5 308	1 591	3 182
10% decrease in securities prices	-	(5 308)	(1 591)	(3 182)

**(5) Liquidity risk**

Liquidity risk is the risk of potential loss as a result of sales of assets or acquisition of resources at unfavourable prices in order for the Group and the Bank to fulfil its liabilities to creditors and depositors.

The Bank focuses on a conservative approach to liquidity management. The Bank allocates funds (attracted mainly from deposits) to assets in order to maintain an asset structure that is appropriate to support the Bank's operations (executing of customers' transactions) and comply with regulatory requirements concerning the liquidity ratio even in case of a significant outflow of customer deposits or a significant decrease in liquidity on the securities market.

The procedures for the management of the liquidity risk are described in the Liquidity Management Policy and consist of several components: liquidity risk indicator system, balance sheet planning, stress testing, and limits for investments in assets of limited liquidity.

The purpose of liquidity risk indicators is to reflect the actual level of the Bank's liquidity risk and quickly identify any increase in liquidity risk. The Bank's Liquidity Risk Management Policy determines specific actions to improve the Bank's liquidity position when liquidity risk indicators reach certain levels.

The aim of liquidity risk stress testing is to measure the deficit or surplus of the Bank's liquid assets that may occur due to significant outflows of customer deposits or a significant decrease in liquidity on the securities market. Based on the results of stress testing, the Bank's Investment Committee sets limits on investments in assets of limited liquidity.

The reported ratio of net liquid assets versus current liabilities at the reporting date were as follows:

	2020	2019
As at 31 December	76.92%	79.53%

Net liquid assets include cash and cash equivalents, bonds and receivables from credit institutions net of current liabilities.

Liquidity Coverage Ratio (LCR) at the reporting date was as follows:

	2020	2019
As at 31 December	135.06%	225.28%

In accordance with 'Normative regulations on establishing a capital and liquidity adequacy assessment process' No. 209 of the FCMC, the Bank carries out the assessment of the liquidity reserve adequacy necessary for its operations within the liquidity adequacy assessment process (ILAAP). Liquidity analysis is presented in Note 40.

**(6) Country risk**

Country risk is the risk of potential losses arising from transactions with residents of foreign countries (or their securities) due to changes in the economic, political, and legal environment of the respective countries.

## Notes to the Group's Consolidated and the Bank's Separate Annual Report

Before entering into transactions with residents of foreign countries, the Group and the Bank perform an assessment of the influence of economic, social, political and legal circumstances on the residents' ability to fulfil their obligations.

The Group and the Bank, pursuant to the State risk management policy, set the limits on placement of assets for the respective country.

### (7) Operational risk

Operational risk is the risk of incurring losses from inadequate or improper internal processes, human errors and errors in the operation of systems, or from external events, including legal risk, but excluding strategic and reputation risk.

The principles of the operational risk management at the Group and the Bank are established in the internal regulations of the Bank, by setting:

- Organizational structure, division of powers and the principles of delegation, functional duties, procedure for the exchange of information among the structural units and employees;
- Rules, regulations and procedures for operations and other transactions, the accounting procedure and the organisation of internal processes;
- Control over the compliance with the limits set for bank operations and other transactions;
- Rules, regulations and procedures for the functioning of information systems (technical, informational, etc.);
- Procedure for granting rights of access to information and material assets;
- Procedure for preparing and issuing reports and other information;
- Procedure for motivating employees, and other matters.

To ensure efficient conditions for the identification and assessment of the operational risk at the Group and the Bank, the Bank has established the Operational Risk Management Department, responsible for personnel training on the matters of operational risk. The Operational Risk Management Department has an operational event database in place, which ensures receiving information about operational risk events, thus enabling proper recording, management and addressing of risks.

A systemic approach is applied in the identification and management of risks characteristic to new financial services and products as part of the approval process of the new services and products. This process involves all the structural units providing control and support functions together with structural units of the relevant business lines in order to ensure the assessment of the new financial services or products.

The Bank has also developed Action plans for various crisis situations. The Bank and the Group have set up an independent Internal Audit Service (IAS), whose primary function is to ensure that the activities of the Bank and the Group comply with the applicable laws and regulations, approved plans, policies and other internal documents of the Bank, and with the internal control procedures governing the functions of the Group's and the Bank's structural units.

### (8) Management of money laundering and terrorist financing risk and the Customer Policy

#### (a) General Policy

The main goal of the Group's and the Bank's existing business model is to provide financial services to clients, thus involving the money laundering and terrorist and proliferation financing risk and sanction risk. Accordingly, the Group and the Bank devote significant efforts to ensure compliance with the laws and regulations of the Republic of Latvia, recommendations of international organisations, other binding regulations in the area of prevention of money laundering and terrorist and proliferation financing (hereinafter — AML/CFTP), as well as the regulations governing the area of prevention of violation or circumvention of national, International sanctions and OFAC sanctions or such attempts.

The Bank has approved the AML/CFTP Policy, which establishes:

- The key principles of customer due diligence, client transaction monitoring, enhanced due diligence, including the analysis of personal or business activities of clients and their counterparties;
- The key principles of identification and due diligence on true beneficiaries of clients;

## Notes to the Group's Consolidated and the Bank's Separate Annual Report

- The key principles of client risk assessment, identification and management. Based on the information generated during the client's initial due diligence, the client's initial risk is established, which is assigned automatically by the client risk scoring system based on a number of risk factors. Client risk is regularly reviewed in the light of changes in risk factors.

The Bank has approved the Sanction risk management policy, which defines the tasks and procedures of the Bank's structural units in the area of client acquisition and servicing, the general terms for initiating business relationship with clients, carrying out the client due diligence and client risk identification measures, including the general procedure for terminating business relationship with clients that do not meet the requirements of the Sanction risk management policy.

Throughout the business relationship between the client and the Bank, the Bank continues to collect information on the client's economic activities and personal activities as far as it is necessary to meet the requirements laid down in the legislation. Client files are supplemented and updated on a regular basis with client due diligence results and supporting documents of transactions. In the opinion of the Bank's management, through gaining the understanding about the client business activities and their geographical coverage, monitoring their transactions and refraining from the execution of suspicious financial transactions, the Group and the Bank minimize the risk of being involved in potential money laundering and terrorism and proliferation financing activities, as well as reduce the risk of being involved in violation or circumvention of sanctions or such attempts.

The Bank has approved the Money laundering and counter terrorist and proliferation financing risk and sanction risk management strategy, that sets the key principles of management of the money laundering and terrorist and proliferation financing risk and sanction risk (hereinafter — ML/FTP risk and sanction risk), development of internal control system, risk identification measures, and risk mitigation and control mechanisms. Taking into account the Bank's strategy, the ability of the Bank to manage the ML/FTP risk and the available resources, the AML/CFTP and Sanction risk management strategies set the ML/FTP risk exposure rates and their maximum permissible limits.

The ML/FTP risk and sanction risk management strategy, the AML/CFT policy and the Sanction risk management policy introduce a set of requirements setting an organisational structure based on the following three-tiers of principles of protection and control:

- Tier 1 controls — employees of structural units in charge of acquiring and servicing customers, ensuring the compliance with the Know Your Customer (KYC) principle both at the customer acceptance stage and during business relationship; Each employee of the Bank's structural units is required to know and follow the AML/CFTP and sanction risk requirements in cooperation with clients, as well as promote and observe the requirements of professional internal culture in accordance with the Corporate Ethics Standards Code.
- Tier 2 controls — structural units in charge of client acceptance and client due diligence prior to establishing business relationship, monitoring of client transactions and providing the support function, provide for an independent analysis of client information, monitoring of client acceptance and servicing, analysis of client transactions, issue of opinions on planned client transactions, and, through the use of automated tools, ensure transaction monitoring, reporting (Financial Intelligence Unit, the State Revenue Service, the State Security Service, the Finance and Capital Market Commission), as well as the responsible directors and heads of structural units in the area of risk management and compliance. In addition to monitoring the sanction risk, the Bank has appointed a responsible employee in charge of the analysis of matters related to the International, OFAC and National sanctions at the Bank, consulting other Bank employees and issuing opinions on sanction matters.
- Tier 3 controls are implemented by the Internal Audit Service through independent and regular management of ML/FTP risk and sanction risk and assessment of controls.

The Bank has appointed a Board member in charge of the management of ML/FTP risk and sanction risk, and has appointed the responsible employee for the compliance with AML/CFTP requirements.

The Bank's internal control system in the area of ML/FTP and sanction risk management is based on the principle of segregation of duties and responsibilities between the structural units and employees; it forms the basis for the decision-making, client activity monitoring and the activities of compliance units. The Bank's Client Activity Compliance Committee was established with the goal to ensure the organisation and control over general internal control measures in the area of client compliance.

## Notes to the Group's Consolidated and the Bank's Separate Annual Report

### **(b) Improvement of the AML/CFTP internal control system**

In the second half of 2017, the FCMC conducted the AML/CFT review at the Bank in order to evaluate the Bank's compliance with the AML/CFT Law of the Republic of Latvia and to verify whether the Bank's practice is compliant with the FCMC regulations and requirements set by other supervisory authorities.

The key findings of the review by the FCMC relate to the following aspects of the internal control system in the area of AML/CFT, which require significant improvements:

- Gathering documents and information on the source of wealth of the client true beneficiaries and documenting the process of assessment;
- Client risk scoring;
- Client due diligence and documenting;
- Client transaction monitoring and documenting the decisions.

Following the receipt of the final opinion on the review from the FCMC, the Bank approved the Action plan for the elimination of the deficiencies. Already in 2018, the Bank made substantial efforts to improve its client risk scoring system, and introduced new client risk scoring factors in the client risk scoring system.

On 21 December 2018, the FCMC and the Bank signed an Administrative Agreement, agreeing on implementation of a specific set of measures aimed at improving the Bank's system of internal control. By signing the Administrative Agreement, the Bank committed to introduce improvements within a specified period in its internal system of control over client transactions.

At the beginning of 2019, the Board of the Bank approved the Action plan, within the framework of which measures were implemented during 2019 and 2020 aimed at introducing improvements in the area of AML/CFTP, namely updating the internal regulatory documents, developing a client scoring system, auditing the client base at the result of which clients posing a disproportionately high reputational risk or ML/FTP risk were identified and decisions were taken to terminate business relationship with respective clients.

In addition, in 2019, an independent audit of the AML/CFTP internal control system was carried out and a number of recommendations were received for the development of the internal control system:

- Systematic update of information in client files;
- Improvement of client risk scoring by detailing the geographical risk factors;
- Providing enhanced due diligence on groups of mutually related clients simultaneously for each individual client included in the group and the group as a whole.

The implementation of the recommendations of the independent auditor was completed in 2020. The recommendations of the independent auditor were implemented in due time. In 2020, the Bank, under the supervision of the Financial and Capital Market Commission, continues its work on the development of the AML/CFTP internal control system by introducing the "Regulations on the establishment of customer due diligence, enhanced customer due diligence and risk scoring system" of the Financial and Capital Market Commission, which entered into force at the end of 2019.

### **(9) Management of compliance risk**

Compliance risk — a risk that the Group or the Bank may incur losses or may be subject to legal obligations or sanctions, or its reputation as an institution may be damaged due to non-compliance of its operations or violation of the requirements of laws, rules and standards in the area of compliance.

The Bank has introduced the compliance control system, which is based on the principle that the function of compliance control in the Bank is provided by an organisationally separated unit — the Compliance Control Department, which acts under the direct authority of the Chief Compliance Officer. In order to ensure the compliance function, the Bank has appointed compliance experts, — employees of the Bank's structural units, experts in the field concerned.

The Bank has appointed a personal data protection officer in charge of organising, controlling and supervising the compliance of personal data processing at the Bank as a Controller with the requirements of the regulatory enactments in the area of personal data protection of the European Union and the Republic of Latvia. The main goal of the Compliance Control Department is to ensure the identification, assessment and management of the compliance risk. The purpose of the compliance

## Notes to the Group's Consolidated and the Bank's Separate Annual Report

function is to ensure the identification, documentation, assessment of the compliance risk, by ensuring that prior to the initiation of any new activity, the compliance risk associated with the respective activity is identified, and the Bank's compliance with compliance laws, rules and standards is assessed.

Compliance of the activities of the Bank characterises the Bank's ability to act pursuant to the applicable laws, regulations and standards in the area of compliance, which can further be subdivided in 2 levels:

- Compliance with external requirements in general (requirements integrated in the internal regulatory documents and processes);
- Appropriate internal control system capable of ensuring continued compliance with the relevant requirements.

Pursuant to the changes in regulatory enactments, an internal whistleblowing system was introduced providing for reporting on deficiencies and other violations of the internal control system and ensuring the protection guarantees for whistleblowers pursuant to the Whistleblowing Law.

In scope of corporate governance, the process of identifying and managing situations of conflict of interest was improved, and a systematic approach to collecting information on situations that may create conflicts of interest for the Bank was developed.

The system for reporting and providing information to internal and external information requests is continuously reviewed and updated.

### (10) Capital management

The Bank's Capital Adequacy Management Policy requires maintenance of a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business as well as to ensure the Bank's capital at an adequate level for covering potential risks arising from current and future operations.

Under the capital requirements introduced by Regulation (EU) No 575/2013 of the European Parliament and of the Council and the FCMC banks need to maintain a ratio of capital to risk weighted assets ("statutory capital ratio") above the prescribed minimum level. Although the minimum required level as at 31 December 2020 was 8%, according to a special request by the FCMC, starting from 21 April 2020 the Bank was required to ensure a higher capital adequacy ratio of 10.20%. In addition to the above-mentioned capital requirement for the overall risk coverage, the Bank is required to ensure compliance with the total capital reserve requirement calculated in accordance with Section 35<sup>22</sup>, 35<sup>23</sup>, 35<sup>24</sup> or 35<sup>25</sup> of the Credit Institution Law, which is 2.51% (Capital conservation buffer: 2.50%, Institution-specific countercyclical capital buffer: 0.01% (as at 31.12.2020).

The requirements of the total capital reserve must be met using Tier 1 capital.

During the years 2020 and 2019 as of 31 December of these years the Bank and the Group were in compliance with the capital adequacy and the minimum capital requirement specified in the Law On Credit Institutions and the rules of the FCMC, as well as in compliance with the higher ratio required by the FCMC.

For the calculation of capital adequacy as at 31 December 2020 refer to Note 44.

In addition to the calculation of the capital adequacy ratio in accordance with 'Normative regulations on establishing a capital and liquidity adequacy assessment process' No. 209 of the FCMC, the Bank regularly conducts its own internal capital adequacy assessment in order to ensure that it covers all the risks assumed by the Bank and whether they are covered by the capital.

## 5. USE OF ESTIMATES AND JUDGMENTS

The preparation of financial statements in conformity with IFRS as adopted by EU requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. Although these estimates are based on management's best knowledge of current events and actions, the actual results ultimately may differ from those estimates.

**Notes to the Group's Consolidated and the Bank's Separate Annual Report**

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to the accounting estimates are recognized in the period, in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The Bank's management makes significant estimates and judgements in respect of expected credit losses on loans and receivables.

## Notes to the Group's Consolidated and the Bank's Separate Annual Report

## 6. NET INTEREST INCOME

**14. CORPORATE INCOME TAX**

	2020		2019	
	Group EUR'000	Bank EUR'000	Group EUR'000	Bank EUR'000
Corporate income tax for the conditionally distributed profit	(8)	(8)	(4)	(3)
<b>Total corporate income tax</b>	<b>(8)</b>	<b>(8)</b>	<b>(4)</b>	<b>(3)</b>

According to the new Law on Corporate Income Tax of the Republic of Latvia adopted on 28 July 2017, and effective as of 1 January 2018, a 20% rate is only applied to distributed profits while a 0% rate is expected to be applied to undistributed profits. Therefore, deferred tax assets and liabilities are recognisable at nil amount as of 31 December 2020.

**15. CASH AND DEMAND DEPOSITS WITH CENTRAL BANK**

	2020		2019	
	Group EUR'000	Bank EUR'000	Group EUR'000	Bank EUR'000
Cash	688	688	775	775
Balance with the Bank of Latvia (including the minimum reserve deposit)	112 315	112 315	89 928	89 928
<b>Total</b>	<b>113 003</b>	<b>113 003</b>	<b>90 703</b>	<b>90 703</b>

According to the regulations of the Financial and Capital Markets Commission, the total amount of funds on the account with the Central Bank should not be less than the amount of the obligatory reserves calculated from the average amount of customer deposits during the month. The obligatory reserve as at 31 December 2020 was EUR 5 231 thousand (2019: EUR 4 115 thousand).

Cash and balances with the Bank of Latvia are available on demand, thus, taking into account very low probabilities of default of these balances, expected credit loss is immaterial.

The extent to which collateral and other credit enhancements mitigate credit risk for financial assets carried at amortised cost that are credit impaired, is presented by disclosing collateral values separately for (i) those assets where collateral and other credit enhancements are equal to or exceed carrying value of the asset ("over-collateralised assets") and (ii) those assets where collateral and other credit enhancements are less than the carrying value of the asset ("under-collateralised assets").

The effect of collateral on credit impaired assets at 31 December 2020 is as follows.

**Notes to the Group's Consolidated and the Bank's Separate Annual Report**

EUR'000	Over-collateralised assets		Under-collateralised assets	
	Carrying value of the assets	Value of collateral	Carrying value of the assets	Value of collateral

The two buildings that the Bank rents from its subsidiaries at Smilšu street and Jēkaba street are used as the Head office of the Bank. From the Group's perspective, these buildings are considered to be corporate assets and are classified as property and equipment. In 2020 and 2019, the management believes that there are no indications that these sites may be impaired.

As at 31 December 2020 the Bank had one credit institution whose account balances exceeded 10% of total deposits on demand with other credit institutions. Total balances of this credit institution as at 31 December 2020 amounted to EUR 8 644 thousand.

As at 31 December 2019 the Bank had one credit institution whose account balances exceeded 10% of total deposits on demand with other credit institutions. Total balances of this credit institution as at 31 December 2019 amounted to EUR 3 071 thousand.

## 28. DUE TO CREDIT INSTITUTIONS AND CENTRAL BANKS

	2020		2019	
	Group EUR'000	Bank EUR'000	Group EUR'000	Bank EUR'000
Central Bank of Latvia	74 900	74 900	-	-
	<b>74 900</b>	<b>74 900</b>	<b>-</b>	<b>-</b>

The Bank participated in the long-term refinancing target programme (TLTRO III) of the European Central Bank, by borrowing EUR 75 million. The loan has a 3-year maturity with the possibility of early repayment, starting from September 2021. Borrowing rates in these operations may be lower for 50 base points than the average interest rate on ECB deposits during the period from 24 June 2020 and 23 June 2022, provided that the lending thresholds for the respective periods, as established by the ECB, are reached. Outside this period, the interest rate can be as low as the average deposit rate, which is currently -0.50%. Liabilities are recognised as a floating-rate instrument and expected cash flows are based on an assumption that lending thresholds will not be reached. When there is sufficient assurance that lending thresholds are reached and the established rates can be applied, the expected cash flows will be restored.

### 35. CONTINGENT LIABILITIES AND COMMITMENTS

At any time the Bank has outstanding commitments to extend credit. These commitments take the form of approved loans and credit card limits and overdraft facilities.

The Bank provides financial guarantees and letters of credit to guarantee the performance of customers to third parties. These agreements have fixed limits and generally extend for a period of up to five years.

The contractual amounts of commitments are set out in the following table by category. The amounts reflected in the table for commitments assume that amounts are fully advanced. The amounts reflected in the table for guarantees and letters of credit represent the maximum accounting loss that would be recognized at the reporting date if counterparties failed to completely perform as contracted.

	2020		2019	
	Group EUR'000	Bank EUR'000	Group EUR'000	Bank EUR'000
Unused loan facilities	70 952	70 952	49 912	49 912
Unused credit card facilities	1 374	1 380	1 767	1 773
Guarantees	1 442	1 442	1 593	1 593
	<b>73 768</b>	<b>73 774</b>	<b>53 272</b>	<b>53 278</b>
<i>Provisions</i>	<i>(196)</i>	<i>(197)</i>	<i>(95)</i>	<i>(96)</i>

The total contractual amounts of the above loan commitments may differ from the cash flow that may actually be required in future as these commitments may expire before they are claimed.

## 36. LITIGATION

Management is unaware of any other significant actual, pending or likely claims against the Bank and its subsidiaries.

## Notes to the Group's Consolidated and the Bank's Separate Annual Report

## 37. ASSETS AND LIABILITIES UNDER MANAGEMENT

	2020		2019	
	Group EUR'000	Bank EUR'000	Group EUR'000	Bank EUR'000
<b>Assets under management</b>				
Due from credit institutions registered in Latvia	7 164	7 164	242 405	242 405
Due from foreign credit institutions	-	-	4 894	4 894
Loans to customers	165	165	2 063	2 063
Non fixed income securities	11 199	11 199	13 436	13 436
Fixed income securities	1 718	1 718	5 053	5 053
Other assets	4	4	526	526
<b>Total assets under management</b>	<b>20 250</b>	<b>20 250</b>	<b>268 377</b>	<b>268 377</b>
<b>Liabilities under management</b>				
Non-resident trust liabilities	6 353	6 353	16 136	16 136
Resident trust liabilities	13 897	13 897	252 241	252 241
<b>Total liabilities under management</b>	<b>20 250</b>	<b>20 250</b>	<b>268 377</b>	<b>268 377</b>

The largest share of assets under management were invested in non-fixed income securities and due from credit institutions registered in Latvia. Assets under management include loans granted on a trust basis (trust loans) made on behalf of a third party (the beneficiary).

## 38. RELATED PARTY TRANSACTIONS

Related parties are defined as shareholders who have a significant influence over the Bank (parent company), members of the Council and the Board and Other related parties, that are companies in which parent company and members of the Council and the Board have a controlling interest, key management personnel, their close relatives and companies in which they have a controlling interest, as well as associated and related companies. All transactions with related parties have been carried out at an arm's length.

Loans, deposits and other claims and liabilities to related parties include the following:

	2020		2019	
	Group EUR'000	Bank EUR'000	Group EUR'000	Bank EUR'000

The maturity analysis of the Group is not significantly different from that of the Bank disclosed above.

The negative gap positions are managed in accordance with the Bank's Liquidity risk management policy. There are limits for maturity gap positions, which are set and monitored by the Bank's Investment committee.

## Notes to the Group's Consolidated and the Bank's Separate Annual Report

## 40. FINANCIAL RISK MANAGEMENT

## Liquidity risk (Bank)

Residual contractual maturities of financial liabilities of the Bank are presented below. The amounts disclosed in the tables are the contractual undiscounted cash flows in comparison with the carrying amounts of financial liabilities. The Group's residual contractual maturities of financial liabilities have not been presented as the difference to the Bank's analysis is insignificant.

The repricing maturity analysis of the Group is not significantly different from that of the Bank disclosed above.

**Notes to the Group's Consolidated and the Bank's Separate Annual Report****43. MAXIMUM CREDIT ANALYSIS**

The Bank's maximum exposure to credit risk is set out below. The impact of possible netting of assets and liabilities to reduce potential credit exposure is not significant.

*Maximum credit exposure*

	Notes	Gross maximum credit exposure	
		Bank 2020	Bank 2019
<b>At 31 December</b>			
<b>EUR'000</b>			
Cash and balances with central banks	15	113 003	90 703
Loans and receivables from banks	16	24 528	24 835
Trading financial assets	17, 32	2 839	21 181
Investment securities	19, 21	224 656	88 702
Loans and receivables	20	303 190	249 324
Other financial assets	26	6 818	13 005
<b>Total financial assets</b>		<b>675 034</b>	<b>487 750</b>
Unused loan facilities	35	70 952	49 912
Unused credit card facilities	35	1 380	1 773
Guarantees	35	1 442	1 593
<i>Total guarantees and commitments</i>		<b>73 774</b>	<b>53 278</b>
Total maximum credit risk exposure		<b>749 574</b>	<b>540 594</b>

The maximum credit risk exposure analysis of the Group is not significantly different from that of the Bank disclosed above.

The Group's maximum exposure to credit risk is reflected in the carrying amounts of financial assets in the consolidated statement of financial position. For financial guarantees issued, commitments to extend credit, undrawn credit lines and export/import letters of credit, the maximum exposure to credit risk is the amount of the commitment.

Credit risk management. Credit risk is the single largest risk for the Group's business; management therefore carefully manages its exposure to credit risk.

The estimation of credit risk for risk management purposes is complex and involves the use of models, as the risk varies depending on market conditions, expected cash flows and the passage of time. The assessment of credit risk for a portfolio of assets entails further estimations of the likelihood of defaults occurring, the associated loss ratios and default correlations between counterparties.

Limits. The Group structures the levels of credit risk it undertakes by placing limits on the amount of risk accepted in relation to one borrower, or groups of borrowers, and to geographical and industry segments. Limits on the level of credit risk by product and industry sector are approved regularly by management. Such risks are monitored on a revolving basis and are subject to an annual, or more frequent, review

Credit risks policies are presented in Note 4.1.

## 44. CAPITAL ADEQUACY CALCULATION (BANK)

	2020 EUR'000	2019 EUR'000
<b>Tier 1</b>		
<b>Share capital</b>	39 493	39 493
Statutory reserves	24	24
<b>Retained earnings for the previous periods</b>	28 944	22 998
Profit for the reporting period	3 705	5 946
Dividends declared	0	-4 000
Changes on application of IFRS 9	2 652	1 885
Revaluation reserve – financial assets	122	28
Other reserves	-2074	-2378
Intangible assets	-550	-860
Other deductions	-63	-54
<b>Reduction of Tier 1 capital (Pillar 2 adjustments)</b>	-185	-56
<b>Additional Tier 1</b>	400	
<b>Total Tier 1</b>	<u>72 468</u>	<u>63 026</u>
<b>Subordinated debt</b>	3 333	9 799
Reduction of Tier 2 capital (Pillar 2 adjustments)	0	0
<b>Tier 2 capital</b>	<u>3 333</u>	<u>9 799</u>
<b>Equity</b>	<u>75 801</u>	<u>72 825</u>
<b>Risk-weighted value</b>		
Banking portfolio	428 186	368 362
Trading portfolio	6 817	31 800
Operating risk	44 938	57 851
Total risk exposure amount loan adjustment	8	14
<b>Total risk weighted assets</b>	<u>479 949</u>	<u>458 027</u>
<b>Total capital as a percentage of risk weighted assets (total capital ratio)</b>	<b>15.79%</b>	<b>15.90%</b>
<b>Total tier 1 capital expressed as a percentage of risk-weighted assets ("tier 1 capital ratio")</b>	<b>15.10%</b>	<b>13.76%</b>

The above is based on internal reports of the Bank, provided to key management of the Bank.

As at 31 December 2020, the Bank's capital adequacy ratio was 15.79% (2019: 15.90%) which corresponds to the requirements set in the Basel Capital Accord and the regulations of the FCMC of Latvia. Under the capital requirements introduced by Regulation (EU) No 575/2013 of the European Parliament and of the Council and the FCMC banks need to maintain a ratio of capital to risk weighted assets ("statutory capital ratio") above the prescribed minimum level. Although the minimum required level as at 31 December 2020 was 8%, according to a special request by the FCMC the Bank was required to ensure a higher capital adequacy of 10.20% during the period from 21 April 2020. In addition to the above capital requirement for the overall risk coverage, the Bank is required to maintain compliance with the total capital reserve requirement calculated in accordance with Section 35<sup>22</sup>, 35<sup>23</sup>, 35<sup>24</sup> or 35<sup>25</sup> of the Credit Institution Law -2.51% (Capital conservation buffer – 2.50%, institution-specific countercyclical capital buffer – 0.1% (as at 31.12.2020. The requirements of the total capital reserve should be met using Tier 1 capital.

During the years 2020 and 2019 as of 31 December of these years the Bank and the Group were in compliance with the capital adequacy and the minimum capital requirement specified in the Law On Credit Institutions and the rules of the FCMC, as well as in compliance with the higher ratio required by the FCMC.

In addition to the calculation of the capital adequacy ratio in accordance with 'Normative regulations on establishing a capital and liquidity adequacy assessment process' No. 209 of the FCMC, the Bank regularly conducts its own internal capital adequacy assessment in order to ensure that it covers all the risks assumed by the Bank and whether they are covered by the capital.

**Notes to the Group's Consolidated and the Bank's Separate Annual Report**

In accordance with Regulation (EU) of the European Parliament and of the Council 575/2013, the calculation of capital adequacy is performed at the consolidated level, including the parent company of the bank (AS BBG). All of the above requirements are also met at the consolidated level. CALCULATION OF CAPITAL ADEQUACY at the consolidated level can be found on the Bank's website in the section "financial information" in the quarterly financial report (<https://www.blueorangebank.com/lv/finansu-informacija>)

**45. FAIR VALUE OF FINANCIAL INSTRUMENTS****(a) Financial instruments measured at fair value**

The table below analyses financial instruments measured at fair value at the end of the reporting period, by the level in the fair value hierarchy into which the fair value measurement is categorised.

**The Group and the Bank**

<b>31 December 2020</b>	<b>Published price quotations (1)</b>	<b>Valuation techniques based on market observable inputs (2)</b>	<b>Valuation techniques based on unobservable inputs (3)</b>	<b>Total</b>

Derivatives	-	160	-	160
	-	<b>160</b>	-	<b>160</b>

**Notes to the Group's Consolidated and the Bank's Separate Annual Report**

Included in category "Published price quotations" (Level 1) are financial assets and liabilities that are measured by reference to published quotes in an active market. A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service or regulatory agency and those prices represent actual and regularly occurring market transactions on an arm's length basis. The main asset classes included in this category are financial assets for which the fair value is obtained via pricing vendors or binding broker quotes and assets for which the fair value is determined by reference to indices.

Included in category 2 "Valuation methods based on market observable data" are financial assets and liabilities that are measured using a valuation technique based on assumptions that are supported by prices from observable current market transactions in the same instrument or based on available market data.

Not based upon market observable (Level 3) input means that fair values are determined in whole or in part using a valuation technique (model) base on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

The following table shows the valuation techniques used in measuring Level 2 fair values:

Type	Valuation technique
Financial assets and liabilities designated as at fair value through profit or loss.	Market comparison technique: The fair values are based on broker quotes. Similar contracts are traded in an active market and the quotes reflect the actual transactions in similar instruments.
Financial assets measured at fair value through other comprehensive income	Valuation is based on financial indicators, including discounted cash flows and value of Bank's position with the price hedge

The following table shows the valuation techniques used in measuring Level 3 fair values:

Type	Valuation method	Significant unobservable inputs	Inter-relation between significant unobservable inputs and fair value measurement
Assets at fair value through profit or loss (illiquid bonds)	Valuation is based on financial indicators, including discounted cash flows.	Net assets	The estimated fair value would increase (decrease), if: Increase/(decrease) in net assets
Financial assets at fair value through profit or loss	Outlook of the court case and estimated proceeds	Court case's order	The estimated fair value would increase (decrease) if: Positive (negative) court case's order
Financial assets measured at fair value through other comprehensive income	Valuation is based discounted dividend model	Future net revenues; CAPEX	The estimated fair value would increase (decrease) if: revenue increases/ (decreases/ CAPEX decreases/ (increases)

**Notes to the Group's Consolidated and the Bank's Separate Annual Report****Changes in financial instruments of the Group/Bank classified as Level 3 in Fair Value Hierarchy:****31.12.2020**

<b>Financial assets at fair value</b>	<b>31.12.2019</b>	<b>Acquired (sold)</b>	<b>Fair value adjustment</b>	<b>31.12.2020</b>
Fixed income securities	8 143	(5 008)	-	3 135
Non fixed income securities	218	-	-	218
<b>Total financial assets at fair value</b>	<b>8 361</b>	<b>(5 008)</b>	<b>-</b>	<b>3 353</b>

**31.12.2019**

<b>Financial assets at fair value</b>	<b>31.12.2018</b>	<b>Acquired</b>	<b>Fair value adjustment</b>	<b>31.12.2019</b>

The following table shows the valuation techniques use in measuring Level 2 and Level 3 fair values, as well as the significant unobservable inputs used:

Type	Valuation method	Significant unobservable inputs
Loans and advances due from financial institutions	Discounted cash flows	Discount rates
Loans	Discounted cash flows	Discount rates
Due to financial institutions	Discounted cash flows	Discount rates
Deposits	Discounted cash flows	Discount rates

**46. EVENTS AFTER THE REPORTING PERIOD**

Other than disclosed in these financial statements, no significant subsequent events have occurred in the period from the reporting date to the date of these financial statements that would require adjustments to be made to these financial statements and disclosures added to the notes thereto.

In 4th quarter of 2020, the Financial and Capital Markets Commission carried out the regular review of the Bank's activities aimed at assessing the quality, adequacy and scope of the collective impairment models and the credit risk, as well as the methods used by the Bank to manage that risk, and assessing the compliance of the Bank's activities with the laws and regulations of the Republic of Latvia, the regulations of the European Union, the regulations, instructions and other regulatory enactments issued by the Bank of Latvia and the Commission. At the time of the preparation of the financial statements for the year 2020, the above-mentioned recommendations for improving the performance of the Bank were not yet received. Having received and reviewed the recommendations, the Bank will prepare and coordinate an action plan with the Financial and Capital Markets Commission in order to improve the performance of the Bank.

## Report of the Council and the Board

**AS BlueOrange Bank** (Bank) is a joint-stock company established on 22 June 2001 and entered into the Register of Enterprises of the Republic of Latvia under uniform registration No. 40003551060. The bank's address is Smilšu iela 6, Rīga, LV-1050, Republic of Latvia. On 8 June 2001, the Bank received a license for conducting the activities of a credit institution, which was re-registered on 28 June 2011 and on 14 September 2017 – license No. 06.01.05.002/483 at the license register of the FCMC. The Bank operates in accordance with the applicable legislation of the Republic of Latvia and the European Union.

The Group consists of the Bank, which is a Parent company of the Group and a number of subsidiaries. The business operations of the subsidiaries are not related to the functions of the Bank and they were set up to manage repossessed collaterals and real estate property.

### **The Bank successfully continues to provide financial and lending services to Latvian companies**

Restrictions imposed under the influence of the Covid-19 pandemic have been a serious challenge for the business sector for two years. But, despite the still existing difficulties in many industries, in 2021 there was already a stabilization of business and adjustment to changing circumstances. In the 20th year of its activity, the Bank successfully carried out its activities in a semi-remote mode, having also succeeded in implementing its business strategy and developing defined priorities.

According to audited data, the Bank ended 2021 with a profit of EUR 9.8 million (2020: EUR 3.7 million). The Bank's total operating income amounted to EUR 27 million (2020: EUR 20 million) during the reporting period. The Bank's equity amounted to EUR 79.4 million (2020: EUR 70.2 million). The Bank's total assets have increased by 22.9% or EUR 166 million, reaching EUR 893 million at the end of 2021 (2020: EUR 726 million).

At the end of 2021, the Bank's liquidity reached 90% (2020: 80%). Other key financial performance indicators of the Bank were successful as well – return on equity (ROE) 13.6% (2020: 5.5%) and return on assets (ROA) 1.2% (2020: 0.6%).

In 2021, the Bank purposefully continued to work in its strategic priority business line — servicing and financing of businesses, which was also demonstrated by the increase in lending: at the end of the year, the total loan portfolio was EUR 344 million, which represents a 14% increase compared to the previous year. Out of that, new loans issued in 2021 amounted to EUR 134 million, which resulted in a 30% increase of lending income compared to the previous year. 90% of loans issued during the reporting period were granted to Latvian and Baltic companies. Thus, the Bank has contributed to both the development of individual industries and the acquisition of new export markets, as well as the use of new business opportunities during this difficult period for the economy of Latvia. It should be noted that the Bank's loan portfolio already contains several sustainable projects aimed at protecting the environment and climate.

Appreciating the role of small and medium-sized enterprises in the recovery and growth of the Latvian economy, the Bank continued to develop its SME lending program for this business segment, ensuring the availability of financial resources. SME lending accounted for 86% of the Bank's total lending in 2021. Of these, several projects were implemented in successful cooperation with the state-owned development finance institution ALTUM.

The Bank focused on improving financial services for legal entities, which resulted in 33% increase of the number of domestic clients – legal entities. At the end of the reporting period, the share of clients based in Latvia, Baltic States and Europe in the total client portfolio accounted for 98%.

**Report of the Council and the Board**

The provision of digital services under various restrictions over the past year has proved to be an important factor in serving clients. Targeted introduction of new technologies with an emphasis on offering online services gave the Bank certain advantages. Since July 2021, the Bank ensures opening of business accounts remotely for both domestic entrepreneurs and companies registered in the countries of the European Economic Area, as well as in Switzerland and the UK. Thus, BlueOrange is the first bank in Latvia to provide businesses with an opportunity to open a current account with improved identification options and on such a wide geographical scale. Remote deposits solutions are also available, making the Bank's financial services even more accessible and convenient.

In this regard, we can say that the Bank continues to strengthen its position in the market, increase the number of corporate clients and strengthen its potential as a financial institution.

Last year, the Bank continued to cooperate with a number of European fintech companies and payment institutions, expanding the range of partners and sources of deposits. Thanks to effective cooperation with deposit platforms and diversification of funding sources, the Bank reduced interest expenses on deposits by 15%, while increasing the amount of term deposits.

In 2021, the Bank started actively offering corporate clients risk hedging services using derivatives. Since the Bank has long-term successful cooperation with companies in various industries, whose activities are subject to adverse fluctuations in the prices of the company's manufactured or marketed products or raw materials, the Bank offers a solution, helping to develop an appropriate strategy for limiting price risks. This helps to reduce the company's dependence on the global market conditions, maintain the level of margins and more successful development of the company.

During the reporting period, significant investments were made in improving e-commerce processes. With the development of the new payment system, the Bank considerably increased its competition in acquiring payment cards online, which contributed to a 46% increase in the number of e-commerce clients.

To increase the quality of customer service and the efficiency of the Bank's operation, a new incoming call centre system was introduced last year, while legal entities now have their own online cabinet.

In 2021, the Bank continued to prioritise all risk management and compliance issues. The Bank continued improving its internal processes and information systems in the area of risk management for the prevention of money laundering and terrorism and proliferation financing and sanctions risk management, meanwhile improving its client transaction monitoring and due diligence procedures. During the reporting period, substantial resources were allocated to the improvement and control of internal processes, such as credit risk management and asset quality assessment, as well as the introduction of the latest versions of AML/CFTP systems is continuously ongoing.

At the end of last year, the FCMC, in accordance with the Law on Credit Institutions, named institutions that correspond to the status of "other systemically important financial institutions" in the area of finance in Latvia, including BlueOrange Bank in this list. This means that the Bank has achieved a significant level in its growth through its targeted work and investment in the Latvian financial market. At the same time, this high rating also imposes additional requirements on the Bank, introduction of stricter norms and criteria, which is a necessary factor for the future growth of the Bank.

Considering the fact that maintaining lending rates is an essential instrument for warming up the national economy, the Bank, in line with its business strategy, will retain funding for domestic companies as a priority also in 2022, with a particular focus on projects aimed at reducing environmental impacts, green energy, development of environmentally friendly materials, recycling and other solutions, following the common objective in the context of European climate change and energy efficiency.

**Report of the Council and the Board**

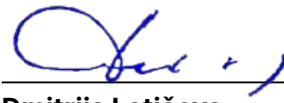

As at issuance of the annual report the Board proposes to distribute part of the profit amounting to EUR 3.5 million as dividends and the rest to keep as retained earnings to strengthen the capital position of the Group.

On behalf of the Bank,

---

**Aleksandrs Peškova**  
*Chairman of the Council*

---

**Dmitrijs Latiševs**  
*Chairman of the Board*

## Statement of the Management's responsibility

The Management of AS BlueOrange Bank (hereinafter – the “Bank”) is responsible for the preparation of the consolidated financial statements of the Bank and its subsidiaries (hereinafter – the “Group”) as well as for the preparation of the financial statements of the Bank.

The Group's consolidated and the Bank's separate financial statements are prepared in accordance with International Financial Reporting Standards as adopted by the European Union on a going concern basis. Appropriate accounting policies have been applied on a consistent basis. Prudent and reasonable judgements and estimates have been made by the Management in the preparation of the Group's consolidated and the Bank's separate financial statements.

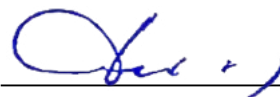

The Group's consolidated and the Bank's separate financial statements on pages 15 to 104 are prepared in accordance with the source documents and present fairly the financial position of the Group as at 31 December 2021 and the consolidated results of its operations and cash flows for the year then ended, as well as the financial position of the Bank as at 31 December 2021 and the results of its operations and cash flows for the year ended 31 December 2021.

The management of the Bank is responsible for the maintenance of a proper accounting system, safeguarding the Group's and the Bank's assets, and the detection and prevention of fraud and other irregularities in the Group and the Bank. Management is also responsible for operating the Group and the Bank in compliance with the Law on Credit Institutions, regulations of the Finance and Capital Market Commission and other legislation of the Republic of Latvia applicable to credit institutions.

On behalf of the Bank,

**Aleksandrs Peškova**  
*Chairman of the Council*

**Dmitrijs Latiševs**  
*Chairman of the Board*

3 March 2022

## Independent Auditor's Report

To the Shareholder of AS BlueOrange Bank

### Report on the audit of the separate and consolidated financial statements

---

#### Our opinion

In our opinion, the separate and consolidated financial statements set out on pages 15 to 104 of the annual report give a true and fair view of the separate and consolidated financial position of AS "BlueOrange Bank" (the "Bank") and its subsidiaries (together the "Group") as at 31 December 2021, and their separate and consolidated financial performance and their separate and consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards as adopted by the European Union.

Our opinion is consistent with our additional report to the Audit Committee dated 3 March 2022.

#### What we have audited

The financial statements, which consist of the separate financial statements of the Bank and the consolidated financial statements of the Group (together "the financial statements") comprise:

- the Group's Consolidated and the Bank's Separate Income Statements for the year ended 31 December 2021;
- the Group's Consolidated and the Bank's Separate Statements of Other Comprehensive Income for the year ended 31 December 2021;
- the Group's Consolidated and the Bank's Separate Statements of Financial Position as at 31 December 2021;
- the Group's Consolidated Statement of Changes in Shareholders' Equity for the year then ended;
- the Bank's Separate Statement of Changes in Shareholders' Equity for the year then ended;
- the Group's Consolidated and the Bank's Separate Statements of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

#### Basis for opinion

---

We conducted our audit in accordance with International Standards on Auditing adopted in the Republic of Latvia (ISAs). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Independence

We are independent of the Bank and the Group in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (IESBA Code) and the ethical requirements of the Law on

PricewaterhouseCoopers SIA

Kr. Valdemāra iela 21-21, Rīga, LV-1010, Latvia, LV40003142793

Translation note: This version of our report is a translation from the original, which was prepared in Latvian. All possible care has been taken to ensure that the translation is an accurate representation of the original. However, in all matters of interpretation of information, views or opinions, the original language version of our report takes precedence over this translation.

Audit Services that are relevant to our audit of the financial statements in the Republic of Latvia. We have fulfilled our other ethical responsibilities in accordance with the IESBA Code and the ethical requirements of the Law on Audit Services.

To the best of our knowledge and belief, we declare that non-audit services that we have provided to the Bank, its parent company and subsidiaries are in accordance with the applicable law and regulations in the Republic of Latvia and that we have not provided non-audit services that are prohibited under Article 37.6 of Law on Audit Services of the Republic of Latvia.

The non-audit services that we have provided to the Bank, its parent company and subsidiaries, in the period from 1 January 2021 to 31 December 2021, are disclosed in Note 11 to the financial statements.

## Our audit approach

### Overview

- Overall Bank and Group materiality: EUR 700 thousand, which represents approximately 1% of net assets of the Bank and the Group.
- We have audited the separate financial statements of the Bank.
- We have performed selected audit procedures over the significant balances and transactions of subsidiaries.
- Our audit scope covered substantially all of the Group's revenues and substantially all of the Group's total assets.
- Expected credit losses on loans (Group and Bank)

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we considered where management made subjective judgements; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters, consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

### Materiality

The scope of our audit was influenced by our application of materiality. An audit is designed to obtain reasonable assurance whether the financial statements are free from material misstatement. Misstatements may arise due to fraud or error. They are considered material if individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

Based on our professional judgement, we determined certain quantitative thresholds for materiality, including the overall Bank and Group materiality separately for the separate and consolidated financial statements as a whole as set out in the table below. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures

Translation note: This version of our report is a translation from the original, which was prepared in Latvian. All possible care has been taken to ensure that the translation is an accurate representation of the original. However, in all matters of interpretation of information, views or opinions, the original language version of our report takes precedence over this translation.

and to evaluate the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

---

<b>Overall materiality</b>	Overall materiality applied to the Bank and the Group was EUR 700 thousand.
<b>How we determined it</b>	Approximately 1% of the Bank's and the Group's net assets at 31 December 2021.
<b>Rationale for the materiality benchmark applied</b>	<p>We chose net assets as the benchmark because net assets, in our view, is the benchmark which is of primary focus by the users of the financial statements and forms the basis for capital adequacy for regulatory purposes.</p> <p>We chose the threshold of 1%, which is within the range of accepted quantitative materiality thresholds for this benchmark.</p>

---

We agreed with the Audit Committee that we would report to them misstatements identified during our audit above EUR 35 thousand, as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

#### **Key audit matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Translation note: This version of our report is a translation from the original, which was prepared in Latvian. All possible care has been taken to ensure that the translation is an accurate representation of the original. However, in all matters of interpretation of information, views or opinions, the original language version of our report takes precedence over this translation.

Key audit matter

How our audit addressed the key audit matter

*Expected credit losses on loans (Group and Bank)*

Refer to Note 19 "Loans and receivables" to the financial statements.

We focused on this area because application of IFRS 9 "Financial instruments" expected credit loss (ECL) model for loans impairment losses requires complex and subjective judgements over both timing of recognition of expected credit losses and their extent.

The key features of the ECL model include classification of loans to 3 stages, assessment of credit risk parameters and application of forward-looking information. The amount of expected credit losses for the Group's and the Bank's loans is based on the model calculations taking into consideration the exposure at default, probability of default, changes in customer credit rating, other known risk factors impacting stage of each exposure, and taking into account estimated future cash flows from the loan repayments or sale of collateral (loss given default), and ECL adjustments by expected impact of future macroeconomic scenarios.

For all loans in Stage 1 and 2 and insignificant loans in Stage 3 the expected credit losses are calculated using the ECL model, while for significant exposures in Stage 3 an expert credit judgement is applied to determine if the ECL calculated in accordance with the model needs to be adjusted.

As at 31 December 2021 expected credit losses amounted to EUR 4 114 thousand at the Group and the Bank (refer to Note 19).

We assessed whether the Group's and the Bank's accounting policies in relation to the ECL of loans to customers are in compliance with IFRS 9 by assessing each significant model component: exposure at default, probability of default and loss given default, definitions of default and significant increase in credit risk, use of macroeconomic scenarios.

We assessed the design and operating effectiveness of the controls over relevant loan data and ECL calculations. These controls included controls over authorization for loan origination, recording of loans data in the system, the non-retail loans credit file periodic review and related credit rating assessment, a timely transfer into overdue accounts and correctness overdue days calculation, appropriate classification into individual or collective assessment, staging assessment. We determined that we could rely on these controls for the purpose of our audit. We also reconciled of the source data used in the calculation PD.

Further, we performed detailed testing over reliability of loan data, including contract dates, interest rates, collateral values and types, performing/ non-performing status and other inputs used in ECL calculation. For a sample of loans we evaluated reasonableness of assumptions made by credit expert in scenarios for individually assessed loans to legal entities. We have verified the rationale of these adjustments and also verified the reasonableness of the values of collaterals used in the assessment of the adjustments. We analysed PD and LGD applied by the Group and the Bank. We involved auditor's expert to assess ECL model and recalculate the final credit loss allowance for loans and advances to legal entities assessed on collective basis.

We reviewed a selection of loans from COVID-19 affected industries to evaluate reasonableness of staging as at 31 December 2021. We also reviewed and assessed the post-model expert credit adjustments applied as at 31 December 2021.

Finally, we have reviewed the credit risk disclosures.

### **How we tailored our Group audit scope**

We tailored the scope of our audit in order to perform sufficient work to enable us to provide an opinion on the consolidated financial statements as a whole, taking into account the structure of the Group, the accounting processes and controls and the industry in which the Group operates.

The Group engagement team carried out audit work on the Bank's financial statements and performed selected audit procedures over the significant balances and transactions of other subsidiaries. Our audit work addressed substantially all of the Group's revenues and the Group's total assets. Audit services for separate and consolidated financial statements was performed by Group's auditors, component auditors were not engaged.

### **Reporting on other information including the Report of the Council and the Board**

Management is responsible for the other information. The other information comprises:

- Report of the Council and the Board, as set out on pages 3 to 5 of the accompanying Annual Report;
- information on Council and Board of the Bank, as set out on page 6 of the accompanying Annual Report; and
- Statement of Management's Responsibility, as set out on page 7 of the accompanying Annual Report,

but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information identified above, including the Report of the Council and the Board, information on Council and Board and the Statement of Management's Responsibilities.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

With respect to the Report of the Council and the Board, we also performed the procedures required by Law on Audit Services of the Republic of Latvia and the Financial and Capital Market Commission Regulation No. 113 "Regulation on preparation of the annual report and consolidated annual report of credit institutions, investment brokerage companies and investment management companies". Those procedures include considering whether the Report of the Council and the Board is prepared in accordance with the requirements of the applicable legislation.

Based on the work undertaken in the course of our audit, in our opinion:

- the information given in the Report of the Council and the Board and information on Council and Board for the financial year for which the financial statements are prepared is consistent with the financial statements;
- the Report of the Council and the Board has been prepared in accordance with the requirements of the Financial and Capital Market Commission Regulation No 113 "Regulation on preparation of the annual report and consolidated annual report of credit institutions, investment brokerage companies and investment management companies".

In addition, in light of the knowledge and understanding of the Bank and the Group and their environment obtained in the course of the audit, we are required to report if we have identified material misstatements in this other information that we obtained prior to the date of this auditor's report. We have nothing to report in this respect.

Translation note: This version of our report is a translation from the original, which was prepared in Latvian. All possible care has been taken to ensure that the translation is an accurate representation of the original. However, in all matters of interpretation of information, views or opinions, the original language version of our report takes precedence over this translation.

## Responsibilities of management and those charged with governance for the financial statements

Management is responsible for the preparation of the financial statements that give a true and fair view in accordance with International Financial Reporting Standards as adopted by the European Union and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Bank's and the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Bank's and the Group's financial reporting process.

## Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's and the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's and the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank or the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Translation note: This version of our report is a translation from the original, which was prepared in Latvian. All possible care has been taken to ensure that the translation is an accurate representation of the original. However, in all matters of interpretation of information, views or opinions, the original language version of our report takes precedence over this translation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## Report on other legal and regulatory requirements

### Appointment

We were first appointed as auditors by the Bank's shareholders' resolution on 28 November 2018. Our appointment has been renewed annually by shareholders' resolution representing a total period of uninterrupted engagement appointment of 4 years.

PricewaterhouseCoopers SIA

AS BlueOrange Bank, as a parent company, is responsible for establishing the structure and corporate governance system of the Group with clearly defined duties and responsibilities and adequate supervision of subsidiaries. There is a Council (composed of two members of the Council) and a Board (composed of one member of the Board) established in AS Pils Pakalpojumi. The Boards of other subsidiaries of the Bank consist of one Board member or one elected director. No significant changes have occurred in the corporate governance structure and operations of the Group and its companies, compared to the previous reporting period.

## Investments in associated companies (the Group):

Company	Country of incorporation, address	Line of business	Holding	Holding
			(%) 31.12.2021	(%) 31.12.2020
AS Termo biznesa Centrs	Kr. Valdemāra iela 149, Rīga, Latvia	Real estate development	26.15	26.15

## 2. BASIS OF PREPARATION

### (1) Statement of Compliance

The financial statements of the Bank and the Group ("financial statements") have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union, and regulations of the Financial and Capital Market Commission of the Republic of Latvia ('FCMC') in force as at 31 December 2021.

The Group's consolidated and the Bank's separate financial statements were authorized for issue by the Board on 3 March 2022. Shareholders have the power to reject the financial statements prepared and issued by the management and the right to request that new financial statements are issued.

### (2) Functional and presentation currency

These consolidated and separate financial statements are presented in thousands of euros ('000 EUR), unless stated otherwise. Subsidiaries of the Group and the Bank operate in the functional currency of euro and bulgarian lev.

### (3) Basis of measurement

The Group's consolidated financial statements and the Bank's separate financial statements are prepared on the historical cost basis, except for the following:

- financial instruments at fair value through profit or loss are stated at fair value;
- derivative financial instruments are stated at fair value;
- financial instruments at fair value through other comprehensive income (FVOCI) are valued at fair value;
- repossessed collaterals are recognised at lower of its carrying amount and fair value less cost to sell.

## 3. SIGNIFICANT ACCOUNTING POLICIES

The following significant accounting policies have been applied in the preparation of these Group's Consolidated and the Bank's Separate Financial Statements. The accounting principles have been consistently applied, except for the changes in accounting policies.

### (1) Basis for consolidation

#### (i) Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

Investments in subsidiaries are carried in the Bank's separate financial statements at cost less impairment, if any.

**(ii) Loss of control**

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related non-controlling interest and other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured by the Group at fair value when control is lost.

**(iii) Interest in equity-accounted investees**

The Group's interests in equity accounted investees comprise interests in associates.

Associates are those entities in which the Group has significant influence, but not control or joint control, over the financial and operating policies.

Investments in associates are accounted for in the Group's consolidated financial statements using the equity method. The Bank ensures the appropriate adjustments are made in the associate's financial information to align the accounting policies with those used by the Group before equity method of accounting is applied. They are initially recognised at cost, including transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of the profit or loss and OCI in equity-accounted investees, until the date on which significant influence or joint control ceases.

Investments in associates are carried in the Bank's separate financial statements at cost less impairment, if any.

**(iv) Transactions eliminated on consolidation**

Intra-group balances and transactions, and any unrealised gains arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Unrealised gains arising from transactions with equity-accounted investees are eliminated to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

**(v) Group's unified accounting policy**

In the preparation of the consolidated financial statements, the financial statements of those Group entities that use different accounting policies are adjusted to conform with the Group's accounting policy.

**(2) Foreign currency**

Transactions in foreign currencies are translated into the respective functional currencies of the Group companies at the exchange rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated into the functional currency at the spot exchange rate at that date. The foreign currency gain or loss on monetary items is the difference between amortized cost in the functional currency at the beginning of the period, adjusted for effective interest and payments during the period, and the amortized cost in foreign currency translated at the exchange rate at the end of the period.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated into the functional currency at the spot exchange rate at the date that the fair value was determined. Foreign currency differences arising on retranslation are recognized in the income statement.

The exchange rates for the most significant currencies as set by the European Central Bank at reporting date are as follows:

	<b>31 December 2021</b>	<b>31 December 2020</b>
USD	1.1326	1.2271

*Foreign operations*

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated into EUR at exchange rates set by the European Central Bank at the reporting date. The income and expenses of foreign operations are translated into the functional currency at the exchange rates of transaction dates.

Foreign currency differences are recognized in other comprehensive income and accumulated in the translation reserve, except to the extent that the translation difference is allocated to non-controlling interest.

Foreign exchange gains or losses arising from a monetary item receivable from or payable to a foreign operation, the settlement of which is neither planned nor likely to occur in the foreseeable future and which in substance is considered to form part of the net investment in the foreign operation, are recognized in other comprehensive income and accumulated in the translation reserve.

**(3) Financial instruments****a) Classification**

**Financial instruments are classified into the following categories:**

**A financial asset is measured at amortized cost** if it meets both of the following conditions and is not designated as at fair value through profit or loss (FVTPL):

- It is held within a business model whose objective is to hold assets to collect contractual cash flows, and
- Its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

**A financial asset is measured at fair value through other comprehensive income (FVOCI)** only if it meets both of the following conditions and is not designated as at FVTPL:

- It is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets, and
- Its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All financial assets not classified as measured at amortized cost or FVOCI as described above are measured at fair value through profit or loss (FVTPL). IFRS 9 also allows entities to irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or FVOCI as FVTPL, if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

On initial recognition, an equity instrument other than held for trading, may be irrevocably designated as FVOCI, with no subsequent reclassification of profit or losses to the income statement.

**Financial liabilities carried at amortised cost** represent financial liabilities of the Group and the Bank other than financial instruments designated at fair value through profit or loss. This category includes investment securities, deposits and balances due to credit institutions, customer deposits, issued debt securities and other financial liabilities.

Financial liabilities carried at amortized cost are initially measured at fair value less directly attributable transaction costs and are subsequently remeasured to amortized cost using the effective interest rate.

*Due from other credit institutions*

Demand deposits with central banks, and placements with credit institutions are classified as financial assets measured at amortised cost, provided that the following criteria are met:

- they are held within the business model, which aim is achieved by collecting contractual cash flows ("Held to collect" business model);

## Notes to the Group's Consolidated and the Bank's Separate Financial Statements

- their contractual cash flows represent solely payments of principal and interest on outstanding principal
- the Group does not designate them on initial recognition to fair value through profit or loss measurement category.

### Business model assessment

The Group and the Bank made an assessment of the objective of the business model in which a financial asset is held at portfolio level because this best reflects the way the business is managed and information is provided to management. The information that is considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice, including whether management's strategy focuses on earning contractual interest revenue, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of the liabilities that are funding those assets or realising cash flows through the sale of assets;
- how the performance of the portfolio is evaluated and reported to the Bank's and the Group's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- the frequency, volume and timing of sales in prior periods, the reasons for such sales and expectations about future sales activity. However, information about sales activity is not considered in isolation, but as part of an overall assessment of how the Group's and the Bank's stated objective for managing the financial assets is achieved and how cash flows are realised.

Financial assets that are held for trading and those that are managed and whose performance is evaluated on a fair value basis are measured at FVTPL because they are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

### Solely payments of principal and interest (SPPI) assessment

Classification for debt instruments is driven by the group business model for managing the financial assets and whether the contractual cash flows represent solely payments of principal and interest (SPPI). If a debt instrument is held to collect, it may be carried at amortised cost if it also meets the SPPI requirement. Debt instruments that meet the SPPI requirement that are held in a portfolio where an entity both holds to collect cash flows and sells assets it may be classified as FVOCI.

Making SPPI assessment, the Group and the Bank considers whether the contractual cash flows are consistent with a basic lending arrangement i.e. interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at fair value through profit or loss.

### b) Recognition

The Group and the Bank initially recognize loans and advances, deposits, debt securities issued and subordinated liabilities on the date at which they are originated. Regular way purchases and sales of financial assets are recognized on the settlement date at which the Group and the Bank commits to purchase or sell the asset. All other financial assets and liabilities (including assets and liabilities designated at fair value through profit or loss) are initially recognized on the trade date at which the Group and the Bank becomes a party to the contractual provisions of the instrument.

**c) Measurement**

A financial asset or financial liability is initially measured at fair value plus transaction costs that are directly attributable to acquisition of the financial asset or liability, in the case of a financial asset or liability other than measured at fair value through profit or loss.

Subsequent to initial recognition, all financial assets and liabilities measured at fair value through profit or loss and all financial assets measured at FVOCI are measured at fair value.

All financial liabilities other than those measured at fair value through profit or loss and financial assets other than those measured at FVTPL or FVOCI are measured at amortized cost using the effective interest rate method.

A gain or loss arising from a change in the fair value of a financial asset or liability is recognised as follows:

- a gain or loss on a financial asset classified as at fair value through profit or loss is recognised in profit or loss;
- a gain or loss on debt securities classified as at fair value through other comprehensive income is recognised in fair value reserve through other comprehensive income (except for impairment losses and foreign exchange gains or losses on monetary assets) until the asset is derecognised, at which time the cumulative gain or loss previously recognised in equity is recognised in profit or loss. Interest in relation to debt securities classified as at fair value through other comprehensive income is recognised as earned in profit or loss (net interest income) calculated using the effective interest method.
- equity investments classified at fair value through other comprehensive income are subsequently measured at fair value. Dividends are recognised as income in profit or loss. Other net gains and losses are recognised in other comprehensive income and are never reclassified to profit or loss.

For financial assets and liabilities carried at amortised cost, a gain or loss is recognised in profit or loss when the financial asset or liability is derecognised including the instances where the terms change substantially or impaired.

**d) Amortized cost measurement**

The amortized cost of a financial asset or liability is the amount at which the financial asset or liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortization using the effective interest method, minus any reduction for impairment.

The effective interest rate is a method of calculating the amortized cost of a financial asset or liability, which is based on the recognition of interest income and expenses over a specific period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability. When calculating the effective interest rate, the management estimates cash flows considering all contractual terms of the financial instrument but does not consider future losses. The calculation includes all fees paid or received between parties to the contract that are an integral part of the effective interest rate, transaction costs, and all other premiums or discounts.

**e) Derecognition**

**A financial asset** (or, where applicable a part of a financial asset or a part of a group of similar financial assets) **is derecognised** when:

- the rights to receive cash flows from the asset have expired; or
- the Group and the Bank have transferred the rights to receive cash flows from the asset, or retained the right to receive cash flows from the asset, but have assumed an obligation to pay them in full without material delay to a third party under a 'pass-through' arrangement; and
- the Group and the Bank either (a) have transferred substantially all the risks and rewards of the asset, or (b) have neither transferred nor retained substantially all the risks and rewards of the asset, but have transferred control of the asset.

When the Group and the Bank has transferred the rights to receive cash flows from an asset or has entered into a pass-through arrangement and have neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognised to the extent of the Group's and the Bank's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group and the Bank could be required to repay.

Where continuing involvement takes the form of a written and/or purchased option (including a cash-settled option or similar provision) on the transferred asset, the extent of the Group's and the Bank's continuing involvement is the amount of the transferred asset that the Group and the Bank may repurchase, except that in the case of a written put option (including a cash-settled option or similar provision) on an asset measured at fair value, the extent of the Group's and the Bank's continuing involvement is limited to the lower of the fair value of the transferred asset and the option exercise price.

**Financial assets – write-off.** Financial assets are written-off, in whole or in part, when the Group and the Bank exhausted all practical recovery efforts and has concluded that there is no reasonable expectation of recovery. The write-off represents a derecognition event. The Group and the Bank may write-off financial assets that are still subject to enforcement activity when the Group and the Bank seeks to recover amounts that are contractually due, however, there is no reasonable expectation of recovery.

**Financial assets – modification.** The Group and the Bank sometimes renegotiates or otherwise modifies the contractual terms of the financial assets. The Group and the Bank assesses whether the modification of contractual cash flows is substantial considering, among other, the following factors: any new contractual terms that substantially (if cash flows differs more than 10%) affect the risk profile of the asset (e.g. profit share or equity-based return), significant change in interest rate, change in the currency denomination, new collateral or credit enhancement that significantly affects the credit risk associated with the asset or a significant extension of a loan when the borrower is not in financial difficulties.

If the modified terms are substantially different, the rights to cash flows from the original asset expire and the Group and the Bank derecognises the original financial asset and recognises a new asset at its fair value. The date of renegotiation is considered to be the date of initial recognition for subsequent impairment calculation purposes, including determining whether a SICR has occurred. The Group and the Bank also assesses whether the new loan or debt instrument meets the SPPI criterion. Any difference between the carrying amount of the original asset derecognised and fair value of the new substantially modified asset is recognised in profit or loss, unless the substance of the difference is attributed to a capital transaction with owners.

In a situation where the renegotiation was driven by financial difficulties of the counterparty and inability to make the originally agreed payments, the Group and the Bank compares the original and revised expected cash flows to assets whether the risks and rewards of the asset are substantially different as a result of the contractual modification. If the risks and rewards do not change, the modified asset is not substantially different from the original asset and the modification does not result in derecognition. The Group and the Bank recalculates the gross carrying amount by discounting the modified contractual cash flows by the original effective interest rate (or credit-adjusted effective interest rate for POCI financial assets), and recognises a modification gain or loss in profit or loss.

**A financial liability** is derecognised when the obligation under the liability is discharged or cancelled or expires.

When the contractual cash flows of a financial assets are substantially modified, such a modification is treated as a derecognition of the original assets and the recognition of a new financial asset, and the difference in respective carrying amounts is recognised in the income statement. In the case of financial asset modification, which does not lead to derecognition, the Group and the Bank recalculates the gross carrying amount of the financial asset and recognises a modification gain or loss.

Where an existing financial liability is replaced by another from the same lender on substantially different terms, or when the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in the income statement.

#### **f) Offsetting**

Financial assets and liabilities are set off and the net amount presented in the statement of financial position when, and only when, the Group and the Bank have a legal right to set off the amounts and intend either to settle on a net basis or to realize the asset and settle the liability simultaneously.

Income and expenses are presented on a net basis only when permitted by the accounting standards, or for gains and losses arising from a group of similar transactions such as in the trading activity.

### **(4) Identification and measurement of impairment of financial assets**

#### **Identification and measurement of impairment:**

The Group and the Bank recognize an allowance for expected losses for all loans and other debt financial assets not held at FVPL, together with loan commitments and financial guarantee contracts.

IFRS 9 requires a loss allowance to be recognized at an amount equal to either 12-month ECLs or lifetime ECLs. Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument, whereas 12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date.

The Group and the Bank recognize loss allowances at an amount equal to lifetime ECLs (Stage 2 and Stage 3 instruments), except financial instruments for which credit risk has not increased significantly since initial recognition, for which the amount recognized will be the 12-month ECLs (Stage 1 instruments).

Accordingly, the Bank and the Group have established a policy to perform an assessment at the end of each reporting period as to whether a given asset's credit risk has increased significantly since initial recognition. When determining whether the credit risk on a financial instrument has increased significantly since initial recognition, the Bank and the Group consider reasonable and supportable information that is relevant and available without undue cost or effort, including both quantitative and qualitative information and analysis based on the Bank's and the Group's historical experience and forward-looking information. The Bank and the Group primarily identify whether a significant increase in credit risk has occurred for an exposure by comparing the remaining lifetime probability of default (PD) as at the reporting date, with the remaining lifetime PD for this point in time that was estimated on initial recognition of the exposure.

Significant assets are tested for impairment on an individual basis, while for insignificant assets a collective assessment is performed. The collective assessment is based on probabilities of default (PD) obtained from the statistical data for the different type of loans and borrowers, adjusted by several macro factors in order to include forward-looking information. For the individual assessment the Bank and the Group estimate ECLs based on a probability-weighted estimate of the present value of all cash shortfalls over the remaining expected life of the financial asset, i.e. the difference between: the contractual cash flows that are due to the Bank and the Group under the contract, and the cash flows that they expect to receive, discounted at the effective interest rate of the loan.

The Bank and the Group have grouped their loans into Stage 1, Stage 2 and Stage 3, based on the applied impairment methodology, as described below:

- Stage 1 – Performing loans: when loans are first recognized, the Bank and the Group recognize an allowance based on twelve months expected credit losses.
- Stage 2 – Loans with a significant increase in credit risk: when a loan shows a significant increase in credit risk since initial recognition, the Bank and the Group recognize an allowance for the lifetime expected credit loss.

In addition, a significant increase in credit risk is assumed to have taken place, if an alarm signal is reported concerning the loan that indicates a significant increase in credit risk, the Bank and the Group expect to grant the borrower forbearance or when forbearance measures have already taken place, or the facility is included in watch list, and if the borrower falls more than 30 days past due in making its contractual payments. The Bank has joined the moratorium announced by the Finance Latvia Association on deferring principal loan payments for both legal and natural persons. The granting of relief under the conditions of the moratorium was not considered as a significant indication of an increased credit risk, unless other indications were identified.

- Stage 3 – Impaired loans: Financial assets are recognized in Stage 3 when there is objective evidence that the loan is impaired. This category includes non-performing loans (also defaulted) and loans in the process of recovery. A loan is considered as defaulted, if it is clear that borrower will not be able to fulfil his obligations to the Bank without any additional measures like realisation of collateral, or if the borrower falls more than 90 days past due in making its contractual payments. The lifetime expected credit losses are recognized for these loans and in addition, the Bank and the Group accrue interest income on the amortised cost of the loan net of allowances.

The Bank and the Group recognize impairment for FVOCI debt securities as applicable, depending on whether they are classified as Stage 1, 2 or 3, as explained above. However, the expected credit losses will not reduce the carrying amount of these financial assets in the statements of financial position, which shall remain to be stated at fair value. Instead, an amount equal to the allowance that would arise if the assets were measured at amortised cost will be recognized in OCI as an accumulated impairment amount, with a corresponding charge to profit or loss.

For financial guarantee contracts, the Bank and the Group estimate their lifetime ECLs based on the present value of the expected payments to reimburse the holder for a credit loss that is incurred less any amounts that the guarantor expect to recover from the holder, the debtor or any other party. For other off-balance sheet loan commitments (credit lines, overdrafts) ECL is estimated similarly to on-balance sheet instruments, applying the certain conversion factor, which is calculated based on historical data of usage of such facilities.

#### **Limitation of estimation techniques**

The models applied by the Bank and the Group may not always capture all characteristics of the market at a point in time as they cannot be recalibrated at the same pace as changes in market conditions. Interim adjustments are expected to be needed until the base models are updated. Although the Bank and the Group use data that are as current as possible, models used to calculate ECLs are based on data that are one year in arrears and adjustments will be made for significant events occurring prior to the reporting date. The Bank's management has developed an off-model estimate, taking into account the changes in the GDP during the first nine months of the year 2020, which increased the PD, respectively.

#### **(5) Fair value measurement**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal, or in its absence, the most advantageous market to which the Group and the Bank has access at that date. The fair value of a liability reflects its non-performance risk.

The methods described below have been used for the determination of fair values.

The best evidence of the fair value of a financial instrument at initial recognition is the transaction price, i.e., the fair value of the consideration given or received, unless the fair value of that instrument is evidenced by comparison with other observable current market transactions with the same instrument or based on a valuation technique whose variables include only data from observable markets. When transaction price provides the best evidence of fair value at initial recognition, the financial instrument is initially measured at the transaction price and any difference between this price and the value initially obtained from a valuation model is subsequently recognized in the profit and loss statement depending on the individual facts and circumstances of the transaction but not later than when the valuation is supported wholly by observable market data or the transaction is closed out.

When available, the Group and Bank measure the fair value of an instrument using quoted prices in an active market for that instrument. A market is regarded as 'active' if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

If a market for a financial instrument is not active, the Group and the Bank determine fair value using a valuation technique. Valuation techniques include recent arm's length transactions between knowledgeable, willing parties (if available), reference to the current fair value of other instruments that are substantially the same, discounted cash flow analyses and option pricing models. The chosen valuation technique makes maximum use of market inputs, relies as little as possible on estimates specific to the Group and the Bank, incorporates all factors that market participants would consider in setting a price, and is consistent with accepted economic methodologies for pricing financial instruments.

Where third-party information, such as broker quotes or pricing services, are used to measure fair value, the Group and the Bank assesses and documents the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of IFRS. This includes:

- Verifying that equity broker or pricing service is approved by the Group and Bank for use in pricing the relevant type of financial instrument;
- Understanding how the fair value has been arrived at and the extent to which it represents actual market transactions;
- When prices for similar instruments are used to measure fair value, how these prices have been adjusted to reflect the characteristics of the instrument subject to measurement;

Fair value is classified into different levels of the fair value hierarchy based on the inputs used in the measurement techniques:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability might be categorized in different levels of the fair value hierarchy, the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group and the Bank recognize transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. The Group and the Bank recognizes transfers between levels of the fair value hierarchy as of the end of the reporting period during which the change has occurred. For further analysis of the basis for fair value refer to Note 45.

Assets and long positions are measured at a bid price; liabilities and short positions are measured at an asking price. Where the Group and the Bank has positions with offsetting risks, mid-market prices are used to measure the offsetting risk positions and a quoted bid or asking price adjustment is applied only to the net open position as appropriate. Fair values reflect the credit risk of the instrument and include adjustments to take account of the provisions of the instrument. Fair value estimates obtained from models are adjusted for any other factors, such as liquidity risk or model uncertainties, to the extent that the Group and the Bank believes a third-party market participant would take them into account in pricing a transaction.

#### *Loans*

The estimated fair value of loans represents the discounted amount of estimated future cash flows expected to be received. The interest rate used to discount estimated cash flows are based on the prevailing money-market interest rates curve plus an adequate credit spread.

#### *Shares and other non-fixed income securities*

The fair value of shares and other non-fixed income securities is determined by reference to their quoted bid price at the reporting date, if available. For a number of non-listed shares where disposal was limited, it was assumed that it was not possible to make a reliable estimate of fair value.

The fair value of S.W.I.F.T shares was determined based on the "transfer amount", approved for the respective year by the shareholders' meeting, representing the price for new share allocation and the participants' quit price.

#### *Derivatives*

The fair value of currency swaps is estimated by discounting the contractual cash flows to be received and to be paid in appropriate foreign currencies for the residual maturity, and translating the difference of the discounted cash flows into euro, applying the exchange rate published by the European Central Bank. EURIBOR interest rates are used for discounting purposes.

#### *Liabilities to other credit institutions and customers*

The estimated fair value of deposits with no stated maturity, which includes non-interest-bearing deposits, is the amount repayable on demand, as they are largely due on demand. The estimated fair value of overnight deposits is their carrying amount. The estimated fair value of fixed interest-bearing deposits not quoted in an active market is based on discounted cash flows using interest rates for new deposits with similar remaining maturities.

### **(6) Derivatives**

Derivatives include foreign currency swaps and forwards. As at 31 December 2021 and 2020 all derivatives of the Group and the Bank were classified as financial instruments held for trading.

Derivatives are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. All derivatives are carried as assets when their fair value is positive and as liabilities when their fair value is negative.

Changes in the fair value of derivatives are recognised immediately in the income statement.

Although the Group and the Bank trades in derivative instruments for risk hedging purposes, the Group and the Bank does not apply hedge accounting.

### **(7) Repo transactions**

Repo transactions are recognized as financing transactions. When the Bank or the Group is the seller of securities, securities continue to be recognized on the statement of financial position. Proceeds from the sale are recognized as a liability to the purchaser of the securities. When the Bank or the Group is the purchaser of securities, the purchased securities are not recognized in the statement of financial position. The amount paid for securities is recognized as a loan provided to the seller. The Group is involved in two types of such transactions – classic *repo* and *buy/sell-back* transactions. The result of *repo* and *buy/sell-back* transactions is recognized in the income statement on an accrual basis as interest income or expense.

Securities purchased under agreements to resell ("reverse repo") are recorded as amounts receivable under reverse repo transactions. The differences between the purchase and resale prices are treated as interest income and accrued over the term of the reverse repo agreement using the effective interest method.

### **(8) Investment property**

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes.

If the use of the property has been changed, investment properties are reclassified to property and equipment.

Investment property is initially measured at cost. Subsequently investment property is carried at its cost less any accumulated depreciation and any accumulated impairment losses.

### **(9) Repossessed assets**

In the normal course of business the Group and the Bank occasionally take title to property and other assets that originally were pledged as security for a loan. When the Group and the Bank acquires (i.e. gains a full title to) an asset in this way, the asset's classification follows the nature of its intended use by the Group and the Bank. When the Group or the Bank is uncertain of its intentions with respect to land and buildings that it has repossessed, those properties are classified as assets classified as held for sale.

**(10) Property and equipment**

Items of property and equipment are stated at cost less accumulated depreciation and impairment losses.

Current repair and maintenance costs are charged to the income statement as incurred. Capital repairs of property and equipment are added to property and equipment at cost, and its useful life is extended. Upon increasing the carrying amount of an item of property and equipment by expenses incurred to replace a material component, the replaced component is derecognised according to the derecognition requirements.

Items of property and equipment are derecognised when disposed or when no economic benefits are expected from the use or disposal of these items in the future. Gains or losses from derecognition of items of property and equipment are determined as the difference between the proceeds from disposal and the net carrying amount of the asset at the date of disposal, and are recognised in the income statement.

Depreciation is charged to the income statement on a straight-line basis over the estimated useful lives of the individual assets. Depreciation is calculated from the date of acquisition or, in respect of internally constructed assets, from the time an asset is completed and ready for use. Where an item of property and equipment comprises major components having different useful lives, they are accounted for as separate items of property and equipment.

Depreciation methods, useful lives and residual amounts are reviewed at each reporting date.

*Land and buildings*

The cost of land and buildings disclosed in the financial statements is their assumed fair value measured at the date of acquisition. Subsequent measurement is carried out on a cost basis similar to other items of property and equipment. Land is not depreciated.

Construction in progress and capital repairs of real estate properties include costs directly attributable to construction in progress, including a corresponding proportion of direct overheads incurred during the establishment of the item of property and equipment. Depreciation of such assets is calculated from the date when the assets are put into operation.

Real estate properties are depreciated over the useful life which is determined to be 50 years.

*Leasehold improvements*

Depreciation of leasehold improvements is calculated over the remaining period of lease. Depreciation is calculated from the date when leasehold improvements are completed and ready for use.

*Useful lives of vehicle and other property and equipment*

The annual depreciation percentages are as follows:

Furniture and equipment	20%
Computers	25%
Mobile phones	50%
Others	20%
Vehicle (yacht)	10%

**(11) Intangible assets**

Intangible assets, except goodwill, are identifiable non-monetary assets without physical substance (licenses, software that is separately identifiable from electronic devices and others) held for rendering of services or other purposes if it is expected that an economic benefit attributable to these assets will flow to the Group and the Bank.

Intangible assets are recorded at cost less accumulated amortization and amortized to the profit or loss in equal amounts over the useful life of the intangible asset. The annual amortization rate for software is 20%.

## (12) Recognition of income and expenses

All significant categories of income and expenses, including interest income and expenses, are recognized on an accrual basis.

Interest income and expenses are recognized in the income statement based on the effective interest rate of the asset/liability. The effective interest rate is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial asset or liability (or, where appropriate, a shorter period) to the carrying amount of the financial asset or liability. When calculating the effective interest rate, the Group and Bank estimate future cash flows considering all contractual terms of the financial instruments, but not future credit losses.

Interest income and expenses include discount or premium amortization or other difference between the carrying amount of an interest bearing instrument and its value on the maturity date calculated based on the effective interest rate method.

Fee and commission income and expense are recognised on an accrual basis. Fees earned from the provision of services are recognised on a transaction date. Loan origination fees together with the related direct costs, are deferred and amortised to interest income over the estimated life of the financial instrument using the effective interest rate method. Fee and commission income is recognised over time on a straight line basis as the services are rendered, when the customer simultaneously receives and consumes the benefits provided by the Group's and the Bank's performance. Such income includes fees for loan, lease or other credit enhancement contracts administration.

Net trading income comprises gains less losses related to trading financial assets and liabilities, and includes all realized and unrealized fair value changes, interest, dividends and foreign exchange differences.

## (13) Off-balance sheet items

In the ordinary course of business, the Group and the Bank has been involved with off-balance sheet financial instruments consisting of commitments to extend loans and advances, financial guarantees and commercial letters of credit. Such financial instruments are recorded in the balance sheet when they are funded or related fees are incurred or received.

The Group and the Bank measures issued financial guarantees initially at their fair value, which is normally evidenced by the amount of fees received. This fee amount is then amortised on a straight-line basis over the life of the guarantee. At each balance sheet date, the guarantees are measured at the higher of (i) the unamortized balance of the amount at initial recognition and (ii) Expected credit loss.

Documentary and commercial letters of credit represent written undertakings by the Bank and the Group on behalf of a customer authorising a third party to draw drafts on the Bank and the Group up to a stipulated amount under specific terms and conditions.

## (14) Taxes

Corporate income tax for the reporting period is included in the financial statements based on the management's calculations prepared in accordance with Latvian Republic tax legislation.

Corporate income tax is calculated on the basis of distributed profit (20/80 of the net amount payable to shareholders). Corporate tax on distributed profit will be recognized when the shareholders of the Company make a decision about profit distribution.

The Bank calculates and pays corporate income tax also for the conditionally distributed profit (20/80 of calculated taxable base), which includes taxable objects in accordance with the Corporate Income Tax law, such as the expenditure not related to economic activity, the doubtful debts of debtors and the loans to the related parties, if they meet criteria provided in the Corporate Income Tax law, as well other expenses exceeding statutory limits for deduction. Corporate income tax for the conditionally distributed profit is recognized in the profit or loss statement in the year for which it is assessed. Corporate income tax for the distributed profit and corporate income tax for the conditionally distributed profit is included in the profit and loss statement line item "Corporate income tax for the reporting year" and disclosed by the components in the notes to the financial statements.

### **(15) Cash and cash equivalents**

Cash and cash equivalents are cash on hand and amounts due from the Bank of Latvia and other credit institutions with initial maturities of up to 3 months, except liabilities towards the Bank of Latvia and other credit institutions with initial maturities of up to 3 months.

### **(16) Leases**

*the Group and Bank as a lessee*

Where the Bank acts as a lessee, the standard requires that right-of-use (RoU) assets and lease liabilities arising from most leases are recognised on the balance sheet.

Depreciation of the RoU assets and interest expenses related to lease liabilities are recognised in the income statement. In the cash flow statement payments for the principal portion of the lease liability are presented within financing activities and payments for the interest portion are presented within operating activities. The lease liability is initially measured as the present value of lease payments that are not paid at the commencement date. Over time, the liability will increase with interest expense accruals and decrease with lease payments. The RoU asset is initially measured at cost i.e. the same amount as the initial measurement of the lease liability plus certain other costs, for example lease payments made at or before commencement date. The RoU asset is thereafter depreciated over the lease term. Lease payments are discounted using the incremental borrowing rate. The Bank applies a single discount rate to a portfolio of leases with reasonably similar characteristics.

*the Group as lessor*

When acting as a lessor all leases shall be classified as either an operating lease or a finance lease. Operating leases are those leases where the lessor bears the economic risks and benefits.

### **(17) Provisions**

Provisions are recognized in the statement of financial position when the Group and the Bank have a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made.

Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

### **(18) Short-term employee benefits**

Short term employee benefits, including salaries and social security contributions, bonuses and vacation benefits are included in net operation expenses on an accrual bases. The Group and the Bank pay fixed security contributions to the State Social Fund on behalf of its employees during the employment period in accordance with local legal requirements and the Group and the Bank will have no obligations to pay further contributions relating to retired employees.

### **(19) Loans and advances to customers**

Loans and advances to customers are recorded when the Group and the Bank advance money to purchase or originate a loan due from a customer. Based on the business model and the cash flow characteristics, the Group and the Bank classify loans and advances to customers into one of the following measurement categories: (i) AC: loans that are held for collection of contractual cash flows and those cash flows represent SPPI and loans that are not voluntarily designated at FVTPL, and (ii) FVTPL: loans that do not meet the SPPI test or other criteria for AC are measured at FVTPL.

**(20) Assets under management**

Assets managed by the Group and the Bank on behalf of customers are not treated as assets of the Bank and the Group. The Group and the Bank assume no risk in relation to these assets.

**(21) Investments in debt securities and Investments in equity securities**

Investment securities includes Investments in debt securities and Investments in equity securities.

**Investments in debt securities.** Based on the business model and the cash flow characteristics, the Group and the Bank classifies investments in debt securities as carried at AC, FVOCI or FVTPL. Debt securities are carried at AC if they are held for collection of contractual cash flows and where those cash flows represent SPPI, and if they are not voluntarily designated at FVTPL in order to significantly reduce an accounting mismatch.

Debt securities are carried at FVOCI if they are held for collection of contractual cash flows and for selling, where those cash flows represent SPPI, and if they are not designated at FVTPL. Interest income from these assets is calculated using the effective interest method and recognised in profit or loss. An impairment allowance estimated using the expected credit loss model is recognised in profit or loss for the year. All other changes in the carrying value are recognised in OCI. When the debt security is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from OCI to profit or loss.

Investments in debt securities are carried at FVTPL if they do not meet the criteria for AC or FVOCI. The Group and the Bank may also irrevocably designate investments in debt securities at FVTPL on initial recognition if applying this option significantly reduces an accounting mismatch between financial assets and liabilities being recognised or measured on different accounting bases.

**Investments in equity securities.** Financial assets that meet the definition of equity from the issuer's perspective, i.e. instruments that do not contain a contractual obligation to pay cash and that evidence a residual interest in the issuer's net assets, are considered as investments in equity securities by the Group. Investments in equity securities are measured at FVTPL, except where the Group elects at initial recognition to irrevocably designate an equity investments at FVOCI. The Group's policy is to designate equity investments as FVOCI when those investments are held for strategic purposes other than solely to generate investment returns. When the FVOCI election is used, fair value gains and losses are recognised in OCI and are not subsequently reclassified to profit or loss, including on disposal. Impairment losses and their reversals, if any, are not measured separately from other changes in fair value. Dividends continue to be recognised in profit or loss when the Group's right to receive payments is established except when they represent a recovery of an investment rather than a return on such investment.

**(22) New IFRS, amendments and interpretations**

Standards or interpretations effective for the first time for the annual periods beginning 1 January 2021:

• **Interest rate benchmark (IBOR) reform – phase 2 amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16** (effective for annual periods beginning on or after 1 January 2021). *Accounting for changes in the basis for determining contractual cash flows as a result of IBOR reform:*

- For instruments to which the amortised cost measurement applies, the amendments require entities, as a practical expedient, to account for a change in the basis for determining the contractual cash flows as a result of IBOR reform by updating the effective interest rate using the guidance in paragraph B5.4.5 of IFRS 9. As a result, no immediate gain or loss is recognised. This practical expedient applies only to such a change and only to the extent it is necessary as a direct consequence of IBOR reform, and the new basis is economically equivalent to the previous basis. Insurers applying the temporary exemption from IFRS 9 are also required to apply the same practical expedient. IFRS 16 was also amended to require lessees to use a similar practical expedient when accounting for lease modifications that change the basis for determining future lease payments as a result of IBOR reform.

**Notes to the Group's Consolidated and the Bank's Separate Financial Statements**

- End date for Phase 1 relief for non contractually specified risk components in hedging relationships: The Phase 2 amendments require an entity to prospectively cease to apply the Phase 1 reliefs to a non-contractually specified risk component at the earlier of when changes are made to the non-contractually specified risk component, or when the hedging relationship is discontinued. No end date was provided in the Phase 1 amendments for risk components.
- Additional temporary exceptions from applying specific hedge accounting requirements: The Phase 2 amendments provide some additional temporary reliefs from applying specific IAS 39 and IFRS 9 hedge accounting requirements to hedging relationships directly affected by IBOR reform.
- Additional IFRS 7 disclosures related to IBOR reform: The amendments require disclosure of: (i) how the entity is managing the transition to alternative benchmark rates, its progress and the risks arising from the transition; (ii) quantitative information about derivatives and non-derivatives that have yet to transition, disaggregated by significant interest rate benchmark; and (iii) a description of any changes to the risk management strategy as a result of IBOR reform.

In regards to the fact that beginning on 1 January 2022 LIBOR (London Interbank Offered rate) will no longer be published and will not be applicable to financial instrument transactions and agreements, the Bank's Investment Committee has adopted the following decisions:

- In all the credit transactions where the Base rate is 3, 6 or 12 months LIBOR to ensure its replacement with respective EURIBOR term beginning on 1 January 2022.
- In all the Bank's financial instrument transactions and respective agreements (incl. Loan agreements) in USD currency to replace currently used benchmark rate LIBOR with the BSBY (Bloomberg Short-Term Bank Yield Index) rate.

As of 31 December 2020 the Bank had 149 agreements (both with individuals and legal entities), in which EUR LIBOR floating interest rate was applied, in total amount of EUR 134,8 million and one loan agreement with USD LIBOR Base rate. Total amount of issued loan amount with LIBOR as of 31 December 2020 was EUR 143,8 million, which is 38% from overall loan portfolio as of 31 December 2020. In the Loan agreements it is set that if the Base rate amounts to zero or is negative (with a minus sign) Parties agreed that in such case the amount of the Base rate shall be set as 0.00% (zero point zero zero percent).

Therefore, (while the Base rate amounts to zero) the Bank considers both EUR LIBOR and EURIBOR as a 0.00% Thereby, replacing the base rate EUR LIBOR with EURIBOR have not affected Borrowers' interest payments as well as financial results of the Bank and the Group.

- **Covid-19-Related Rent Concessions – Amendments to IFRS 16** (effective for annual periods beginning on or after 1 June 2020). The amendments provided lessees (but not lessors) with relief in the form of an optional exemption from assessing whether a rent concession related to COVID-19 is a lease modification.

**Standards or interpretations effective for the first time for the annual periods beginning on or after 1 January 2022 or not yet adopted by the EU**

- **Amendments to IFRS 4 – deferral of IFRS 9** (effective for annual periods beginning on or after 1 January 2023).
- **Sale or Contribution of Assets between an Investor and its Associate or Joint Venture -** Amendments to IFRS 10 and IAS 28 (effective for annual periods beginning on or after a date to be determined by the IASB, not yet adopted by the EU).
- **IFRS 17 "Insurance Contracts"** (effective for annual periods beginning on or after 1 January 2021, not yet adopted by the EU).

- **Classification of liabilities as current or non-current – Amendments to IAS 1** (effective for annual periods beginning on or after 1 January 2022, not yet adopted by the EU). These narrow scope amendments clarify that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period.
- **Proceeds before intended use, Onerous contracts – cost of fulfilling a contract, Reference to the Conceptual Framework – narrow scope amendments to IAS 16, IAS 37 and IFRS 3, and Annual Improvements to IFRSs 2018-2020 – amendments to IFRS 1, IFRS9, IFRS16 and IAS 41** (effective for annual periods beginning on or after 1 January 2022).

The Group did not early adopt any standards or amendments before effective date. The management of the Group evaluates new standards and amendments impact on the financial statements of the Group and the Bank.

#### 4. RISK MANAGEMENT

Within the framework of the internal control system, the Group and the Bank have developed and follow the risk management strategy and policies, approved by the Council, which in line with the volumes, complexity and specifics of the Group's and the Bank's operations, define the following:

- 1) General guidelines observed by the Group and the Bank in their activities aimed at decreasing risks associated with their activities which might lead to losses;
- 2) Description of risk transactions and other risks to which the Group and the Bank are exposed;
- 3) Identification and management of the significant risks, including measurement, evaluation, control, and preparation of risk reports;
- 4) The procedure for setting limits and restrictions for risk transactions together with regular control and development;
- 5) Measures for the regular assessment of capital adequacy and maintenance of sufficient capital to cover the inherent risks and risks to which the Bank might be exposed to;
- 6) Updating of normative documents regarding the risk management process according to market changes.

The risk management strategy and policies describe and determine the aggregate of measures to ensure that the possibility of suffering losses is minimized in the event the invested resources are not repaid in due time or the Bank or the Group suffers other losses.

The Board of the Bank ensures the development of the risk management system as described by the risk management normative documents; the Board, the Investment Committee, Credit Committee, Non-financial Risk Management Committee and Customer Activity Compliance Control Committee make the key decisions according to their regulations. Risk Officer is responsible for the overall control and monitoring of the risk management system. Independent risk management departments ensure risk management on a daily basis. The risk management system is monitored by the Internal Audit Service on a regular basis is being continuously developed pursuant to the development of the Group and the Bank and activities on financial markets. The Board and the Council regularly receive and review the information on risk management, implementation of the strategy and policies approved by the Council. Risk management is carried out both on the Group and Bank level.

##### (1) Credit risk

Credit risk is the risk of potential loss resulting from the inability or refusal to fulfil any contractual obligations by the Group's or the Bank's debtor or counterparty.

Credit risk is managed in accordance with the Risk management Strategy and the Credit Risk Management Policy, approved by the Council of the Bank. This policy details the basic principles of credit risk management, identification, assessment, mitigation and control.

The management of risks associated with ordinary loans involves the assessment of the potential borrower's credit standing that is performed by the Financial Analysis and Risk Management Department. Decisions on granting of loans are made by the Credit Committee or the Board, based on the above analysis and evaluation of collateral. Subsequent to loan granting, the Financial Analysis and Risk

Management Department performs a regular analysis of the borrower's financial position, which enables the Bank and the Group to take prompt action in the case of deterioration of the borrower's financial position.

Credit risk that is related to inter-bank operations (or operations with financial institutions), including the credit risk related to inter-bank settlements and the Bank's investments in debt securities, is controlled by the Bank's Investment Committee that sets limits for transactions with each counter party and issuer.

The Bank and the Group monitor the concentration of significant assets, liabilities, as well as contingent liabilities and commitments' credit risk by geographical regions, customer groups and types (i.e. central governments, local authorities, state enterprises, private enterprises, private individuals, etc.) and industries. Credit risks are presented in Note 43.

### Impairment policies

An important part of the credit risk management is the estimation of provisions under IFRS9, which mostly is based on the assessment of credit risk of financial instruments. As a result of the assessment, all assets are divided into stages according to the level of credit risk and changes thereof.

The Bank and the Group recognize an allowance for expected credit losses on all loans and other debt financial assets, except financial assets which are valued as FVTPL, together with loan commitments and financial guarantee contracts.

The Bank's ECL calculations are outputs of complex models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL models that are considered in accounting judgements and estimates include:

- the criteria for assessing the significance of an increase in credit risk and the criteria for granting the Stage 1, Stage 2 or Stage 3 loans that meet the requirements of IFRS9, including the EBA guidelines for classification of loans due to the impact of COVID-19;
- assessing the accounting interpretations and modelling assumptions used to build the ECL calculation models, including various formulas and choice of inputs;
- modelling and calculation of key parameters of ECL model, including probability of default (PD), loss given default (LGD) and exposure at default (EAD);
- determining the macro-economic indicators and incorporating forward-looking information into the ECL model, as described below;
- estimating the above-mentioned indicators for individually assessed loans for a credible future period and for at least two different scenarios (baseline scenario and pessimistic scenario), and assigning probabilities to those scenarios.

In order to estimate the expected credit loss (ECL) for debt securities, inter-bank deposits, letters of credit and financing against securities portfolio, the statistics of historical defaults and recovery rates by Moody's is used. Historical PD is applied accordingly to instruments' or issuers' external credit ratings. If an instrument has not any external rating, it is conservatively assumed to apply historical data which is relevant for the rating B-. For the instruments with prime grades, where historical PD is equal to 0%, it is assumed to take PD=0.005%. PD under these scenario ranges from 0.005% for prime grade instruments to 7.81% for instruments with the lowest ratings. Significant increase in credit risk for such instruments is recognized, for example, if the instrument is downgraded and PD corresponding to the new rating increases by at least 100bp.

The approach for the ECL calculations for loan portfolio are based both on a collective and individual assessment. Criteria for the individual ECL assessment are the following:

- Outstanding amount of a loan or total amount of loans granted to one specific customer group exceeds 3 million EUR;
- Outstanding amount of a loan or total amount of loans granted to one specific customer group exceeds 0.5 million and internal credit rating "Weak"/"Hard to estimate" is assigned or the amount of the estimated potential losses exceeds 40%.

All other loans are assessed on a collective basis. Calculations of ECL in this case are based on different PD scenarios, taking into account forward looking macroeconomic information. Until December 31, 2021, a collective savings model was used, in which scenarios are based on Latvia's banking sector statistics about NPL, which is published by FCMC quarterly.

In the Bank's credit portfolio, the share of residents consists of companies with long history, previously credited by other credit institutions in Latvia, and the customer profile of resident loans does not differ significantly from credit customers of other banks. The portfolio of residents-individuals was established recently (2018–2020), and it consists of simple products (payment card overdrafts, mortgage loans and consumer loans), with a customer profile similar to that of other retail banks, thus forming the basis for statistics in this segment. The non-resident credit portfolio statistics of the banking sector of Latvia mainly (89%) consist of banks that historically have been focusing on servicing non-residents. Credit portfolios of these banks historically have had a high exposure to CIS countries (or business risks associated with CIS countries). The Bank has large number of loans in its credit portfolio, which can be affected by the economic situation of the region. Based on these statistics, the following groups of loans are established:

- Residential corporate loans;
- Non-residential loans;
- Residential private individuals: mortgages, card loans, consumer loans and other loans.

For Stage 1 loans, PD scenarios are adjusted by the following macroeconomic factors:

- For corporate loans and non-residential loans annual change in real increase/decrease of GDP is applied;
- For private individuals loans annual change in labour costs is applied.

In order to take into account the cyclical nature of the economy, the lifetime ECL for Stage 2 loans was calculated by applying a 5-year maximum NPL proportion of the respective group of loans in the total of the loans within the respective loan group, which includes the effects of the crisis period. This allows obtaining a forward-looking credit PD, taking into account a set of macro factors that are typical of a crisis period that may be relevant during the life of the loan. As a result, PD ranges from 1.36% to 17.4% (for Stage 1 loans) and from 7.46% to 33.05% (for Stage 2 loans). The PD scenarios described herein are updated on an annual basis, using the most recent available FCMC statistics on the activity of the banking sector and the data from the database of the Central Statistical Bureau. These data are applied with the deviation of one year, assuming that the actual impact of macroeconomic factors on the PD is reflected in one year.

For Stage 3 loans the PD is conservatively assumed to be equal to 100% in all loan groups.

The loss given default (LGD) ratio is calculated as the total of the gross book value of the loan and the estimated outstanding amount of the off-balance sheet items minus the carrying amount of collateral. The estimated outstanding amount of the off-balance sheet items is calculated by multiplying the actual outstanding amount of the off-balance sheet items by the expected conversion factor. This ratio is derived based on the Bank's historical data on the use of the outstanding amount of the off-balance sheet items for the last two years, by calculating the average use of the outstanding amounts of the off-balance sheet items for overdrafts and credit lines. If a loan is fully collateralised, LGD is calculated as 0.5% of the total sum of the gross book value of the loan and the estimated outstanding amount of the off-balance sheet items.

For individually assessed loans at least two scenarios are developed: base case scenario and negative one. Depending on loan quality, history and all other necessary information, Bank's credit analysts estimate the probability for each scenario. ECL is calculated as a probability weighted difference between the PV of cash flow under each scenario and the present value of contractual cash flow.

Impairments for different financial instruments are recognized based on calculated ECL coefficients and these coefficients dynamically change depending on outstanding amount of each instrument.

As of December 31, 2021, the Bank has changed the model for calculating collective impairments by applying a statistical model based on historical data of the Bank's credit portfolio for the calculation of PD rates. The Bank calculates PD rates using the Weibull approach, which is widely used in credit institutions of various sizes, both in the domestic and foreign markets. The Weibull approach is particularly well suited for calculating PD rates for portfolios with a low number of historically observed defaults.

The Weibull approach is a PD calculation method that is often used in the industry when other methods based on a larger volume of historical data cannot be applied. For example, if the homogeneous Markov chain approach is not applicable due to insufficient historical data or few default events, the Weibull approach can be applied. With the Weibull approach, historically observed defaults are adjusted (interpolated) to the function curve, resulting in PD rates with relatively small amounts of data.

To calculate PD in accordance with this approach, historical transaction data on the number of new and unique defaults are collected, aggregating the data into homogeneous groups.

Dividing the number of defaults by the total number of transactions in the relevant period, the default rate (DR) and its cumulative values are calculated.

With the Weibull function, historical default data is replicated for each future period and PD cumulative rates are calculated based on the interpolated Weibull curve.

PD rates are calculated for each homogeneous group separately, based on the historical data of the Bank's credit portfolio at the end of each month for at least 36 months, covering data on the Stage classification of each transaction and covering data on exposures assessed both individually and in homogeneous groups and on the number of observed defaults of exposures. If the data does not reflect current market conditions or if historical data is available for a shorter historical period, data for a shorter period of time is used, which is representative of exposures as of the date of ECL calculation.

The Bank models the exposure at default (EAD) every time ECL is calculated based on the payment schedule specified in the agreement and the use of unused credit limits (off-balance sheet obligations). If the Bank does not have access to information on the repayment schedule of the exposure, the Bank makes a reasonable assumption based on the best available information on the actual repayment schedule types for comparable exposures. The Bank estimates the use of unused credit limits by applying the credit conversion factor (CCF). CCF is estimated based on historical data on the proportion of the limit used for credit lines provided by the Bank.

LGD is calculated at the level of homogeneous portfolio groups or the type of pledged asset, and the calculation is updated at least once a year. At least once a year, the Bank analyses whether the factors by which LGD groups are differentiated are relevant and representative for the current portfolio.

LGD is applied to each risk transaction according to its homogeneous group or type of pledged asset. The Bank applies LGD calculated on the basis of assumptions about the adjustment of the value of recoverable funds depending on the type of mortgaged property.

To adjust the ECL with macroeconomic forecasts, the Bank uses the following approaches:

- 1) Performs statistical calculations that take into account historical correlations between macroeconomic indicators and the observed probability of default, and, based on forecasts of macroeconomic indicators, determines the applicable adjustments for future PD rates;
- 2) Uses an expert assessment based on historical data or publicly available source data, or uses information provided by third-party assessment experts.

To adjust the PD of the loan portfolio taking into account forward-looking information, the Bank uses a macroeconomic model, which is developed on the basis of the principles of the one-factor stochastic Vasicek model. The model predicts the development of PD rates due to a single market factor that has a significant impact on the probability of default.

To calculate ECL and forecast future PD rates, a baseline scenario is used, supplemented by one or more alternative scenarios reflecting at least one pessimistic scenario, for example, with a probability of occurrence of 85% and 15%, respectively. Alternative scenarios do not necessarily include less likely extreme or stressful scenarios.

The PD and LGD rates are adjusted taking into account the weighted value of all scenarios, using the probability distribution of scenarios as weights.

For ECL calculation, the Bank uses the approach  $PD \times EAD \times LGD$ . The approach focuses on each of the variables PD, EAD and LGD separately, which are applied to each of the exposures, on a monthly cash flow basis, in order to obtain the projected amount of ECL in the months up to the final maturity of the loan.

The loans, collectively assessed by volume, represent 15% of the Bank's total credit portfolio. Out of them, 85.9% are classified as Stage 1 loans, 13.9% as Stage 2 loans, and 0.2% as Stage 3 loans.

As a result of the application of the new model and assumptions, compared to the approach used until December 31, 2021, the amount of collective impairments increased by 82.9 thous. EUR or 28%.

## (2) Currency risk

Foreign exchange risk is the risk of potential loss as a result of the revaluation of assets, liabilities, as well as contingent liabilities and commitments denominated in foreign currencies due to change in exchange rates.

The Bank and the Group continuously monitor the open positions of foreign currencies and regularly assesses the structure of assets and liabilities by currency.

An analysis of sensitivity of the Bank's net profit or loss for the year and comprehensive income to changes in the foreign currency exchange rates based on positions existing as at 31 December 2021 and 31 December 2020 and a simplified scenario of a 5% change in the USD to EUR exchange rates is as follows:

EUR'000	2021		2020	
	Profit or loss	Shareholders' equity	Profit or loss	Shareholders' equity
5% appreciation of USD against EUR	115	115	(11)	(11)
5% depreciation of USD against EUR	(115)	(115)	11	11

An analysis of the foreign currency position is presented in Note 41.

## (3) Interest rate risk

Interest rate risk is related to potential losses incurred by the Group and the Bank due to movements in interest rates.

For controlling the interest rate risk, the Investment Committee performs regular analyses of assets and liabilities by maturity and type of interest. A change of interest rates by 100 basis points would result in the following changes in profit or loss and capital and reserves:

	2021 EUR'000	2020 EUR'000
EUR	768	644
USD	(52)	(99)

The interest reprising analysis is disclosed in Note 42.

## (4) Debt securities price risk

Debt securities price risk is the potential loss that may arise to the debt securities included in the trading portfolio due to the decline in market prices as a result of changes in market factors.

The debt securities price risk is managed by the Bank by setting limits on the total amount of the trading portfolio, as well as purchasing debt securities with relatively short maturities that are less sensitive to price risk.

EUR'000	2021		2020	
	Profit or loss	OCI	Profit or loss	OCI
10% increase in securities prices	-	3 938	-	5 308
10% decrease in securities prices	-	(3 938)	-	(5 308)

## (5) Liquidity risk

Liquidity risk is the risk of potential loss as a result of sales of assets or acquisition of resources at unfavourable prices in order for the Group and the Bank to fulfil its liabilities to creditors and depositors.

The Bank focuses on a conservative approach to liquidity management. The Bank allocates funds (attracted mainly from deposits) to assets in order to maintain an asset structure that is appropriate to support the Bank's operations (executing of customers' transactions) and comply with regulatory requirements concerning the liquidity ratio even in case of a significant outflow of customer deposits or a significant decrease in liquidity on the securities market.

The procedures for the management of the liquidity risk are described in the Liquidity Management Policy and consist of several components: liquidity risk indicator system, balance sheet planning, stress testing, and limits for investments in assets of limited liquidity.

The purpose of liquidity risk indicators is to reflect the actual level of the Bank's liquidity risk and quickly identify any increase in liquidity risk. The Bank's Liquidity Risk Management Policy determines specific actions to improve the Bank's liquidity position when liquidity risk indicators reach certain levels.

The aim of liquidity risk stress testing is to measure the deficit or surplus of the Bank's liquid assets that may occur due to significant outflows of customer deposits or a significant decrease in liquidity on the securities market. Based on the results of stress testing, the Bank's Investment Committee sets limits on investments in assets of limited liquidity.

The reported ratio of net liquid assets versus current liabilities at the reporting date were as follows:

	2021	2020
As at 31 December	96.14%	76.92%

Net liquid assets include cash and cash equivalents, bonds and receivables from credit institutions net of current liabilities.

Liquidity Coverage Ratio (LCR) at the reporting date was as follows:

	2021	2020
As at 31 December	166.91%	135.06%

In accordance with 'Normative regulations on establishing a capital and liquidity adequacy assessment process' No. 209 of the FCMC, the Bank carries out the assessment of the liquidity reserve adequacy necessary for its operations within the liquidity adequacy assessment process (ILAAP). Liquidity analysis is presented in Note 40.

## (6) Country risk

Country risk is the risk of potential losses arising from transactions with residents of foreign countries (or their securities) due to changes in the economic, political, and legal environment of the respective countries.

Before entering into transactions with residents of foreign countries, the Group and the Bank perform an assessment of the influence of economic, social, political and legal circumstances on the residents' ability to fulfil their obligations.

The Group and the Bank, pursuant to the State risk management policy, set the limits on placement of assets for the respective country.

## **(7) Operational risk**

Operational risk is the risk of incurring losses from inadequate or improper internal processes, human errors and errors in the operation of systems, or from external events, including legal risk, but excluding strategic and reputation risk.

The principles of the operational risk management at the Group and the Bank are established in the internal regulations of the Bank, by setting:

- Organizational structure, division of powers and the principles of delegation, functional duties, procedure for the exchange of information among the structural units and employees;
- Rules, regulations and procedures for operations and other transactions, the accounting procedure and the organisation of internal processes;
- Control over the compliance with the limits set for bank operations and other transactions;
- Rules, regulations and procedures for the functioning of information systems (technical, informational, etc.);
- Procedure for granting rights of access to information and material assets;
- Procedure for preparing and issuing reports and other information;
- Procedure for motivating employees, and other matters.

To ensure efficient conditions for the identification and assessment of the operational risk at the Group and the Bank, the Bank has established the Operational Risk Management Department, responsible for personnel training on the matters of operational risk. The Operational Risk Management Department has an operational event database in place, which ensures receiving information about operational risk events, thus enabling proper recording, management and addressing of risks.

A systemic approach is applied in the identification and management of risks characteristic to new financial services and products as part of the approval process of the new services and products. This process involves all the structural units providing control and support functions together with structural units of the relevant business lines in order to ensure the assessment of the new financial services or products.

The Bank's Business Continuity Plan (BCP) includes actions and measures to be taken in various crisis situations and related operational risks, including possible events related to disruption of IT and support services, unavailability of critical resources or suppliers. Having assessed the Bank's BCP and operational risks that may arise as a result of the development of the geopolitical situation, we have concluded that the BCP includes the main risks of a possible crisis of the geopolitical situation. The Bank has its own Client Service Centre, which also provides the Bank's clients with cash and settlement operations, as well as, if necessary, the Bank can quickly increase the volumes of on-site customer service. The Bank and the Group has assessed and tested the existing IT infrastructure capacity and defence capacity, especially taking into account the potential of cyber-attacks and concluded that the IT infrastructure capabilities are sufficient to repel the most likely cyber-attacks with acceptable impact. The general testing of the BCP is provided on a regular basis, and within its framework the Bank ensures the provision of critical operational functions.

The Bank has also developed Action plans for various crisis situations. The Bank and the Group have set up an independent Internal Audit Service (IAS), whose primary function is to ensure that the activities of the Bank and the Group comply with the applicable laws and regulations, approved plans, policies and other internal documents of the Bank, and with the internal control procedures governing the functions of the Group's and the Bank's structural units.

## **(8) Management of money laundering and terrorist financing risk and the Customer Policy**

### **(a) General Policy**

The existing business model of the Group and the Bank is aimed at providing financial services to clients, therefore its activities are related to the risk of money laundering and terrorist and proliferation financing, as well as sanctions. Accordingly, the Group and the Bank devote significant efforts to ensure compliance with the requirements of the laws and regulations of the Republic of Latvia, recommendations of international organisations, best practices, as well as other binding regulations in the area of anti-money laundering and combating the financing of terrorism and proliferation (hereinafter – AML/CFTP),

as well as prevention of possible violation, circumvention or attempted violation of National, International and OFAC sanctions (hereinafter – Sanctions).

The Bank has approved the AML/CFTP Policy, which establishes:

- The key principles of customer due diligence, client transaction monitoring, enhanced due diligence, including the analysis of personal or business activities of clients and their counterparties;
- The key principles of identification and due diligence of beneficial owners of clients;
- The key principles of client risk assessment, identification and management. Based on the information generated during the client's initial due diligence, the client's initial risk is established, which is automatically assigned by the client risk scoring system based on a number of risk factors. Client risk is regularly reviewed in the light of changes in risk factors.

The Bank has approved the Sanction risk management policy, which defines the tasks and procedures of the Bank's structural units in the area of client acquisition and servicing, the general terms for initiating business relationship with clients, carrying out the client due diligence and client risk identification measures, including the general procedure for terminating business relationship with clients who do not meet the requirements of the Sanction risk management policy.

Throughout the business relationship between the client and the Bank, the Bank continues to collect information on the client's economic activities and personal activities as far as it is necessary to meet the requirements set out in the regulations. Client files are regularly supplemented and updated with the results of studying client activity and their transactions, as well as documents supporting transactions. In the opinion of the Bank's management, through gaining the understanding about the client business activities and their geographical coverage, monitoring their transactions and refraining from the execution of suspicious financial transactions, the Group and the Bank minimize the risk of being involved in potential money laundering and terrorism and proliferation financing activities, as well as reduce the risk of being involved in violation or circumvention of sanctions or such attempts.

The Bank has approved the money laundering and terrorist and proliferation financing risk and sanctions risk management strategy, which sets out the key principles for managing the risks of money laundering, terrorism and proliferation financing and sanctions (hereinafter – ML/TPF and Sanctions risk), development of internal control system, risk identification measures, and risk mitigation and control mechanisms. Taking into account the Bank's strategy, the ability of the Bank to manage the ML/TPF and Sanctions risk, and the available resources, the ML/TPF and Sanctions Risk Management Strategy sets out the ML/TPF risk exposure rates and their maximum permissible limits.

The ML/TPF and Sanctions Risk Management Strategy, AML/CFTP Policy and Sanctions Risk Management Policy establish requirements for such organisational structure fundamentals, which are based on the following principles of three-tier protection and control:

- Tier 1 controls — employees of business structural units in charge of acquiring and servicing customers, ensuring compliance with the 'Know Your Customer' (KYC) and 'Know Your Customer's Customer' (KYCC) principles both when entering into a business relationship with the client and during business relationship. Each employee of the Bank's structural units is responsible for knowing and complying with ML/TPF and Sanctions risk requirements in cooperation with clients, as well as for promoting and respecting the professional internal culture in accordance with the Corporate Ethics Standards Code.
- Tier 2 controls — structural units in charge of client acceptance and due diligence prior to establishing business relationship, monitoring of client transactions and support function, that provide independent research and acceptance of clients, supervision of servicing, analysis of client transactions, issue of opinions on planned client transactions, and, through the use of automated tools, carry out transaction monitoring, reporting (Financial Intelligence Unit, the State Revenue Service, the State Security Service, the Finance and Capital Market Commission, the Register of Enterprises of the Republic of Latvia), as well as risk management and operational compliance directors and heads of departments responsible for supervision. In addition to monitoring the Sanctions risk, the Bank has appointed a responsible employee in charge of considering matters related to International, OFAC and National sanctions at the Bank, consulting other employees of the Bank and issuing opinions on Sanctions-related matters.

- Tier 3 controls are implemented by the Internal Audit Service through independent and regular management of ML/TPF and Sanctions risk and assessment of controls.

The Bank has appointed a Board member in charge of ML/TPF and Sanctions risk management, as well as the employee responsible for the compliance with AML/CFTP requirements.

The Bank's internal control system in the area of ML/TPF and Sanctions risk management is based on the principle of distribution of certain duties and responsibilities between structural units and employees; it defines the criteria for decision-making, establishes a certain responsibility for monitoring the client activities and lays the foundations for the activity of compliance units. To ensure general control and organisation of supervisory measures related to the internal control system, the Bank has established the Client Activity Compliance Committee.

#### **(b) Improvement of the AML/CFTP internal control system**

In the second half of 2020, in accordance with the requirements of the Law on the Prevention of Money Laundering and Terrorism and Proliferation Financing, the Bank carried out an assessment of the efficiency of the internal control system in the field of ML/TPF and Sanctions risk management and of the IT system, involving an independent external auditor.

Taking into account the recommendations of the independent auditor, the following measures were taken to improve the internal control system in the field of ML/TPF and Sanctions risk management: the internal regulatory documents were updated, the client risk scoring system was improved, ML/TPF and Sanctions risk scoring methodology and threshold determination methodology were developed, scenarios developed for alerts or messages that are generated in the automated system were improved, and client files were audited.

The implementation of the recommendations of the independent auditor was completed at the end of 2021. In 2021, the Financial and Capital Market Commission introduced "Regulations on the Establishment of Customer Due Diligence, Enhanced Customer Due Diligence and Risk Scoring System and Information Technology Requirements", which entered into force at the beginning of 2021. The recommendations of the independent auditor were implemented in due time.

The Financial and Capital Market Commission (hereinafter – the FCMC) carried out a regular on-site inspection of the Bank in the field of anti-money laundering and terrorism and proliferation financing prevention and sanctions risk management, inspection was conducted from 25 January 2021 to 5 March 2021. The inspection was successfully finalized, that was been confirmed by a written letter issued by FCMC. As of result, FCMC has not identified any substantial shortcomings. All other insignificant shortcomings were accordingly remediated up to the receipt of the FCMC letter. Currently the Bank is developing an action plan for the improvement of the internal control system for the management of money laundering and terrorism and proliferation financing risks as well as sanction risks to ensure development and efficiency of internal control system. Bank continues to follow the statutory requirements stipulated in the laws of the Republic of Latvia as well as international best practice established by reputable international organisations in the field of AML/CFT to ensure efficiency of internal control system in accordance to the highest standards.

#### **(9) Management of compliance risk**

Compliance risk — a risk that the Group or the Bank may incur losses or may be subject to legal obligations or sanctions, or its reputation as an institution may be damaged due to non-compliance of its operations or violation of the requirements of laws, rules and standards in the area of compliance.

The Bank has introduced the compliance control system, which is based on the principle that the function of compliance control in the Bank is provided by an organisationally separated unit — the Compliance Control Department, which acts under the direct authority of the Chief Compliance Officer. In order to ensure the compliance function, the Bank has appointed compliance experts, — employees of the Bank's structural units, experts in the field concerned.

The Bank has appointed a personal data protection officer in charge of organising, controlling and supervising the compliance of personal data processing at the Bank as a Controller with the requirements

of the regulatory enactments in the area of personal data protection of the European Union and the Republic of Latvia. The main goal of the Compliance Control Department is to ensure the identification, assessment and management of the compliance risk. The purpose of the compliance function is to ensure the identification, documentation, assessment of the compliance risk, by ensuring that prior to the initiation of any new activity, the compliance risk associated with the respective activity is identified, and the Bank's compliance with compliance laws, rules and standards is assessed.

Compliance of the activities of the Bank characterises the Bank's ability to act pursuant to the applicable laws, regulations and standards in the area of compliance, which can further be subdivided in 2 levels:

- Compliance with external requirements in general (requirements integrated in the internal regulatory documents and processes);
- Appropriate internal control system capable of ensuring continued compliance with the relevant requirements.

Pursuant to the changes in regulatory enactments, an internal whistleblowing system was introduced providing for reporting on deficiencies and other violations of the internal control system and ensuring the protection guarantees for whistleblowers pursuant to the Whistleblowing Law.

In scope of corporate governance, the process of identifying and managing situations of conflict of interest was improved, and a systematic approach to collecting information on situations that may create conflicts of interest for the Bank was developed.

The system for reporting and providing information to internal and external information requests is continuously reviewed and updated.

#### **(10) Capital management**

The Bank's Capital Adequacy Management Policy requires maintenance of a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business as well as to ensure the Bank's capital at an adequate level for covering potential risks arising from current and future operations.

As at 31 December 2021, the Bank's capital adequacy ratio was 16.02% (2020: 15.79%) which corresponds to the requirements set in the Basel Capital Accord and the regulations of the FCMC of Latvia. Under the capital requirements introduced by Regulation (EU) No 575/2013 of the European Parliament and of the Council and the FCMC banks need to maintain a ratio of capital to risk weighted assets ("statutory capital ratio") above the prescribed minimum level. Although the minimum required level as at 31 December 2021 was 8%, according to a special request by the FCMC the Bank was required to ensure a higher capital adequacy of 11.00% during the period from 28 December 2021. In addition to the above capital requirement for the overall risk coverage, the Bank is required to maintain compliance with the total capital reserve requirement calculated in accordance with Section 35<sup>22</sup>, 35<sup>23</sup>, 35<sup>24</sup> or 35<sup>25</sup> of the Credit Institution Law: 2.50% (Capital conservation buffer – 2.50%, institution-specific countercyclical capital buffer – 0.0% (as at 31.12.2021). The requirements of the total capital reserve should be met using Tier 1 capital.

During the years 2021 and 2020 as of 31 December of these years the Bank and the Group were in compliance with the capital adequacy and the minimum capital requirement specified in the Law On Credit Institutions and the rules of the FCMC, as well as in compliance with the higher ratio required by the FCMC.

For the calculation of capital adequacy as at 31 December 2021 refer to Note 44.

In addition to the calculation of the capital adequacy ratio in accordance with 'Normative regulations on establishing a capital and liquidity adequacy assessment process' No. 209 of the FCMC, the Bank regularly conducts its own internal capital adequacy assessment in order to ensure that it covers all the risks assumed by the Bank and whether they are covered by the capital.

## 5. USE OF ESTIMATES AND JUDGMENTS

The preparation of financial statements in conformity with IFRS as adopted by EU requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. Although these estimates are based on management's best knowledge of current events and actions, the actual results ultimately may differ from those estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to the accounting estimates are recognized in the period, in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The Group's and the Bank's management makes significant estimates and judgements in respect of expected credit losses on loans and receivables (see note "Risk management – Credit risk").

The results of the year 2021 showed significant increase in the business activity of the Bank's customers in many industries: in ship industry, woodworking, real estate, wholesale and in other sectors.

All customers who were granted deference for loan payments in 2020, resumed credit payments according to their initial schedules. It is very likely that in 2022, after the trial period, these loans will be reclassified from Stage 2 to Stage 1.

In the hotel industry, situation significantly improved in 2021 compared to 2020: Hotels reached the workload of 85% during the summer period of 2021, which is above the average level of workload in hotel industry even compared to the situation before the COVID pandemic.

As of March 1, 2022, number of COVID-related restrictions in accordance with the government's decision will be cancelled, which certainly will increase the flow of tourists.

Taking into account the rapid growth of the Latvian economy (+4.8% of GDP) and accordingly creditworthiness improvement of the customers whose business was significantly affected by the COVID pandemic in 2020, as well as the general trend toward the cancellation of movement restrictions within the EU and accordingly the recovery of tourism, we estimate that the amount of provisions made at the end of 2021 for expected losses as the maximum, as well as the probability of the losses in the indicated amount related to the COVID, we estimate as low.

Other assets written off during the year	-	-
<b>Total allowance as at the end of the reporting period*</b>	<b>5 474</b>	<b>5 474</b>

\* including impairment for Repossessed collaterals 1,607 thousand EUR (see Note 22) and investments in subsidiaries 3,867 thousand EUR (see Note 21).

### 14. CORPORATE INCOME TAX

	2021		2020	
	Group EUR'000	Bank EUR'000	Group EUR'000	Bank EUR'000
Corporate income tax for the conditionally distributed profit	(9)	(9)	(8)	(8)
<b>Total corporate income tax</b>	<b>(9)</b>	<b>(9)</b>	<b>(8)</b>	<b>(8)</b>

According to the Law on Corporate Income Tax of the Republic of Latvia adopted on 28 July 2017, and effective as of 1 January 2018, a 20% rate is only applied to distributed profits while a 0% rate is expected to be applied to undistributed profits. Therefore, deferred tax assets and liabilities are recognisable at nil amount as of 31 December 2021 as the Group and the Bank have full discretion on the distribution decisions.

### 15. CASH AND DEMAND DEPOSITS WITH CENTRAL BANK

	2021		2020	
	Group EUR'000	Bank EUR'000	Group EUR'000	Bank EUR'000
Cash	951	951	688	688
Balance with the Bank of Latvia (including the minimum reserve deposit)	269 167	269 167	112 315	112 315
<b>Total</b>	<b>270 118</b>	<b>270 118</b>	<b>113 003</b>	<b>113 003</b>

According to the regulations of the Financial and Capital Markets Commission, the total amount of funds on the account with the Central Bank should not be less than the amount of the obligatory reserves calculated from the average amount of customer deposits during the month. The obligatory reserve as at 31 December 2021 was EUR 6 488 thousand (2020: EUR 5 231 thousand).

Cash and balances with the Bank of Latvia are available on demand, thus, taking into account very low probabilities of default of these balances, expected credit loss is immaterial.

**16. LOANS AND RECEIVABLES FROM BANKS**

	2021		2020	
	Group EUR'000	Bank EUR'000	Group EUR'000	Bank EUR'000

The extent to which collateral and other credit enhancements mitigate credit risk for financial assets carried at amortised cost that are credit impaired, is presented by disclosing collateral values separately for (i) those assets where collateral and other credit enhancements are equal to or exceed carrying value of the asset ("over-collateralised assets") and (ii) those assets where collateral and other credit enhancements are less than the carrying value of the asset ("under-collateralised assets").

The effect of collateral on credit impaired assets at 31 December 2021 is as follows.

EUR'000	Over-collateralised assets		Under-collateralised assets	
	Carrying value of the assets	Value of collateral	Carrying value of the assets	Value of collateral
<b>Loans to corporate customers</b>	<b>25 400</b>	<b>43 428</b>	<b>961</b>	<b>1 510</b>
Loans to SME	25 400	43 428	961	1 510
<b>Loans to individuals</b>	<b>8</b>	<b>42</b>	<b>48</b>	<b>-</b>
Consumer loans	-	-	29	-
Credit cards	5	7	19	-
Mortgage loans	3	35	-	-

The effect of collateral on credit impaired assets at 31 December 2020 is as follows.

EUR'000	Over-collateralised assets		Under-collateralised assets	
	Carrying value of the assets	Value of collateral	Carrying value of the assets	Value of collateral
<b>Loans to corporate customers</b>	<b>2 988</b>	<b>4 602</b>	<b>5 592</b>	<b>4 172</b>
Standard lending	-	-	-	-

The two buildings that the Bank rents from its subsidiaries at Smilšu street and Jēkaba street are used as the Head office of the Bank. From the Group's perspective, these buildings are considered to be corporate assets and are classified as property and equipment. In 2021 and 2020, the management believes that there are no indications that these sites may be impaired.

The Bank participated in the long-term refinancing target programme (TLTRO III) of the European Central Bank, by borrowing EUR 75 million. The loan has a 3-year maturity with the possibility of early repayment, starting from September 2021. Borrowing rates in these operations may be lower for 50 base points than the average interest rate on ECB deposits during the period from 24 June 2020 and 23 June 2022, provided that the lending thresholds for the respective periods, as established by the ECB, are reached. Outside this period, the interest rate can be as low as the average deposit rate, which is currently -0.50%. Liabilities are recognised as a floating-rate instrument and expected cash flows are based on an assumption that lending thresholds will be reached.

**35. CONTINGENT LIABILITIES AND COMMITMENTS**

At any time the Bank has outstanding commitments to extend credit. These commitments take the form of approved loans and credit card limits and overdraft facilities.

The Bank provides financial guarantees and letters of credit to guarantee the performance of customers to third parties. These agreements have fixed limits and generally extend for a period of up to five years.

The contractual amounts of commitments are set out in the following table by category. The amounts reflected in the table for commitments assume that amounts are fully advanced. The amounts reflected in the table for guarantees and letters of credit represent the maximum accounting loss that would be recognized at the reporting date if counterparties failed to completely perform as contracted.

	2021		2020	
	Group EUR'000	Bank EUR'000	Group EUR'000	Bank EUR'000
Unused loan facilities	37 728	37 728	70 952	70 952
Unused credit card facilities	1 087	1 087	1 374	1 380
Guarantees and other	1 925	1 928	1 442	1 442
	<b>40 740</b>	<b>40 743</b>	<b>73 768</b>	<b>73 774</b>
<i>Provisions</i>	<i>(92)</i>	<i>(92)</i>	<i>(196)</i>	<i>(197)</i>

The total contractual amounts of the above loan commitments may differ from the cash flow that may actually be required in future as these commitments may expire before they are claimed.

The reprising maturity analysis of the Group is not significantly different from that of the Bank disclosed above.

**43. MAXIMUM CREDIT EXPOSURE ANALYSIS**

The Bank's maximum exposure to credit risk is set out below. The impact of possible netting of assets and liabilities to reduce potential credit exposure is not significant.

**Maximum credit exposure**

At 31 December EUR'000	Notes	Gross maximum credit exposure	
		Bank 2021	Bank 2020
Cash and balances with central banks	15	270 118	113 003
Loans and receivables from banks	16	34 426	24 528
Trading financial assets	17, 32	1 601	2 839
Investment securities	19, 21	185 208	224 656
Loans and receivables	20	344 179	303 190
Other financial assets	26	7 646	6 818
<b>Total financial assets</b>		<b>843 178</b>	<b>675 034</b>
Unused loan facilities	35	37 728	70 952
Unused credit card facilities	35	1 087	1 380
Guarantees and others	35	1 928	1 442
<b>Total guarantees and commitments</b>		<b>40 743</b>	<b>73 774</b>
Total maximum credit risk exposure		<b>883 921</b>	<b>748 808</b>

The maximum credit risk exposure analysis of the Group is not significantly different from that of the Bank disclosed above.

The Group's maximum exposure to credit risk is reflected in the carrying amounts of financial assets in the consolidated statement of financial position. For financial guarantees issued, commitments to extend credit, undrawn credit lines and export/import letters of credit, the maximum exposure to credit risk is the amount of the commitment.

Credit risk management. Credit risk is the single largest risk for the Group's business; management therefore carefully manages its exposure to credit risk.

The estimation of credit risk for risk management purposes is complex and involves the use of models, as the risk varies depending on market conditions, expected cash flows and the passage of time. The assessment of credit risk for a portfolio of assets entails further estimations of the likelihood of defaults occurring, the associated loss ratios and default correlations between counterparties.

Limits. The Group structures the levels of credit risk it undertakes by placing limits on the amount of risk accepted in relation to one borrower, or groups of borrowers, and to geographical and industry segments. Limits on the level of credit risk by product and industry sector are approved regularly by management. Such risks are monitored on a revolving basis and are subject to an annual, or more frequent, review

Credit risks policies are presented in Note 4.1.

#### 44. CAPITAL ADEQUACY CALCULATION (BANK)

	2021 EUR '000	2020 EUR '000
<b>Tier 1</b>		
<b>Share capital</b>	44 493	39 493
Statutory reserves	24	24
<b>Retained earnings for the previous periods</b>	27 649	28 944
Profit for the reporting period	9 766	3 705
Changes on application of IFRS 9	1 110	2 652
Revaluation reserve – financial assets	(128)	122
Other reserves	(2 403)	(2 074)
Intangible assets	(351)	(550)
Insufficient coverage for non-performing exposures	(2)	-
Other deductions	(42)	(63)
Reduction of Tier 1 capital (Pillar 2 adjustments)	(244)	(185)
<b>Additional Tier 1</b>	1 100	400
<b>Total Tier 1</b>	<b>80 972</b>	<b>72 468</b>
<b>Subordinated debt</b>	321	3 333
Reduction of Tier 2 capital (Pillar 2 adjustments)	-	-
<b>Tier 2 capital</b>	<b>321</b>	<b>3 333</b>
<b>Equity</b>	<b>81 293</b>	<b>75 801</b>
<b>Risk-weighted value</b>		
Banking portfolio	443 303	428 186
Trading portfolio	3 071	6 817
Operating risk	42 482	44 938
Total risk exposure amount loan adjustment	-	8
<b>Total risk weighted assets</b>	<b>488 856</b>	<b>479 949</b>
<b>Total capital as a percentage of risk weighted assets (total capital ratio)</b>	<b>16.63%</b>	<b>15.79%</b>
<b>Total tier 1 capital expressed as a percentage of risk-weighted assets ("tier 1 capital ratio")</b>	<b>16.56%</b>	<b>15.10%</b>

The above is based on internal reports of the Bank, provided to key management of the Bank.

As at 31 December 2021, the Bank's capital adequacy ratio was 16.63% (2020: 15.79%) which corresponds to the requirements set in the Basel Capital Accord and the regulations of the FCMC of Latvia. Under the capital requirements introduced by Regulation (EU) No 575/2013 of the European Parliament and of the Council and the FCMC banks need to maintain a ratio of capital to risk weighted assets ("statutory capital ratio") above the prescribed minimum level. Although the minimum required level as at 31 December 2021 was 8%, according to a special request by the FCMC the Bank was required to ensure a higher capital adequacy of 10.20% during the period from 21 April 2020. In addition to the above capital requirement for the overall risk coverage, the Bank is required to maintain compliance with the total capital reserve requirement calculated in accordance with Section 35<sup>22</sup>, 35<sup>23</sup>, 35<sup>24</sup> or 35<sup>25</sup> of the Credit Institution Law -2.50% (Capital conservation buffer – 2.50%, institution-specific countercyclical capital buffer – 0.0% (as at 31.12.2021). The requirements of the total capital reserve should be met using Tier 1 capital.

During the years 2021 and 2020 as of 31 December of these years the Bank and the Group were in compliance with the capital adequacy and the minimum capital requirement specified in the Law On Credit Institutions and the rules of the FCMC, as well as in compliance with the higher ratio required by the FCMC.

In addition to the calculation of the capital adequacy ratio in accordance with 'Normative regulations on establishing a capital and liquidity adequacy assessment process' No. 209 of the FCMC, the Bank regularly conducts its own internal capital adequacy assessment in order to ensure that it covers all the risks assumed by the Bank and whether they are covered by the capital.

## Notes to the Group's Consolidated and the Bank's Separate Financial Statements

In accordance with Regulation (EU) of the European Parliament and of the Council 575/2013, the calculation of capital adequacy is performed at the consolidated level, including the parent company of the bank (AS BBG). All of the above requirements are also met at the consolidated level. CALCULATION OF CAPITAL ADEQUACY at the consolidated level can be found on the Bank's website in the section "financial information" in the quarterly financial report (<https://www.blueorangebank.com/lv/finansu-informacija>)

## 45. FAIR VALUE OF FINANCIAL INSTRUMENTS

### (a) Financial instruments measured at fair value

The table below analyses financial instruments measured at fair value at the end of the reporting period, by the level in the fair value hierarchy into which the fair value measurement is categorised.

#### The Group and the Bank

	Published price quotations (1)	Valuation techniques based on market observable inputs (2)	Valuation techniques based on unobservable inputs (3)	Total

## Notes to the Group's Consolidated and the Bank's Separate Financial Statements

Included in category "Published price quotations" (Level 1) are financial assets and liabilities that are measured by reference to published quotes in an active market. A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service or regulatory agency and those prices represent actual and regularly occurring market transactions on an arm's length basis. The main asset classes included in this category are financial assets for which the fair value is obtained via pricing vendors or binding broker quotes and assets for which the fair value is determined by reference to indices.

Included in category 2 "Valuation methods based on market observable data" are financial assets and liabilities that are measured using a valuation technique based on assumptions that are supported by prices from observable current market transactions in the same instrument or based on available market data.

Not based upon market observable (Level 3) input means that fair values are determined in whole or in part using a valuation technique (model) based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

The following table shows the valuation techniques used in measuring Level 2 fair values:

Type	Valuation technique
Financial assets and liabilities designated as at fair value through profit or loss.	Market comparison technique: The fair values are based on broker quotes. Similar contracts are traded in an active market and the quotes reflect the actual transactions in similar instruments.
Financial assets measured at fair value through other comprehensive income	Valuation is based on financial indicators, including discounted cash flows and value of Bank's position with the price hedge

The following table shows the valuation techniques used in measuring Level 3 fair values:

Type	Valuation method	Significant unobservable inputs	Inter-relation between significant unobservable inputs and fair value measurement
Assets at fair value through profit or loss (illiquid bonds)	Valuation is based on financial indicators, including discounted cash flows.	Net assets	The estimated fair value would increase (decrease), if: Increase/(decrease) in net assets
Financial assets at fair value through profit or loss	Outlook of the court case and estimated proceeds	Court case's order	The estimated fair value would increase (decrease) if: Positive (negative) court case's order
Financial assets measured at fair value through other comprehensive income	Valuation is based discounted dividend model	Future net revenues; CAPEX	The estimated fair value would increase (decrease) if: revenue increases/ (decreases/ CAPEX decreases/ (increases)

**Changes in financial instruments of the Group/Bank classified as Level 3 in Fair Value Hierarchy:**

<b>31.12.2021</b>				
<b>Financial assets at fair value</b>	<b>31.12.2020.</b>	<b>Acquired (sold)</b>	<b>Fair value adjustment</b>	<b>31.12.2021</b>
Fixed income securities	3 135	379		3 514
Non fixed income securities	218	-	-	218
<b>Total financial assets at fair value</b>	<b>3 353</b>	<b>379</b>		<b>3 732</b>

<b>31.12.2020</b>				
<b>Financial assets at fair value</b>	<b>31.12.2019.</b>	<b>Acquired</b>	<b>Fair value adjustment</b>	<b>31.12.2020</b>
Fixed income securities	8 143	(5 008)	-	3 135
Non fixed income securities	218	-	-	218
<b>Total financial assets at fair value</b>	<b>8 361</b>	<b>(5 008)</b>		<b>3 353</b>

The table below analyses the fair values of financial instruments other than measured at fair value by the level in the fair value hierarchy into which each fair value measurement is categorised.

<b>31 December 2021</b>	<b>Level 1: EUR'000</b>	<b>Level 2: EUR'000</b>	<b>Level 3: EUR'000</b>	<b>Total fair value EUR'000</b>	<b>Total carrying amount EUR'000</b>

Other financial liabilities	-	-	461	461	461

The following table shows the valuation techniques use in measuring Level 2 and Level 3 fair values, as well as the significant unobservable inputs used:

Type	Valuation method	Significant unobservable inputs
Loans and advances due from financial institutions	Discounted cash flows	Discount rates
Loans	Discounted cash flows	Discount rates
Due to financial institutions	Discounted cash flows	Discount rates
Deposits	Discounted cash flows	Discount rates

#### 46. EVENTS AFTER THE REPORTING PERIOD

On February 24th Russia's army attacked Ukraine and initiated a full scale war on Ukraine's territory. Sanctions against Russian state entities, corporates and related to regime persons were imposed by European Union, United States and other countries, resulting in Russia's equity, debt and currency markets collapse.

The Group and the Bank had no marketable exposures or loans exposure on the assets that were affected by these events, neither did the Group and the Bank have significant exposures on the financial institutions in Russia or Ukraine. The Group and the Bank has performed preliminary measures to reduce exposures with potential risks related to the war in Ukraine and therefore sees no significant potential losses due to it.

The Group and the Bank have performed preliminary measures to reduce exposures with potential risks related to the war in Ukraine and sanctions against Russia and therefore sees no significant potential losses due to it.
